Winner of the Norman B. Tomlinson, Jr. Prize "The best large-scale synthesis in any language of what we currently know and understand about this multidimensional, cataclysmic conflict." —Richard J. Evans, Times Literary Supplement In this monumental history of the First World War, Germany's leading historian of the period offers a dramatic account of its origins, course, and consequences. Jörn Leonhard treats the clash of arms with a sure feel for grand strategy. He captures the slow attrition, the race for ever more destructive technologies, and the grim experiences of frontline soldiers. But the war was more than a military conflict and he also gives us the perspectives of leaders, intellectuals, artists, and ordinary men and women around the world as they grappled with the urgency of the moment and the rise of unprecedented political and social pressures. With an unrivaled combination of depth and global reach, Pandora's Box reveals how profoundly the war shaped the world to come. "[An] epic and magnificent work—unquestionably, for me, the best single-volume history of the war I have ever read...It is the most formidable attempt to make the war to end all wars comprehensible as a whole." —Simon Heffer, The Spectator "[A] great book on the Great War...Leonhard succeeds in being comprehensive without falling prey to the temptation of being encyclopedic. He writes fluently and judiciously." —Adam Tooze, Die Zeit "Extremely readable, lucidly structured, focused, and dynamic...Leonhard's analysis is enlivened by a sharp eye for concrete situations and an ear for the voices that best convey the meaning of change for the people and societies undergoing it." —Christopher Clark, author of *The Sleepwalkers*

**The Sleepwalker's Guide to Dancing** Bloomsbury Publishing USA

Bringing the history of cosmology--from the Babylonians to Newton--to life in a masterly synthesis, Koestler shows how the modern world-view replaced the medieval world-view in the

scientific revolution of the seventeenth century.

*The Sleepwalkers. A History of Man's Changing Vision of the Universe, Etc* Princeton University Press

"A monumental new volume. . . . Revelatory, even revolutionary. . . . Clark has done a masterful job explaining the inexplicable." — Boston Globe One of The New York Times Book Review's 10 Best Books of the Year • Winner of the Los Angeles Times Book Prize (History) Historian Christopher Clark's riveting account of the explosive beginnings of World War I. Drawing on new scholarship, Clark offers a fresh look at World War I, focusing not on the battles and atrocities of the war itself, but on the complex events and relationships that led a group of well-meaning leaders into brutal conflict. Clark traces the paths to war in a minute-by-minute, action-packed narrative that cuts between the key decision centers in Vienna, Berlin, St. Petersburg, Paris, London, and Belgrade, and examines the decades of history that informed the events of 1914 and details the mutual misunderstandings and unintended signals that drove the crisis forward in a few short weeks. Meticulously researched and masterfully written, *The Sleepwalkers* is a dramatic and authoritative chronicle of Europe's descent into a war that tore the world apart.

*Penguin Modern Classics the Sleepwalkers* Amer Bar Assn

Nineteen Arab women journalists speak out about what it's like to report on their changing homelands in this first-of-its-kind essay collection, with a foreword by CNN chief international correspondent Christiane Amanpour "A stirring, provocative and well-made new anthology . . . that rewrites the hoary rules of the foreign correspondent playbook, deactivating the old clichés." —Dwight Garner, The New York Times A growing number of intrepid Arab and Middle Eastern sahafiyat—female journalists—are working tirelessly to shape nuanced narratives about their changing homelands, often risking their lives on the front lines of war. From sexual harassment on the streets of Cairo to the difficulty of traveling without a male relative in Yemen, their challenges are unique—as are their advantages, such as being able to speak candidly with other women at a Syrian medical clinic or with men on Whatsapp who will go on to become ISIS fighters, rebels, or pro-regime soldiers. In *Our Women on the*

Ground, nineteen of these women tell us, in their own words, about what it's like to report on conflicts that (quite literally) hit close to home. Their daring and heartfelt stories, told here for the first time, shatter stereotypes about the region's women and provide an urgently needed perspective on a part of the world that is frequently misunderstood. INCLUDING ESSAYS BY: Donna Abu-Nasr, Aida Alami, Hannah Allam, Jane Arraf, Lina Attalah, Nada Bakri, Shamael Elnoor, Zaina Erhaim, Asmaa al-Ghoul, Hind Hassan, Eman Helal, Zeina Karam, Roula Khalaf, Nour Malas, Hwaida Saad, Amira Al-Sharif, Heba Shibani, Lina Sinjab, and Natacha Yazbeck

