The Retirement Series documents Jefferson's written legacy between his return to private life on 4 March 1809 and his death on 4 July 1826. During this period Jefferson founded the University of Virginia and sold his extraordinary library to the nation, but his greatest legacy from these years is the astonishing depth and breadth of his correspondence with statesmen, inventors, scientists, philosophers, and ordinary citizens on topics spanning virtually every field of human endeavor.--From publisher description.

A young woman takes a job as a nanny for an impossibly wealthy family, thinking she's found her entrée into a better life—only to discover instead she's walked into a world of deception and dark secrets. "Wild, unpredictable, and utterly absorbing, *Nanny Needed* is a gasp-out-loud thriller that will make your head spin."—Samantha M. Bailey, #1 bestselling author of *Woman on the Edge* *Nanny Needed*. Discretion is of the utmost importance. Special conditions apply. When Sarah Larsen finds the notice, posted on creamy card stock in her building's lobby, one glance at the exclusive address tells her she's found her ticket out of a dead-end job—and life. At the interview, the job seems like a dream come true: a glamorous penthouse apartment on the Upper West Side of NYC; a salary that adds several zeroes to her current income; the beautiful, worldly mother of her charge, who feels more like a friend than a potential boss. She's overjoyed when she's offered the position and signs the NDA without a second thought. But in retrospect, the notice in her lobby was less an engraved invitation than a waving red flag. For there is something very strange about the Bird family. Why does the beautiful Mrs. Bird never leave the apartment alone? And what happened to the nanny before Sarah? It soon becomes clear that

the Birds' odd behaviors are more than the eccentricities of the wealthy. But by then it's too late for Sarah to seek help. After all, discretion is of the utmost importance.
