The main features of the Indian character are traced back into remote antiquity as the natural outgrowth of historical process. Did the change from food gathering and the pastoral life to agriculture make new religions necessary? Why did the Indian cities vanish with hardly a trace and leave no memory? Who were the Aryans - if any? Why</p>

should Buddhism, Jainism, and so many other sects of the same type come into being at one time and in the same region? How could Buddhism spread over so large a part of Asia while dying out completely in the land of its origin? What caused the rise and collapse of the Magadhan empire; was the Gupta empire fundamentally different from its great predecessor, or just one

more 'oriental despotism'? These are some of the many questions handled with great insight, yet in the simplest terms, in this stimulating work. This book will be of interest to students of history, sociology, archaeology, anthropology, cultural studies, South Asian studies and ethnic studies.

India's struggle for Independence by Bipin Chandra is your go to book for an in-depth and detailed

overview on Indian independence movement . Indian freedom struggle is one of the most important parts of its history. A lot has been written and said about it, but there still remains a gap. Rarely do we get to hear accounts of the independence from the entire country and not just one region at one place. This book fits in perfectly in this gap and also provides a narration on the impact

this movement had on the people. Bipin Chandra's book is a well-documented history of India's freedom struggle against the British rule. It is one of the most accurate books which have been painstakingly written after thorough research based on legal and valid verbal and written sources. It maps the first war of independence that started with Mangal Pandey's

mutiny and witnessed the gallant effort of Sri Rani Laxmi Bai. Many of the pages of this book are dedicated to Mahatma Gandhi's non-cooperation and the civil disobedience movements. It contains detailed description of Subash Chandra Bose's weapon heavy tactics and his charisma. This book includes all the independence movements and fights, irrespective of their size and impact,

covering India in its entirety. Although these movements varied in means and ideas, but they shared a common goal of independence. This book contains oral and written narratives from different parts of the country, making this book historically rich and diverse. The book captures the evolution of Indian independence struggle in full detail and leaves no chapter of this

story untouched. This book is a good read for the students of Indian modern history and especially for students who are preparing for UPSC examination and have taken History as their subject.

<p><u>Problem Solving and Programming</u> State University of New York Press The claim that India-- uniquely among civilizations-- lacks historical writing distracts us from a more pertinent question: how to recognize the historical sense of societies whose past is recorded in ways very different from European conventions. Romila Thapar, a distinguished scholar of</p>	<p>ancient India, guides us through a panoramic survey of the historical traditions of North India, revealing a deep and sophisticated consciousness of history embedded in the diverse body of classical Indian literature. The history recorded in such texts as the Ramayana and the Mahabharata is less concerned with authenticating persons and events than with</p>	<p>presenting a picture of traditions striving to retain legitimacy amid social change. Spanning an epoch from 1000 BCE to 1400 CE, Thapar delineates three strains of historical writing: an Itihasa-Purana tradition of Brahman authors; a tradition composed mainly by Buddhist and Jaina monks and scholars; and a popular bardic tradition. Medieval India

Gullybaba Publishing House Pvt. Limited comprising No. 14 in the People's History of India series, published by Aligarh Historians Society in collaboration with Tulika Books, this volume is devoted to the economic and social history of India from the 13th to the 15th century. The book consists of three long chapters,

divided into numerous sub-chapters. The first chapter describes the agrarian order during the main period of the Delhi Sultanate (1206-1398), and the second the urban economy and trading world of the same period. The third chapter deals with the fifteenth century, 1398-1526, a period of political divisions. While describing the economy and social structure in

north India during the century, the chapter pays special attention to conditions in the Vijayanagara empire, which flourished during this period in south India. A special feature of the volume, as with others in the series, is the inclusion of long extracts from sources and technical and bibliographical notes appended to each chapter. **Studies in the Anatomy of a Transformati**

<p>on Gullybaba Publishing House Pvt. All manner of groups-- political, occupational, and social-- remain grounded in specific religious communities. This book analyzes the development of the modern Hindu and Sikh communities in North India starting from about the fifteenth century, when the dominant bhakti</p>

tradition of Hinduism became divided into two currents: the sagun and the nirgun. The sagun current, led mostly by Brahmins, has remained dominant in most of North India and has served as the ideological base of the development of modern Hindu nationalism. Several chapters explore the rise of this religious and political movement, paying particular attention to

the role played by devotion to Ram. Alternative trends do exist in sagun tradition, however, and are represented here by chapters on the low-caste saint Chokhamel and the tantric sect founded by Kina Ram. The nirgun current, led mostly by persons of Ksand artisan castes, formed the base of both the Sikh community, founded by Guru Nanak, and of various non-Brahmin

sectarian movements derived from such saints as Kabir, Raidas, Dadu, and Shiv Dayal Singh. Two chapters discuss the formation of a distinctive Sikh theology and a Sikh community identity separate from that of the Hindus. Other chapters discuss the validity of the sagun-nirgun distinction within Hindu tradition and the interplay of social and religious ideas in nirgun hagiographic texts and in

sectarian movements such as the Adi Dharma Mission and the Radhasoami Satsang.

This volume contains wide-ranging surveys of various aspects of the history of Awadh from its position as a province of the Mughal

Empire to a successor state, a semi-colony under the Nawabi regime, the British annexation and the resistance in 1857. The manner of Mughal administration, the emergence of the class of taluqadars, the Company's constant pressure on the Nawabi regime, the cultural and agrarian

milieu of a religious establishment, the bibliography of a scholarly rebel of 1857 - all bring home to the reader different facets of the historical personality of Awadh. The studies form an important complement (and corrective) to much of current historical writing of Awadh.
