"A top-notch walking tour of Paris. . . . The author's encyclopedic knowledge of the city and its artists grants him a mystical gift of access: doors left ajar and carriage gates left open foster his search for the city's magical story. Anyone who loves Paris will adore this joyful book. Readers visiting the city are advised to take it with them to discover countless new experiences."
—Kirkus Reviews (starred) A unique combination of memoir, history, and travelogue, this is author David Downie's irreverent quest to uncover why Paris is the world's most romantic city—and has been for over 150 years. Abounding in secluded, atmospheric parks, artists' studios, cafes, restaurants and streets little changed since the 1800s, Paris exudes romance. The art and architecture, the cityscape, riverbanks, and the unparalleled quality of daily life are part of the equation. But the city's allure derives equally from hidden sources: querulous inhabitants, a bizarre culture of heroic negativity, and a rich historical past supplying enigmas, pleasures and challenges. Rarely do visitors suspect the glamor and chic and the carefree atmosphere of the City of Light grew from and still feed off the dark fountainheads of riot, rebellion, mayhem and melancholy—and the subversive literature, art and music of the Romantic Age. Weaving together his own with the lives and loves of Victor Hugo, Georges Sand, Charles Baudelaire, Balzac, Nadar and other great Romantics Downie delights in the city's secular romantic pilgrimage sites asking , Why Paris, not Venice or Rome—the tap root of "romance"—or Berlin, Vienna and London—where the earliest Romantics built castles-in-the-air and sang odes to nightingales? Read A Passion for Paris: Romanticism and Romance in the City of Light and find out.

History of Europe 1450-1815 McGraw-Hill Companies

This engaging and humanizing text traces the development of Europe since the mid-eighteenth century through the lives of people of the time. Capturing key moments, themes, and events in the continent's turbulent modern past, the book explores how ordinary Europeans both shaped their societies and were affected by larger historical processes. By focusing on the lives of individual actors, both famous and obscure, students can gain a

sense for how the well-known revolutions, wars, and social transformations of the modern era were experienced in private

homes, work places, political forums, and on battlefields throughout the region. Fittingly, the book opens with the French

Revolution and concludes with the fall of the Berlin Wall and the collapse of Eastern European communism. Throughout, the

contributors use compelling biographies to examine many of the major events and developments in European history, including

the age of reaction and revolutions in the early nineteenth century; industrialization; Victorianism; new imperialism; fin de

siècle culture; the first and second World Wars; the Russian Revolution; Italian fascism, Nazism, the Holocaust, and

decolonization; Americanization; and the 1968 youth revolts.

Byzantium lasted a thousand years, ruled to the end by self-styled 'emperors of the Romans'. It underwent kaleidoscopic territorial and structural changes, yet recovered repeatedly from disaster:

even after the near-impregnable Constantinople fell in 1204, variant forms of the empire reconstituted themselves. The

Cambridge History of the Byzantine Empire c.500-1492 tells the story, tracing political and military events, religious controversies and economic change. It offers clear, authoritative chapters on

the main events and periods, with more detailed chapters on

outlying regions and neighbouring societies and powers of

Byzantium. With aids such as maps, a glossary, an alternative

place-name table and references to English translations of

sources, it will be valuable as an introduction. However, it also

offers stimulating new approaches and important findings,

making it essential reading for postgraduates and for specialists.

The revised paperback edition contains a new preface by the

editor and will offer an invaluable companion to survey courses in

Byzantine history.
