activities is covered - although since many of the routes involve climbing skills and rope-work, the guide is particularly well suited to climbers interested in a multi-activity holiday - and there are plenty of mid-grade options. Although quieter in winter, Costa Blanca is well served for accommodation and facilities, with easy access from Alicante. The guide includes plenty of useful

information to help you plan your holiday and directions to help you locate the start-point for each activity. All of the activities are clearly graded and include route description and mapping and - for the climbing routes and via ferratas - photo topos illustrating the line of the route. Handy tables summarise the key information, making it easy to choose an activity to suit. With inspiring

colour photography to whet your appetite, Costa Blanca Mountain Adventures is the perfect companion to discovering the adventures that await in this bounteous region. *Costa Blanca Mountains Tour and Trail Map* Cicerone Press Limited Guidebook to walking the Ribble Way, a 72 mile route following the Ribble valley, from the estuary mouth near Preston to the river's source on Cam Fell in

the Yorkshire Dales. The book contains OS map extracts and full route description split into 7 convenient stages, with suggestions for day walkers.

Costa Blanca Mountain Adventures
Cicerone Press
This guide describes 10 shorter hut-to-hut treks showcasing southern Norway's wild natural beauty, with highlights including Galdhøpiggen - Norway's highest peak at 2469m -

and the iconic Pulpit Rock and Kjeragbolten on the Lysefjord. The routes range from 3 to 8 days (although many can be adapted or combined to create longer or shorter routes) and cover Jotunheimen, Rondane, Dovrefjell, Trollheimen and Ryfylke. They are suitable for experienced hikers with a good level of fitness and can be walked from mid-July to the end of September.

Clear route description and mapping are provided for each hike. Stages are graded according to difficulty: although all of the routes follow waymarked trails, some cross remote and challenging terrain which may include exposed sections calling for a sure foot and a good head for heights. However, in many instances, alternatives are provided avoiding the most

demanding sections. The guide also offers comprehensive advice on public transport access and accommodation options, and background notes on each of the featured mountain regions. From narrow ridges to wide glacial valleys and from shimmering fjords to striking alpine peaks, Norway is home to many awe-inspiring landscapes. Throw in the warmth and hospitality of

the Norwegian Trekking Association's extensive hut network and you have all the ingredients of a fantastic adventure. This guide is an ideal companion to discovering some of Norway's classic shorter hikes and best-loved mountain landscapes. Costa Blanca Mountain Walks Landscapes This guidebook describes 40 day walks exploring Snowdonia. It showcases

some of the best mountain walks in the area, with routes up Snowdon and Tryfan alongside other classic peaks like Y Garn, Cadair Idris and the Glyders. Routes are graded easy to strenuous and include airy and pulse-quickenning scrambles such as Crib Goch and Bristly Ridge as well as the Snowdon Horseshoe, the Nantlle Ridge and a 2-day traverse of all 15 of Snowdon's

peaks over 3000ft. Walks range in distance from 4 miles (6km) to 16 miles (26km). Clear route descriptions are accompanied by OS mapping, and for each walk there is key information about distance, grade, ascent, terrain, access and parking. With useful advice on where to stay and when to go, and an English-Welsh glossary, this book is an invaluable guide to discovering

both the popular and less well-trodden corners of Snowdonia. Snowdonia can justifiably lay claim to some of the finest mountain walking in Britain, from the bristling, jagged ridges of Snowdon to the huge grassy mounds of the Carneddau and the stone-girt fortresses of the Glyderau. These are big mountains with big personalities, with glowering crags and deep rocky

cwms. Whether you are based in Bala, Beddgelert, Llanberis, Betws-y-Coed, Dolgellau or Capel Curig, you'll find walks in this guidebook to suit you. *Walking in the Ronda Mountains* Cicerone Press Limited A guidebook to walking on the Uists and Barra, in the Outer Hebrides - with 40 graded day walks on Berneray, North Uist, Grimsay, Benbecula, South Uist,

Eriskay, Barra, Vatersay and Mingulay. Routes range from easy beach walks to mountainous excursions and explore rugged hills, awesome sea cliffs, moorland and lochs.

Trekking Chamonix to Zermatt

Createspace Independent Publishing Platform

A guidebook to trekking the Slovene Mountain Trail, crossing Slovenia from Austria to the Adriatic. The 550km route is presented in

a series of 12 3 to 6-day treks of all levels of difficulty, all featuring start and finish points that can be accessed by public transport. They can be completed as single sections or linked to create a longer trip. Each day is graded: low-grade walking is mostly on tracks or lanes with no steep ascents, whereas the most difficult stages may involve steep and technical terrain including fixed

protection or sections of via ferrata, for which a helmet, self-belaying equipment and the appropriate experience are required. In addition to clear route description and mapping, the guide provides all the practical information you will need to plan your trip, covering transport, accommodation and safety, as well as background notes on geology, plants and wildlife. From Maribor, close

by the Austrian border in the north-east, to Ankaran on the Adriatic coast in the south-west, the route covers outstanding mountain and upland walking: the vast forested plateau of Pohorje, the sheer limestone peaks of the Julian and Kamnik-Savinja Alps with their via ferrata protected routes, the traditional alpine pastures and flower-strewn ridges of the

