YouTube workout video star Zuzka Light presents her long-awaited debut fitness

book, with a 30-day fitness regime of powerful, effective 15-minute workouts. Filming first from a tiny basement in Prague, and eventually settling in Los Angeles, Zuzka Light has single-handedly ushered in the YouTube fitness revolution. Viewers love Light for her short, ferociously effective workouts and her in-the-trenches, never-give-up positive attitude—and she’s racked up more than half a billion views to prove it. Now, finally, comes *15 Minutes to Fit*, Light’s hotly anticipated debut, with a 30-day fitness plan guaranteed to burn fat and build ripped muscles. Based on innovative high-intensity interval training, the workouts in *15 Minutes to Fit* are designed to be done anywhere, anytime (no fancy gym equipment necessary), in just 15 minutes a day.

This book takes the guesswork out of the workout, providing:

- A 30-day workout plan to whip your body into shape—in 15 minutes a day or less
- A companion meal plan, with delicious and healthful recipes for each day
- Step-by-step photographs throughout to illustrate proper form for the workouts
- Quick facts on health and nutrition to help readers separate fact from fiction
- Support and motivation from Light, who overcame many obstacles to become the female face of fitness

As Light says, “Give me 15 minutes a day and I’ll give you a badass body.” Coauthored by New York Times–bestselling author Jeff O’Connell, *15 Minutes to Fit* is the book legions of fans have been waiting for.

Power to the People! McGraw-Hill/Contemporary

In the depths of the Great Depression a scrawny, dirt-poor Jewish kid with a seventh-grade education picked up a

barbell and got hooked on weight training. Building his muscles gave him confidence and hope for a better life. He pledged to make the great, transforming power of strength training available to everyone and to give bodybuilding all the glory it deserved. The kid, Joe Weider, enlisted his younger brother Ben in his quest, and together the Weider brothers accomplished things much bigger than Joe's boyhood dreams. The little muscle magazine Joe started, working at his family's dining room table, grew into a publishing empire. From a backyard barbell business, Joe and Ben built equipment and food supplement companies each as big as Weider Publishing. And they transformed bodybuilding into a hugely successful sport, organized under one of the largest

and best-run athletic federations in the world. The Weider brothers are heroes to bodybuilders and fans all over the world. They're heroes because they're revolutionaries. The Weiders changed the way people think about exercise, health, and what makes a body beautiful. They changed the world and *Brothers of Iron* tells their fascinating story.

In *If You Like Exercise... Chances Are You're Doing It Wrong*, author Gary Bannister tells us that “the power-to-be

have all but destroyed the value of muscle isolation, discredited the use of machines in general, ignored everything related to the work of Arthur Jones and replaced it with a ten-cent solution.” He claims that until the field of exercise defines what is true and what is not, it will never have the impact that it could. Muscle strength, the only factor that can produce human movement and the only factor that performs work, is disappearing from today’s training regimens. This study and guide analyzes current concepts and training systems—such as Pilates, “functional” training TRX, cross-training, kettlebells, and more—and compares their benefits to those of proper strength training to provide a clear picture for everyone. If You Like Exercise... Chances Are You’re

Doing It Wrong rekindles the high intensity strength-training principles of Arthur Jones, the founder of Nautilus. Bannister focuses on the concepts of intensity, form, frequency, duration, number of repetition, speed if movement, and muscle fatigue, supporting them with current research. Logically applied, proper strength training is the only system capable of satisfying all five potential benefits of exercise—an increase in strength, flexibility, cardiovascular condition, body-composition, and injury prevention. *Muscle* McGraw-Hill/Contemporary It takes guts and dedication to meticulously sculpt an extremely lean and cut physique. If you are ready to build a competition-worthy body or just want to look like a pro, there is no better

program than the total-body diet and workout plan revealed in Men's Health Natural Bodybuilding Bible. It is THE how-to manual for anyone who wants to win his first bodybuilding competition the right way—purely, naturally, on guts, grit, and extreme dedication to diet and muscle craft. Or even just look like you did without stepping foot on a stage! Developed by professional Natural Bodybuilding Champion Tyler English, this plan will show you how to pack on pounds of MUSCLE with the workouts that helped him take first place in competition. Get the best intense workouts for each muscle and the right form so you reap maximum results.

The success of the 5/3/1 Method has

been nothing short of extraordinary. For the past year, the response towards this simple but brutally effective training system has been overwhelming. This is because it works. And works for just about anyone willing to put in the discipline and work that getting stronger requires. Elite level lifters to absolute beginners have all used the 5/3/1 Method; the basic tenets of strength training have and will never change. Big exercises, constant progress, and personal records will never go out of style. High school and college coaches are now using the 5/3/1 with their athletes with amazing success; it is easy to track, implement and will inspire any team to push for themselves to the limit. Powerlifters use this program, for both raw meets and geared meets.

You only have one body, and your body has amazing potential. But you also only have one life—why waste more of it than you need to at the gym? Kettlebells, the swingable weights found in gyms and homes everywhere, burn up to four times the fat of other workouts. But they are often ignored or misused, causing wasted time or even injury. Dasha Libin Anderson teaches a one-two punch of kettlebells and martial arts, rolling strength training and cardio into one workout for women that burns five hundred to one thousand calories per hour. The unparalleled kettlebell expert has spent over a decade developing the Kettlebell Kickboxing system based on science and experience and has seen amazing results for women of all fitness

levels (including actresses and models) who take classes at her Manhattan studio or work out with her bestselling DVD series. Dasha introduces readers to kettlebell and martial arts techniques and teaches the science behind safe swings, squats, punches, kicks, and hundreds of innovative moves everyone can do. Organized by the body part targeted, Kettlebell Kickboxing features hundreds of step-by-step photos and workout routines for four-week fitness plans, lifelong exercise goals, and fifteen-minute high-intensity interval training. Learn everything you need to look and feel the way you always wanted: strong, confident, agile, pain-free, and sexy.

The Three Muscleteers State University of New York Press

At age 26, scrawny, Oxford-educated Samuel Fussell entered a YMCA gym in New York to escape the terrors of big city life. Four years and 80 lbs. of firm, bulging muscle later, he was competing

for bodybuilding titles in the "Iron Mecca" of Southern California-so weak from intense training and starvation he could barely walk. MUSCLE is the harrowing, often hilarious chronicle of Fussell's divine obsession, his search for identity in a bizarre, eccentric world of

"health fascists," "gym bunnies" and "muscleheads"-and his devout, single-minded acceptance of illness, pain, nausea, and steroid-induced rage in his quest for the holy grail of physical perfection.
