 Within every woman there lives a powerful
 force, filled with good instincts, passionate
 creativity, and ageless knowing. She is the
 Wild Woman, who represents the
 instinctual nature of women. But she is an
 endangered species. For though the gifts
 of wildish nature belong to us at birth,
 society's attempt to "civilize" us into rigid

roles has muffled the deep, life-giving
 messages of our own souls. In *Women
 Who Run with the Wolves*, Dr. Clarissa
 Pinkola Estés unfolds rich intercultural
 myths, fairy tales, folk tales, and stories,
 many from her own traditions, in order to
 help women reconnect with the fierce,
 healthy, visionary attributes of this
 instinctual nature. Through the stories and
 commentaries in this remarkable book, we
 retrieve, examine, love, and understand
 the Wild Woman, and hold her against our
 deep psyches as one who is both magic
 and medicine. Dr. Estés has created a new
 lexicon for describing the female psyche.
 Fertile and life-giving, it is a psychology of
 women in the truest sense, a knowing of
 the soul.

 In this new study, Elizabeth Goldsmith

continues her pursuit of issues treated in
 her earlier books on conversation,
 epistolary writing, and the female voice in
 literature. She examines how French
 women in the seventeenth and early
 eighteenth centuries first came to publish
 their private life stories; in doing so, she
 explores what the writers have to say
 about why they decide to write about
 themselves, what they choose to write,
 how they get their stories circulated and
 printed, and what they do to defend
 themselves against the threat to personal
 reputation and credibility that was implied
 by such public self-exposure. Goldsmith
 scrutinizes the autobiographical writing of
 six women, all of whom were, for different
 reasons, the objects of fairly intense
 publicity during their lifetime, at the
 historical moment when the idea of
 "publicity" via the printed word was still a

new concept. Three of the women—Jeanne des Anges, Marie de l'Incarnation, and Jeanne Guyon—were charismatic religious figures whose writings were widely circulated. The other three writers—the sisters Hortense and Marie Mancini, and Madame de Villegaignon—are more worldly, but like their spiritual counterparts, they undertook self-publication as a form of conversation with the world, and a way of participating in other forms of public discourse. *Publishing Women's Life Stories in France, 1647-1720* considers the different forms that the life writing of these three women took: autobiographies; letter correspondences (which in four of the six cases have never before been published); trial transcripts; testimonials published as part of other authors' works; and written self-portraits that were circulated among friends. Drawing on the work of Michel de Certeau on voice and communities of readers in the 17th century, as well as the work of Roger Chartier and other historians of the book and print culture, Goldsmith retraces the complicated networks of human interaction that underlie these early a

Excerpt from *A Group of Famous Women Stories of Their Lives* The best kind of American woman is proud. She has confidence in herself. She is not vain or conceited or self-assertive, but she has faith in her own powers. Even if she could, she would not spend her life in play or in idleness; she would choose to work. She believes that because she is doing her chosen work whatever it may be steadily, hour by hour, day by day, she is achieving. Because she has confidence in herself, she can live and labor serenely, proudly. No matter how obscure her lot, she feels herself to be in the same class as the most famous of her American sisters who have worked with steadiness and confidence at their task, and who have achieved greatness. So difficult has it been for teachers to find brief, readable biographies of distinguished women to use in connection with their lessons in history and civics that they will welcome this interesting collection. It should help to make the girls in our American schools proud of their womanhood and it should give them a strong desire to be worthy of belonging to the same class as this group of noble workers. Placing herself in the avid reader's chair, Linda Wagner-Martin writes about women's biography from George Eliot and Virginia Woolf to Eleanor Roosevelt and Margaret Mead, and even to Cher and Elizabeth Taylor. Along the way, she looks at dozens of other life stories, probing at the differences between biographies of men and women, prevailing stereotypes about women's lives and roles, questions about what is public and private, and the hazy margins between autobiography, biography, and other genres. In quick-paced and wide-ranging discussions, she looks at issues of authorial stance (who controls the narrative? who chooses which story to tell?), voice (is this story told in the traditional objective tone? and if it is, what effect does that telling have on our reading?), and the politics of publishing (why aren't more books about women's lives published? and when they are, what happens to their advertising budgets?).