*The Parasomnias and Other Sleep-Related Movement Disorders* Cambridge University Press

Is it still a crime if you commit it in your sleep? Ethan Barret is on trial for attempted murder. The problem is, he doesn't remember doing it. His hands committed the crime, but he was asleep the whole time. Ethan Barret is also only twelve years old. Gordon Pope is down on his luck. He was one of the best child-psychiatrists in the country before his divorce. Now he's broke, bored, and spiraling into depression. He agrees to be an expert witness in Ethan's case because he needs the extra cash for drinking money. What he doesn't know is that he's about to be thrown into a race against time to save the boy, and himself, before it's too late for both of them. *The Sleepwalkers* is a riveting thriller that will change the way you think about sleep--and dreams--forever.

*The Sleepwalkers* Vintage

'Of the "Great Powers" that dominated Europe from the eighteenth to the twentieth centuries, Prussia is the only one to have vanished ... Iron Kingdom is not just good: it is everything a history book ought to be ... The nemesis of Prussia has cast such a long shadow that German historians have tiptoed around the subject. Thus it was left to an Englishman to write what is surely the best history of Prussia in any language' Sunday Telegraph  
*A World Undone* Penguin

Criminal lawyer and bestselling mystery author Erle Stanley Gardner wrote nearly 150 novels that have sold 300 million copies worldwide. Now, the American Bar Association is bringing back his

most famous and enduring novels featuring criminal defense lawyer and sleuth Perry Mason in striking trade paperback editions. Peter Kent was known to be a sleepwalker. So when Philip Rease turns up dead at a house party and a bloody knife is found under Kent's pillow, it seems like an open-and-shut case. But there are people who'd like to see both Kent and Rease out of the way for their own nefarious reasons, and Perry Mason finds himself in a case full of twists and traps."

**DARKNESS AT NOON** Trafford Publishing

After three decades of investigation, and after traveling hundreds of thousands of miles across the globe—from Melbourne to Moscow, Boston to Beijing—Gingerich has written an utterly original book built on his experience and the remarkable insights gleaned from examining some 600 copies of *De revolutionibus*. He found the books owned and annotated by Galileo, Kepler and many other lesser-known astronomers whom he brings back to life, which illuminate the long, reluctant process of accepting the Sun-centered cosmos and highlight the historic tensions between science and the Catholic Church. He traced the ownership of individual copies through the hands of saints, heretics, scalawags, and bibliomaniacs. He was called as the expert witness in the theft of one copy, witnessed the dramatic auction of another, and proves conclusively that *De revolutionibus* was as inspirational as it was revolutionary. Part biography of a book, part scientific exploration, part bibliographic detective story, *The Book Nobody Read* recolors the history of cosmology and offers new appreciation of the enduring power of an extraordinary book and its ideas.

*Sleepwalking Through History* Bantam

"This is must reading for historians of science and a delight for the interested public. From his access to many primary sources in the Vatican Library and from his broad knowledge of the history of the 17th century, Finocchiaro acquaints readers in an interesting manner with the historical facts of Galileo's trial, its aftermath, and its repercussions. Unlike many other works which present predetermined and, at times, prejudiced judgments, this work provides exhaustive evidence to allow readers to develop their own informed opinion on the subject."—George V. Coyne, Director, Vatican Astronomical Observatory "The tragic condemnation of Galileo by the Roman Catholic Church in 1633 has become the single most potent symbol of authoritarian

opposition to new ideas. Pioneering in its scope, Finocchiaro's book provides a fascinating account of how the trial and its cultural significance have been freshly reconstructed by scholars and polemicists down the ages. With a philosopher's eye for fine distinctions, the author has written an exciting commentary on the successive appearance of new primary sources and their exploitation for apologetic and secular purposes."—John Hedley Brooke, author of *Science and Religion: Some Historical Perspectives* "If good history begins with good facts, then *Retrying Galileo* should be the starting point for all future discussions of the post-trial phase of the Galileo affair. Maurice Finocchiaro's myth-busting documentary history is not only a repository of little-known sources but a pleasure to read as well."—Ronald L. Numbers, co-editor of *When Christianity and Science Meet* "Retrying Galileo tells the less well-known half of the Galileo affair: its long and complex history after 1633. Finocchiaro has performed an invaluable service in writing a book that explores how the trial and condemnation of Galileo has been received, debated, and reinterpreted for over three and a half centuries. We are not yet done with this contentious story."—Paula E. Findlen, Ubaldo Pierotti Professor of Italian History and Director of the Science, Technology and Society Program, Stanford University

