This volume presents fourteen case studies of standardization processes in eleven different Germanic languages. Together, the contributions confront problematic issues in standardization which will be of interest to sociolinguists, as well as to historical linguists from all language disciplines. The papers cover a historical range from the Middle Ages to the present and a geographical range from South Africa to Iceland, but all fall into one of the following categories: 1) shaping and diffusing a standard language; 2) the relationship between standard and identity; 3) non-standardization, de-

standardization and re-standardization.

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond

of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in

our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, - and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler

with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, - the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or

even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing... Standardization Walter de Gruyter

Languages and Linguistics of Europe: A Comprehensive Guide is part of the multi-volume reference work on the languages and linguistics of the continents of the world. The book supplies profiles of the language families of Europe, including the sign languages. It also discusses the areal typology, paying attention to the Standard Average European, Balkan, Baltic and Mediterranean convergence areas. Separate chapters deal with the old and new minority languages and with non-standard varieties. A major focus is language politics and policies, including discussions of the special status of English, the relation between language and

the church, language and the school, and standardization. The history of European linguistics is another focus as is the history of multilingual European 'empires' and their dissolution. The volume is especially geared towards a graduate and advanced undergraduate readership. It has been designed such that it can be used, as a whole or in parts, as a textbook, the first of its kind, for graduate programmes with a focus on the linguistic (and linguistics) landscape of Europe. *A Winter Tale*

This volume analyses

the complex relations between multilingualism and the media: how the media manage multilingualism; how multilingualism is presented and used as media content; and how the media are discursive sites where debates about multilingualism and other language-related issues unfold. It is precisely this inter-relatedness that we want to flag up when we talk about “thematising” multilingualism in the media. More specifically, the focus of this volume is on the empirical and theoretical opportunities and challenges posed by the thematisation of multilingualism in the media. The volume, originally published as

a special issue of the *Journal of Language and Politics* 10:4 (2011), presents a number of case studies from a variety of linguistic, media, political, social, and economic contexts: from print-media debates on trilingual policies in Luxembourg to “new media” discussions about the “sexiness” of Irish or the “national” value of Welsh; from issues of linguistic “authority” and “authenticity” in an American television programme to Wikipedia’s multilingual policy and practice.

Poasis, Joris's first major publication in the United States, highlights his work since the mid-1980s. Pierre Joris's poems are characterized by an arresting mix of passion and intellect, by what Pound called "language charged with meaning." For Joris, a language is always a second language, and his poetry takes as its main concern the question of marginality and exile. He is unique in being an American poet comfortable in three languages, and his work is filled with a dynamic language play, cross-linguistic puns, and themes of speculation on language, translation, and nomadism. The Victoria System is Eric Reinhardt's acclaimed and controversial French bestseller. **LONGLISTED FOR THE IMPAC DUBLIN LITERARY AWARD. NOMINATED FOR THE PRIX GONCOURT, THE PRIX RENAUDOT AND THE GRAND PRIX DU ROMAN DE L'ACADEMIE FRANCAISE** David Kolski never sleeps with the same woman twice - apart from his wife. Then he meets Victoria. Head of people at a multinational company, by day she is a ruthless executive in a lightning-paced, high-pressured whirlwind of power and

productivity. By night she likes good wine, luxurious hotel rooms, and abandoning herself to her sexual fantasies. David is soon addicted. Under crushing pressure at work to oversee the construction of a huge Paris tower-block in near-impossible circumstances, he takes new vigour and inspiration from his hard-headed capitalist lover. He works harder, faster and better, and then escapes to indulge in the most intense sexual passion he's ever experienced. But when Victoria offers to use her position to help him in his career, a dark shadow falls over their affair. Is she really capable of helping anyone other than herself, or is she hiding something from him?

And who are the two men in the Audi he keeps seeing, always a few cars behind him? Complex, compelling and ambitiously structured, *The Victoria System* is a daringly sensual story of an obsession. Part erotica; part thriller; part novel of ideas, like a series of slightly angled mirrors held up to our globalised, capitalist society, the twists and turns of its narrative create a dazzling interplay of reflections and compel us to question the assumptions and forces of our modern world. 'Dark, twisted and devastating. . . A big novel of amorous adventures in the era of the blackberry. Eric Reinhardt is the new Alexandre Dumas' *Nouvel Observateur* 'Erotic, raw, violent and

vertiginous . . . We often accuse French writers of navel-gazing and ignoring the world around them, but Eric Reinhardt is one of those who gives the lie to this cliché' *Emmanuel Carrère*, author of *Limonov* 'Part classic, part tragedy, part thriller: Eric Reinhardt merges genres and invokes elusive echoes in this highly contemporary novel of a rare depth' *Libération* 'The *Victoria System* is a fantastic and sensual modern thriller, like nothing I've ever read' *Christian Louboutin* 'A powerful novel about the philosophical and moral consequences of ultra-liberalism, and a subtle reflection on the urges of the powerful' *Marianne Éric Reinhardt* is one of the rising stars of French

literature. He is the author of five novels and also a freelance publisher of art books. He lives and works in Paris. The Victoria System was first published in French in 2011 and was nominated for the Prix Goncourt, the Prix Renaudot and the Grand Prix du Roman de l'Académie Française. It is Éric Reinhardt's first novel to be translated into English. Sam Taylor is the English-language translator of HHH, by Laurent Binet, and the author of the novels The Island at the End of the World, The Amnesiac and The Republic of Trees. He lives in France and the United States.
