motors, and hydraulic servo
mechanisms.

You & Your Jaguar XJS Jacana Media
Powered by a silky smooth 4-litre V8
engine, the XK8 and XKR have set new

standards in performance, refinement
and comfort. This colorful guide
examines XK heritage through to the
famous E-type and then traces Jaguar's
return, after a foray into the GT market
with the XJS, to the design and
development of the cars which have
been the company's flagships for the
past four years. A special chapter is
devoted to two exciting two-seater
prototypes: the XK180 and the F-type
Concept. Features production and sales
history, technical specs, performance
assessments, optional equipment, model

ID features, design, and development. **Jaguar XJS** Pioneer Drama Service, Inc. James Taylor remembers very well the disappointment among his petrol-head friends when the XJ-S was announced in 1975. It was not a replacement for the legendary E-type; its colours were uninspired; and its interior was drab. All credit, then, to those people at Jaguar who truly believed in the car and, over a period of nearly 20 years, turned the ugly duckling into a swan. From the moment the XJ-S HE arrived in 1981, there seemed to be renewed hope, and from then on, the car went from strength to strength to become the much-admired grand tourer it always should have been. The book contains a timeline of the key events in the history of the XJ-S and an overview of the evolution of the

XJ-S from the XJ27 prototype. Packed with details it gives UK showroom prices through the year and sales in the US by year. Of great interest to all motoring and Jaguar enthusiasts, it is superbly illustrated with 192 colour and black & white photos. James Taylor has been writing professionally about road transport since the late 1970s, his primary interest is in those models that made the British motor industry great.

The car world is full of fascinating characters, but few have a story to tell quite as remarkable and inspirational as Tom Hartley. Walking out of school at the age of 11, unable to read or write, Hartley set up his own business buying and selling cars. From that moment, he defied logic and ripped up the rule book

on his way to the top. Today he runs one of the most successful independent family run performance and luxury car businesses in the world. He has built up an unrivalled reputation as "The Dealmaker." Tom has been at the top for over 40 years, survived and thrived through four recessions, and overcome three life threatening illnesses. In his own brutally honest words, Hartley tells his gripping story of a boy from a traditional Romany family who swapped the classroom for the cut-throat world of Glasgow's car auctions, buying and selling his first car at the age of 12. Having decided to drive himself around illegally, he was only 15 when he had his first car crash, and they don't come more spectacular than writing off a Ferrari Dino - nothing has ever been

normal in the world of Tom Hartley! Hartley had made his first million by the age of 17, but soon suffered major setbacks as his business went bust, and he found himself at risk of losing his sight without major surgery. Hartley started all over again, living in a mobile home with his wife and working from the back of a car. He had gone from hero to zero, but his burning desire to be the best saw him climb his way back to the top. His ability to clinch deals in some of the most bizarre places has become legendary, like buying a car in a sauna, while stuck in a traffic jam on a motorway, and even in a swimming pool! Family has played a key part in the Tom Hartley story, his wife has been at his side all the way, and his two sons have followed closely in their father's

footsteps. Indeed Tom's belief in family is one of the inspiring messages that comes through. Hartley's inspirational story is about the unshakeable belief in his own abilities, from a precocious schoolboy who had a dream, and then through sheer hard work and a burning desire to make the dream come true. This is not just a book for car enthusiasts but for anyone who has dared to dream. It's a story that will inspire and motivate, and proves you can make the wildest dream come true if you want it badly enough. Tom's remarkable story is written with the collaboration of journalist Ken Gibson, for 24 years, award-winning Motoring Editor of The Sun newspaper.

This book contains over 70 of Elizabeth VanDuine's evocative and sometimes whimsical nature-inspired paper cuts. Deeply in touch with the innocence of childhood and what it means to be an adult in this confusing day and age, Elizabeth captures moments in time or imagination with an x-acto knife and paper. Her paper cuts compel us to embrace our lives and delight in the world around us. Poetry and insight into the meanings behind the paper cuts accompany each image.