"My earliest sense of what it means to be a woman was learned from my grandmother, Antoinette Mallozzi, and at her knee.... She smelled of lemons and olive oil, garlic and waxes and mysterious herbs. I loved to touch her skin." "So begins Diane di Prima's memoir, in which she explores the first three decades of her life and how she came to define herself as a woman. She grew up in Brooklyn in the 1930s and '40s in an Italian American family, and only by heroic effort was she able to break away and follow through on a lifelong commitment to become a poet, first made when she was in high school."--

It changed my whole perspective of myself as a woman."- Jada Pinkett-Smith "At nineteen, bell hooks began writing the book that forever changed the course of feminist thought. *Ain't I a Woman* remains a classic analysis of the impact of sexism on black women during slavery, the historic devaluation of black womanhood, black male sexism, racism within the women's movement, and black women's involvement with feminism. bell hooks is the author of numerous critically acclaimed and influential books on the politics of race, gender, class, and culture. *The Atlantic Monthly* celebrates her as one of our nation's leading public intellectuals. *Little Women* Univ of North Carolina Press The first popular biography of a pioneering feminist thinker and writer of medieval Paris. The daughter of a court intellectual, Christine de Pizan dwelled within the cultural heart of late-medieval Paris. In the face of personal tragedy, she learned the tools of the book trade, writing more than forty works that included poetry, historical and political treatises, and defenses of women. In this new biography—the first written for a general audience—Charlotte Cooper-Davis discusses the life and work of this pioneering female thinker and writer. She shows how Christine de Pizan's inspiration came from the world around her, situates her as an entrepreneur within the context of her times and place, and finally examines her influence on the most avant-garde of feminist artists, through whom she is slowly making a return into mainstream popular culture.

In the cafés on College Hill, the wisened-up kids are inhaling Derrida and listening to Talking Heads. But Madeleine Hanna, dutiful English major, is writing her senior thesis

on Jane Austen and George Eliot, purveyors of the marriage plot that lies at the heart of the greatest English novels. As Madeleine tries to understand why "it became laughable to read writers like Cheever and Updike, who wrote about the suburbia Madeleine and most of her friends had grown up in, in favor of reading the Marquis de Sade, who wrote about deflowering virgins in eighteenth-century France," real life, in the form of two very different guys, intervenes. Leonard Bankhead—charismatic loner, college Darwinist, and lost Portland boy—suddenly turns up in a semiotics seminar, and soon Madeleine finds herself in a highly charged erotic and intellectual relationship with him. At the same time, her old "friend" Mitchell Grammaticus—who's been reading Christian mysticism and generally acting strange—resurfaces, obsessed with the idea that Madeleine is destined to be his mate. Over the next year, as the members of the triangle in this amazing, spellbinding novel graduate from college and enter the real world, events force them to reevaluate everything they learned in school. Leonard and Madeleine move to a biology Laboratory on Cape Cod, but can't escape the secret responsible for Leonard's seemingly inexhaustible energy and plunging moods. And Mitchell, traveling around the world to get Madeleine out of his mind, finds himself face-to-face with ultimate questions about the meaning of life, the existence of God, and the true nature of love. Are the great love stories of the nineteenth century dead? Or can there be a new story, written for today and alive to the realities of feminism, sexual freedom, prenups, and divorce? With devastating wit and an abiding understanding of and affection for his characters, Jeffrey Eugenides revives the motivating energies of the Novel, while creating a story so contemporary and fresh that it reads like the intimate journal of our own lives.

 A landmark, prize-winning, international bestselling examination of how a gender gap in data perpetuates bias and disadvantages women, now in paperback
 Data is fundamental to the modern world. From economic development to health care to education and public policy, we rely on numbers to allocate resources and make crucial decisions. But because so much data fails to take into account

gender, because it treats men as the default and women as atypical, bias and discrimination are baked into our systems. And women pay tremendous costs for this insidious bias, in time, in money, and often with their lives. Celebrated feminist advocate Caroline Criado Perez investigates this shocking root cause of gender inequality in the award-winning, #1 international bestseller *Invisible Women*. Examining the home, the workplace, the public square, the doctor's office, and more, Criado Perez unearths a dangerous pattern in data and its consequences on women's lives. Product designers use a "one-size-fits-all" approach to everything from pianos to cell phones to voice recognition software, when in fact this approach is designed to fit men. Cities prioritize men's needs when designing public transportation, roads, and even snow removal, neglecting to consider women's safety or unique responsibilities and travel patterns. And in medical research, women have largely been excluded from studies and textbooks, leaving them chronically misunderstood, mistreated, and misdiagnosed. Built on hundreds of studies in the United States, in the United Kingdom, and around the world, and written with energy, wit, and sparkling intelligence, this is a groundbreaking, highly readable exposé that will change the way you look at the world.

Education was decisive in recasting women's subjectivity and the lived reality of their collective experience in post-Revolutionary and antebellum America. Asking how and why women shaped their lives anew through education, Mary Kelley measures the significant transformation in individual and social identities fostered by female academies and seminaries. Constituted in a curriculum that matched the course of study at male colleges, women's liberal learning, Kelley argues, played a key role in one of the most profound changes in gender relations in the nation's history: the movement of women into public life. By the 1850s, the large majority of women deeply engaged in public life as educators, writers, editors, and reformers had been schooled at female academies and seminaries. Although most women did not enter these professions, many participated in networks of readers, literary societies, or voluntary associations that became the basis for benevolent societies, reform movements, and activism in the antebellum period. Kelley's analysis demonstrates that female academies and seminaries taught women crucial writing, oration, and reasoning

skills that prepared them to claim the rights and obligations of citizenship.