**The Sleepwalkers. A History of Man's Changing Vision of the Universe, Etc** Penguin UK

NEW YORK TIMES BESTSELLER • Drawing on exhaustive research, this intimate account details how World War I reduced Europe's mightiest empires to rubble, killed twenty million people, and cracked the foundations of our modern world "Thundering, magnificent . . . [*A World Undone*] is a book of true greatness that prompts moments of sheer joy and pleasure. . . . It will earn generations of admirers."—The Washington Times On a summer day in 1914, a nineteen-year-old Serbian nationalist gunned down Archduke Franz Ferdinand in Sarajevo. While the world slumbered, monumental forces were shaken. In less than a month, a combination of ambition, deceit, fear, jealousy, missed opportunities, and miscalculation sent Austro-Hungarian troops marching into Serbia, German troops streaming toward Paris, and a vast Russian army into war, with England as its ally. As crowds

cheered their armies on, no one could guess what lay ahead in the First World War: four long years of slaughter, physical and moral exhaustion, and the near collapse of a civilization that until 1914 had dominated the globe. Praise for *A World Undone* "Meyer's sketches of the British Cabinet, the Russian Empire, the aging Austro-Hungarian Empire . . . are lifelike and plausible. His account of the tragic folly of Gallipoli is masterful. . . . [*A World Undone*] has an instructive value that can scarcely be measured"—Los Angeles Times "An original and very readable account of one of the most significant and often misunderstood events of the last century."—Steve Gillon, resident historian, The History Channel

*Scum of the Earth* Health Communications, Inc.

A chilling and masterfully crafted teen horror novel guaranteed to keep the pages turning, the mind reeling, and the lamp on any reader's bedside table on long after midnight. Privileged and popular Caleb Mason is celebrating his high school graduation when he receives a mysterious, disturbing letter from his long-lost childhood playmate, Christine. Caleb and his jokester friend Bean decide to travel to his tiny hometown of Hudsonville, Florida, to find her. Upon arrival, they discover the town has taken a horrifying turn for the worse. Caleb's childhood home is abandoned and his father has disappeared. Children are going missing. The old insane asylum has reopened, and Christine is locked inside. Her mother, a witch, is consumed with madness, and Christine's long-dead twin sister whispers clues to Caleb through the static of an a.m. radio. The terrifying prophecies of the spirits are coming to pass. Sixteen clocks are ticking; sixty-six murdered souls will bring about the end of the world. As Caleb peels back layer after layer of mystery, he uncovers a truth more horrible than anything he had imagined, a truth that could only be uttered by the lips of the dead.

*The Sleepwalkers* Basic Books

The first authoritative review on the parasomnias - disorders that cause abnormal behavior during sleep - this book contains many topics never before covered in detail. The behaviors associated with parasomnias may lead to injury of the patient or bed-partner, and may have forensic implications. These phenomena are common but often unrecognized, misdiagnosed, or ignored in clinical practice. With increasing awareness of abnormal behaviors in sleep, the book fulfills the need for in-depth

descriptions of clinical and research aspects of these disorders, including differential diagnosis, pathophysiology, morbidity, and functional consequences of each condition, where known.

Appropriate behavioral and pharmacological treatments are addressed in detail. There are authoritative sections on disorders of arousal, parasomnias usually associated with REM sleep, sleep-related movement disorders and other variants, and therapy of parasomnias. Sleep specialists, neurologists, psychiatrists, psychologists and other healthcare professionals with an interest in sleep disorders will find this book essential reading.

**The Sleepwalkers** Juta and Company Ltd

A searing and highly original analysis of the First World War and its anguished aftermath—from the prizewinning economist and author of *Shutdown*, *Crashed* and *The Wages of Destruction* Winner of the Los Angeles Times Book Prize - History Finalist for the Kirkus Prize - Nonfiction In the depths of the Great War, with millions dead and no imaginable end to the conflict, societies around the world began to buckle. The heart of the financial system shifted from London to New York. The infinite demands for men and matériel reached into countries far from the front. The strain of the war ravaged all economic and political assumptions, bringing unheard-of changes in the social and industrial order. A century after the outbreak of fighting, Adam Tooze revisits this seismic moment in history, challenging the existing narrative of the war, its peace, and its aftereffects. From the day the United States enters the war in 1917 to the precipice of global financial ruin, Tooze delineates the world remade by American economic and military power. Tracing the ways in which countries came to terms with America's centrality—including the slide into fascism—*The Deluge* is a chilling work of great originality that will fundamentally change how we view the legacy of World War I.