He thought he'd found the GRANDDADDY of all mountain lions. When Tom Allison discovered that something had pulled down one of his 1,000-pound longhorn steers and dragged it a quarter-mile across a rocky hillside, he thought it must have been a bear--probably a large grizzly. When he finally got a look at the track he realized he was wrong. The steer had been taken by a cat--a 400-pound cat. But Tom has even bigger problems coming his way....men who would steal everything he owns, and a seven-foot halfbreed Indian who wants

to take his son--and will kill anyone who gets in his way!

The Last Jaguar Industrial Press Inc. Meant to commemorate 100 years of Maserati, this work covers the history of the marque in all its aspects and is divided into three large sections. The first, signed by Luca Dal Monte, deals with the company history and the marque's industrial matters: from the early years, when production was concentrated on racing cars, to the advent of the first GT of the immediate post-war period through to the great classics of the Fifties, Sixties and Seventies. The "Road cars and design" section by Lorenzo Ramaciotti, is specifically devoted to the Trident's road cars: from the A6 1500 to current production models, including the

extraordinary expressions of design offered by models like the 3500 and 5000 GT, the various Quattroportes, the Mistral, Ghibli, Indy to then approach the present day, touching on the 3200 GT and the current Quattroporte, Granturismo and GranCabrio. Historic and modern pictures illustrate each of these models in a long photographic treatise, preceded by an introductory section which focuses on the historic matters associated with this vein of Maserati production. The last section written by Cesare De Agostini and Gianni Cancellieri is about races: from the outset Maserati's history has mainly been one of racing, from the pioneering era to the glorious Fifties, as much in Formula 1 with the 1957 world championship won by Juan Manuel

Fangio, as endurance races, Maserati has expressed itself with success at the top levels of the sport. But even before that, the glorious marque had written unforgettable pages in the annals of racing, including victories at Indianapolis in 1939 and 1940. The recent success of the MC12 is the latest chapter in this proud history of achievement. There are also specific boxes in this section devoted to particular competitive aspects, such as the great road speed records (1926-1952) and the company's long experience in speedboat racing. - New edition of one of the greatest works on shooting - A classic, perennial bestseller A Shooting Man's Creed, the field memoirs of Sir Joseph Nickerson, is now widely appreciated as a classic sourcebook in the literature of shooting. This new edition includes a revised introduction by his daughter, Rosie

Whitaker. A Shooting Man's Creed was first published in 1989 shortly before Sir Joseph Nickerson's death. He had finally put down his knowledge and expertise about shooting and all that it entails for countryside conservation so that others could benefit from the lessons he had learned. With a foreword by the Duke of Westminster, this book makes use of Sir Joseph Nickerson's unique collection of personal records covering more than 60 years and provides advice on every aspect of the increasingly popular sport of wing shooting.

It was code-named X100 and it was to be Jaguar's latest sports cars, featuring both coupe and convertible coachwork. It was to have an all-new V8 engine and it was to replace the XJS. It would also ultimately have the most powerful forced-induction engine of any production Jaguar road car and it had a

lot riding on its success. It was the XK8 - a sleek, purposeful grand tourer in the Jaguar tradition. Graham Robson, one-time Jaguar apprentice and a motoring historian with several other Jaguar books to his credit, tells the story of one of the twentieth century's most beautiful sports car, from its conception to the end of the line for both it and the factory it was built in.

The Book of the Jaguar XJ-S Crowood Press UK

The XJS was introduced in Sept. 1975 at a time when Jaguar had a reputation for poor reliability. The V12 engine was hit by the fuel crisis but the HE engine solved that problem and in 1981 finish and reliability were greatly improved making the post 1981 cars more desirable. The introduction of the 6-cylinder model in 1984 boosted its popularity, and sales in 1987 were

nearly eight times those of 1981. Other models followed including cabriolets and convertibles. This is a book of contemporary road and comparison tests, technical and specification data, new model intro's, tuning, travel, driver's impressions, buying second hand and racing. Models covered include: Automatic, Tullius, convertible, HE, HE Automatic, Eventer, 3.6C, Cabriolet, TWR, XJ-SC.
