The Security+ certification is CompTIA's response to membership  
requests to develop a foundation-level certification for security  
workers. The IT industry is in agreement that there is a need to

better train, staff, and empower those tasked with designing and  
implementing information security, and Security+ is an effort to  
meet this demand. The exam is under consideration by Microsoft  
as the baseline security certification for Microsoft's new security  
certification initiative. The Security+ Training Guide is a  
comprehensive resource for those preparing to take this exam,  
covering everything in a format that maps to the exam  
objectives. The book has been subjected to a rigorous technical  
review, ensuring content is superior in both coverage and  
technical accuracy. The accompanying CD features PrepLogic(tm)  
Practice Tests, Preview Edition. This product includes one  
complete PrepLogic Practice Test with approximately the same  
number of questions found on the actual vendor exam. Each  
question contains full, detailed explanations of the correct and

incorrect answers. The engine offers two study modes, Practice Test and Flash Review, full exam customization, and a detailed score report.