*Retrying Galileo, 1633–1992* Harvard University Press

Traces the crisis period leading up to America's entry in World War II, describing the nation's polarized interventionist and isolation factions as represented by the government, in the press and on the streets, in an account that explores the forefront roles of British-supporter President Roosevelt and isolationist Charles Lindbergh. (This book was previously featured in *Forecast*.)

*Time and Power* National Geographic Books

National bestseller: In this brilliantly readable book, a Pulitzer Prize-winning journalist chronicles the Reagan decade, when America fell from dominant world power to struggling debtor nation and when optimism turned to foreboding. In human terms and living case histories, Haynes Johnson captures the drama and tragedy of an era nurtured by greed and a morality that found virtue in not getting caught. "It is morning again in America," Reagan's campaign commercials told us, and for too long we embraced that convenient lie. Indeed, the problems that came to plague us in that decade are with us even more today, as Johnson memorably demonstrates in--his afterword, "Notes on an Era," written especially for this new paperback reissue. This book will remain a signature work of political analysis for years to come.

*Doug Aitken* Univ of California Press

Arthur Koestler's extraordinary history of humanity's changing vision of the universe In this masterly synthesis, Arthur Koestler cuts through the sterile distinction between 'sciences' and 'humanities' to bring to life the whole history of cosmology from the Babylonians to Newton. He shows how the tragic split between science and religion arose and how, in particular, the modern world-view replaced the medieval world-view in the scientific revolution of the seventeenth century. He also provides vivid and judicious pen-portraits of a string of great scientists and makes clear the role that political bias and unconscious prejudice played in their creativity.

*July 1914* Oxford University Press, USA

With his epic trilogy, *The Sleepwalkers*, Hermann Broch established himself as one of the great innovators of modern literature, a visionary writer-philosopher the equal of James Joyce, Thomas Mann, or Robert Musil. Even as he grounded his narratives in the intimate daily life of Germany, Broch was identifying the oceanic changes that would shortly sweep that life into the abyss. Whether he is writing about a neurotic army officer (*The Romantic*), a disgruntled bookkeeper and would-be assassin (*The Anarchist*), or an opportunistic war-deserter (*The Relicist*), Broch immerses himself in the twists of his characters' psyches, and at the same time soars above them, to produce a prophetic portrait of a world tormented by its loss of faith, morals, and reason.

*The Sleepwalkers* Penguin Books

*Nuts and Bolts Spirituality* explores the two belief systems that we hold about life. Theory number one of the universe says that we are separate from each other, separate from God, and is fear-based. Theory number two of the universe says that we are one with all things, one with God and is love-based. We observe that most of the people in the world subscribe to the theory number one about the universe. To get real clarity on the beliefs that we hold about life and our relationship with the source of life, God, *Nuts and Bolts Spirituality* explores the two questions that must be addressed and answered. First, "Why was the universe created in the first place?" Secondly, "What is our purpose in that creation?" By examining these questions we can understand life from a larger, clearer perspective. From this understanding the reader can view their own life with more clarity and awareness. This larger, clearer perspective allows the "sleepwalkers" of the world to wake up, become aware, and truly create the life of their intentions and desires.

*The sleepwalkers, by arthur koestler* Random House Incorporated

Of all the family gatherings in her childhood, one stands out in Amina's memory. It is 1979, in Salem India, when a visit to her grandmother's house escalates into an explosive encounter, pitching brother against brother, mother against son. In its aftermath, Amina's father Thomas rushes his family back to their new home in America. And while at first it seems that the intercontinental flight has taken them out of harm's way, his decision sets off a chain of events that will forever haunt Thomas and his wife Kamala; their intellectually furious son, Akhil and the watchful young Amina. Now, twenty years later, Amina receives a phone call from her mother. Thomas has been acting strangely and Kamala needs her daughter back. Amina returns to the New Mexico of her childhood, where her mother has always filled silences with food, only to discover that getting to the truth is not as easy as going home. Confronted with Thomas's unwillingness to talk, Kamala's Born Again convictions, and the suspicion that not everything is what it seems, Amina finds herself at the centre of a mystery so tangled that to make any headway, she has to excavate her family's painful past. And in doing so she must lay her own ghosts to rest.
