The scale and arpeggio studies contained in this book represent  
the very fabric from which most flute music is made. A  
conscientious daily study of these exercises will not only augment  
the flutist's technical facility, but also improve his abilities in  
sight-reading and harmonic analysis.

*The Flute Book* Alfred Music Publishing

Dr. Suzuki questioned why all vocalists vocalize every day to improve their voices, but instrumentalists do not do so every day with their instruments. He believes that on any instrument, one needs to practice to make a more beautiful tone. First he talks about playing a beautiful resonant tone with the bow while plucking the string with a finger. When a pizzicato is played, the resonance goes on for a long time. Students should listen to that resonance and play the same kind of clear beautiful sound. He talks about how to make a difference in the tone by using a different bow speed, how to practice to find the resonance point, how to change the weight of the arm on the bow to produce a different kind of tone, and how to change tone color. This book includes all of Dr. Suzuki's basic ideas about tone.
