New Perspectives on Urban Deathscapes University of Notre Dame Press

Selon les légendes, les îles du Cap-Vert, qui s'égrènent au large du Sénégal, seraient les débris de l'Atlantide, le mythique

continent englouti. Ces îles arides, longtemps inhabitées, ont été cependant le lieu de rencontre des Portugais, qui les ont peuplées dès le XVe siècle, et des Africains, venus du continent, pour la plupart en esclavage. Est-ce le souvenir du cataclysme originel, auquel se mêlent les sentiments qu'éveille l'insularité, et les apports du métissage qui donnent une telle vitalité à la culture capverdienne ? Si la musique des îles du Cap-Vert est connue en France et en Afrique d'expression française, sa littérature l'est moins. Cet ouvrage présente le paysage contrasté des écrivains capverdiens contemporains. Romanciers, poètes, essayistes, auteurs de nouvelles, chercheurs, hommes et femmes fiers de leur métissage ou de leur culture africaine, tous sont des écrivains engagés (contre le colonialisme, contre la faim et la pauvreté), et tous expriment leur spécificité. Pourtant tous souhaitent, au-delà des limites de l'insularité, s'ouvrir sur le monde et " conquérir d'autres horizons de fraternité ". Son originalité est de proposer deux volumes : l'un est en portugais, l'autre en est la traduction française et nous rend enfin accessible une littérature d'une grande créativité.

Application des principes de mécanique aux machines les plus en usage Amsterdam University Press

Un groupe de dix îles, dans l'Atlantique, au large de la côte de l'Afrique de l'Ouest. Voici l'un des rares ouvrages en français consacré à ce lointain archipel. Les îles du Cap-Vert ont été parmi les premières colonies européennes en Afrique. Indépendantes depuis juillet 1975, elles restent très marquées par cinq siècles de présence portugaise et un fort degré de métissage. A travers de multiples événements marquants : sécheresses, famines, révoltes paysannes au sein d'une société essentiellement agraire et de type féodale, conflits entre l'Eglise et le pouvoir colonial, nous voyons comment la population conquiert son indépendance, ainsi que le rôle joué par Amilcar Cabral, héros de la lutte armée en Guinée-Bissau, et fondateur du parti unique actuellement au pouvoir.

Political Economy of Hunger BoD – Books on Demand

" . . . useful, timely, and important . . . a good and informative book on the Lusophone countries, Portuguese colonialism, and postcolonial influences." —Phyllis Martin, Indiana University "This book, produced by the obvious—and distinguished—corps of country specialists . . . fills a real gap in both state-level and 'regional' (broadly defined) studies of contemporary Africa." —Norrie MacQueen, University of Dundee Although the five Portuguese-speaking countries in Africa that gained independence in 1974/75—Angola, Mozambique, Guinea-Bissau, Cape Verde, and São Tomé e Príncipe—differ from each other in many ways, they share a history of Portuguese rule going back to the 15th century, which has left a mark to this day. Patrick Chabal and his co-authors assess the nature of the Portuguese legacy, using a twofold approach. In Part I, three analytical, thematic chapters by Chabal examine what the five countries have in common and how they differ from the rest of Africa. In Part II, individual chapters by leading specialists, each devoted to a specific country, survey the histories of those countries since independence. The book places the postcolonial experience of the Lusophone countries within the context of their precolonial

and colonial past and compares and contrasts their experience with that of non-Lusophone African states. The result is a comprehensive, readable, and up-to-date text and reference work on the evolution of postcolonial Portuguese-speaking Africa. Insularité et littérature aux îles du Cap-Vert Lexington Books Establishing a new set of international perspectives on experiences of death, disposition and remembrance in urban environments, this book brings deathscapes – material, embodied and emotional places associated with dying and death – to life. It pushes the boundaries of established empirical and conceptual understandings of death in urban spaces through anthropological, geographical and ethnographic insights.

WIDER The World Institute for Development Economics Research, established in 1984, started work in Helsinki in 1985, with the financial support of the Government of Finland. The principal purpose of the Institute is to help identify and meet the need for policy-oriented socio-economic research on pressing global and development problems and their inter-relationships. WIDER's research projects are grouped into three main themes: hunger and poverty; money, finance, and trade; and development and technological transformation. Volume II deals with famine prevention, paying particular attention to sub-Saharan Africa. The topics covered include: the problems of early warning and early action; the politics of famine prevention; the influence of market responses; the role of cash support and employment provision in protecting threatened food entitlements; and long-term issues of reduction of famine vulnerability. In addition to general analyses, the book contains a number of case studies of failures and successes in famine prevention, both in South Asia and in sub-Saharan Africa. *Suite du Recueil des planches* Clarendon Press

A challenging portrait of the Cape Verdeans in Portugal; it is the only ethnographic study of its kind. Lu's Batalha focuses simultaneously on former colonial subjects-cum-labor migrants and the elite, former colonialist, strata of society. The result of this comparative study lays bare the socio-cultural dynamics of race, gender, and post colonialism in the Cape Verde community. **L'île d'Agaléga** Routledge

This volume examines the influence of African Catholics on the historical development of Black Christianity in America during the seventeenth century. Black Christianity in America has long been studied as a blend of indigenous African and Protestant elements. Jeroen Dewulf redirects the conversation by focusing on the

enduring legacy of seventeenth-century Afro-Atlantic Catholics in the broader history of African American Christianity. With homelands in parts of Africa with historically strong Portuguese influence, such as the Cape Verde Islands, São Tomé, and Kongo, these Africans embraced variants of early modern Portuguese Catholicism that they would take with them to the Americas as part of the forced migration that was the transatlantic slave trade. Their impact upon the development of Black religious, social, and political activity in North America would be felt from the southern states as far north as what would become New York. Dewulf's analysis focuses on the historical documentation of Afro-Atlantic Catholic rituals, devotions, and social structures. Of particular importance are brotherhood practices, which were critical in the dissemination of Afro-Atlantic Catholic culture among Black communities, a culture that was pre-Tridentine in nature and wary of external influences. These fraternal Black mutual-aid and burial society structures were critically important to the development and resilience of Black Christianity in America through periods of changing social conditions. Afro-Atlantic Catholics shows how a sizable minority of enslaved Africans actively transformed the American Christian landscape and would lay a distinctly Afro-Catholic foundation for African American religious traditions today. This book will appeal to scholars in the history of Christianity, African American and African diaspora studies, and Iberian studies.

Theophili presbyteri et monachi libri III

"The island nation of Cape Verde has given rise to a diaspora that spans the four continents of the Atlantic Ocean. Migration has been essential to the island since the birth of its nation. This

volume makes a significant contribution to the study of international migration and transnationalism by exploring the Cape Verdean diaspora through its geographic diversity and with a broad thematic range"--Publisher's description.

The Political Economy of Hunger: Volume 2: Famine Prevention

In response to global change, people create new opportunities and conditions, and in their responses they are influenced by both gender and age. In *Gender, Agency and Change* the contributors illustrate the complexities involved in the constitution and performance of agency. Such agency may be reflected in strategies of accommodation and adaption that can nevertheless produce new institutional arrangements. Alternatively, they may be directed towards the outright rejection of these processes. The cases examined in this volume explore the ways in which different subjects engage in the reformulation of spaces, roles and identities, redefining the boundaries between, and the content of, the 'public' and the 'private'. The examples also provide an account of how gendered discourses are deployed to convey new meanings, a new sense of place and time, confirming or challenging ideas of 'tradition' and 'modernity'. This collection will be of particular interest to students of anthropology and gender studies.