Reading Women's Lives W. W. Norton

In this raucous collection of true-life stories, Chelsea Handler recounts her time spent in the social trenches with that wild, strange, irresistible, and often gratifying beast: the one-night stand. You've either done it or know someone who has: the one-night stand, the familiar outcome of a night spent at a bar, sometimes the sole payoff for your friend's irritating wedding, or the only relief from a disastrous vacation. Often embarrassing and uncomfortable, occasionally outlandish, but most times just a necessary and irresistible evil, the one-night stand is a social rite as old as sex itself and as common as a bar stool. Enter Chelsea Handler. Gorgeous, sharp, and anything but shy, Chelsea loves men and lots of them. My Horizontal Life chronicles her romp through the different bedrooms of a variety of suitors, a no-holds-barred account of what can happen between a man and a sometimes very intoxicated, outgoing woman during one night of passion. From her short fling with a Vegas stripper to her even shorter dalliance with a well-endowed little person, from her uncomfortable tryst with a cruise ship performer to her misguided rebound with a man who likes to play leather dress-up,

Chelsea recalls the highs and lows of her one-night stands with hilarious honesty. Encouraged by her motley collection of friends (aka: her partners in crime) but challenged by her family members (who at times find themselves a surprise part of the encounter), Chelsea hits bottom and bounces back, unafraid to share the gritty details. My Horizontal Life is one guilty pleasure you won't be ashamed to talk about in the morning.

The Lodger Gefen Books
This gripping and darkly funny memoir “is a testament to the undeniable, indestructible love between a mother and a daughter” (Isaac Mizrahi). Liz Scheier’s mother was a news junkie, a hilarious storyteller, a fast-talking charmer you couldn’t look away from, a single mother whose devotion crossed the line into obsession, and—when in the grips of the mental illness that plagued her—a masterful liar. On an otherwise uneventful afternoon when Scheier was eighteen, her mother sauntered into the room and dropped two bombshells. First, that she had been married for most of the previous two decades to a man Liz had never heard of and, second, that the man she had claimed was Liz’s dead father was entirely fictional. She’d made him up—his name, the stories, everything. Those big lies were the start, but not the end; it had taken dozens of smaller lies to support them, and by the time she was done she had

built a fairy-tale, half-true life for the two of them. Judith Scheier’s charm was more than matched by her eccentricity, and Liz had always known there was something wrong in their home. After all, other mothers didn’t raise a child single-handedly with no visible source of income, or hide their children behind fake Social Security numbers, or host giant parties in a one-bedroom Manhattan apartment only to throw raging tantrums when the door closed behind the guests. Now, decades later, armed with clues to her father’s identity—and as her mother’s worsening dementia reveals truths she never intended to share—Liz attempts to uncover the real answers to the mysteries underpinning her childhood. Trying to construct a “normal” life out of decidedly abnormal roots, she navigates her own circuitous path to adulthood: a bizarre breakup, an unexpected romance, and the birth of her son and daughter. Along the way, Liz wrestles with questions of what we owe our parents even when they fail us, and of how to share her mother’s hilarity, limitless love, and creativity with children—without passing down the trauma of her mental illness. *Never Simple* is the story of enduring the legacy of a hard-to-love parent with compassion, humor, and, ultimately, self-preservation. **DK Life Stories: Katherine Johnson** Grand Central Publishing

This book begins where most love stories leave off: at the beginning of real life. The transition from being a young couple in love to a couple of parents is laden with higher expectations than ever before in history, especially for women. Today's woman expects to be the perfect wife,

mother, career woman, self-actualised human being, and homemaker, all while remaining a size six. The idyllic picture that hangs on the wall of our hopes and dreams can't help but be marred by the ugly scratches of reality, and in this pressure-cooker environment, we're all too familiar with the resulting divorce statistics. This book follows the lives of two women in their first years of motherhood. One is a fictional character trying to live the happily-ever-after life we all imagined for ourselves. The second woman is the author herself, relating her real life story. It's a story of metamorphosis, from

independent working woman to mother, helpless in the face of the discovery that there's something wrong with her small daughter something very seriously wrong. Interspersed are actual letters from readers of Lapid's popular newspaper column about women's lives, sharing their experiences of juggling their many roles. In trenchant, thoughtful, and often laugh-out-loud funny prose, Lihi Lapid tells a true-life story of women and men struggling to live up to modern pressures: a story about shattered dreams, and about finding the strength to gather up the pieces and to learn to smile again.