Karavanke, and the forested hills and olive groves of the limestone karst country that stretch towards the coast. *The Coast to Coast Cycle Route* Cicerone Press Limited The Costa Blanca is ideal for countryside exploration all year round. The car tours lead through fertile valleys smothered in blossom or sweet-scented fruit to delightful inland villages. Windmills,

water-falls and 'snow wells' feature among the picnic settings. But the rugged silhouettes of the area's many sierras dominate this landscape -- an irresistible attraction for walkers. Book jacket. **Walking the Ribble Way** Cicerone Press Limited Although Hong Kong is often thought of as intrinsically urban, just a short distance from the big cities are lush mountains and attractive and varied

countryside. This guide presents the highlights of this hiking-friendly territory, detailing 21 graded day walks and four short treks: Hong Kong Trail (presented in 3 day stages), Lantau Trail (5 days), MacLehose Trail (5 days) and Wilson Trail (5 days). The day walks - of 5 to 22.5km - cover Hong Kong, Kowloon, the New Territories and the islands and range from easy hikes suitable for families to challenging ascents of Hong Kong's highest peaks. The territory's compact nature and excellent public transport infrastructure make it easy to access the routes. The guide has all you need to explore Hong Kong's excellent network of trails. Route description is accompanied by clear mapping and there are comprehensive notes - including Chinese place names - to help visitors navigate the public transport system. Alongside practicalities such as getting there, equipment and weather, information on local points of interest offers an insight into Hong Kong's rich geology, history and culture. The Hong Kong archipelago is one of surprising diversity and contrast, where high-rise modern cities are set against a backdrop of verdant green

mountains, and sandy beaches lie right alongside dense jungle. There are also plenty of opportunities for wildlife-spotting and chances to experience the fascinating 'East meets West' culture. This guide is the perfect companion to discovering the fantastic walking on offer in the 'Pearl of the Orient'.

This guidebook describes 38 walking routes in Ticino, the Swiss canton with a Mediterranean twist.

Towering snowcapped mountains and lush, narrow valleys overlook stylish lakeside resorts with palm-fringed promenades

and handsome Italianate architecture. It's not just the Italian language that sets Ticino apart: the food, sunny weather and stunning landscapes attract millions of visitors to this part of the southern Alps every year. As for the walks, it's the variety - as much as the fabulous scenery - that provides the draw. In this book you'll find everything from level walks along the shores of Lakes Lugano

and Maggiore, to more challenging trails through craggy, forested valleys with gushing waterfalls and ancient stone-built villages, to isolated mountain huts right at the permanent snowline. If you think you already know Switzerland, but haven't walked in Ticino, a stunning experience awaits you - and all of the routes are easily accessible through a network of buses, trains,

<p>funiculars, cable cars and chairlifts. <u>Landscapes of the Costa Blanca</u> Cicerone Press Limited A guidebook to 60 day walks on the Portuguese island of Madeira and neighbouring Porto Santo. just two hours away. The routes are spread across the national park, with attractive towns and villages such as Trevez, Lanjaron, Hoya de la Mora and Cumbres Verdes serving as potential bases for a walking holiday. From more leisurely outings in the Cumbres Verde area to ascents of mainland Spain's highest summit, Mulhacen, there are routes to suit

a range of abilities, although most require a reasonable degree of fitness, navigational skill and experience of high mountain terrain. Whilst some of the routes are day or half-day walks, others take advantage of the region's network of mountain shelters or offer an opportunity to wild camp. Also included are three longer traverses: 'Los Tres Picos' (the Spanish Three Peaks -

Veleta, Mulhacen and Alcazaba), 'Los Tres Miles' Integral (a multi-day trek covering all the major 3000m peaks in the range) and an overview of the 302km Sulayr GR240. The walks can be enjoyed most of the year, however conditions may prove too hot at the peak of summer and extra care and equipment will be required in snow or ice: the descriptions assume summer conditions, but

include additional notes for winter walking. The guide also includes advice on transport, bases and safety, a tick-list of the 3000m peaks and a Spanish-English glossary. *Walk!* Hunter Publishing, Inc As I walked through the galleried woodlands along the river the first time I did this route, I could hardly believe that I was in Andalucía. It was my first visit to the region and I

had arrived with a vague notion that Andalucía was all brown, dusty and barren. I could not have been more mistaken. It was late springtime and I felt immersed in the song of the nightingales. Throughout the walk, the vegetation along the river is lush and dense." Thus begins the description of one of the walks in this new English language walking guidebook "Walking in

the Ronda Mountains: 30 half-day walks in Andalucía". It is written by two experienced walkers, Tony Bishop and Eva Bratek, who live in the village of Montejaque just outside Ronda. All the walks are located in the Serranía de Ronda, reflecting the authors' passion for keeping a local focus. They also recognise that many people don't want to spend hours in cars, buses or trains, getting to and from

walks. This book provides a beautiful, varied and gentle introduction to the Serranía de Ronda. "Walking in the Ronda Mountains" is a first for the Ronda area: an English-language walking guidebook covering 30 half-day walks in the Ronda mountains that includes notes and photographs on flora and fauna likely to be encountered on each walk. For those who like to stroll through

peaceful mountain landscapes whilst admiring trees, wildflowers and birds, this book is ideal. The book takes the reader through some of the most beautiful and yet least known parts of the mountains around Ronda. An increasing number of discerning visitors are now seeking out something different to the Costa del Sol and journey into those inland parts of Andalucía

where walking boots are more useful than a bathing costume. They arrive here for the first time and then vow to return. Some even come back here to live permanently. Those fortunate enough to live in this part of Andalucía will also be able to use this book in order to get to know their own backyard even better than before. Several of the 30 walks are accessible by using just public transport. The area covered

by “Walking in the Ronda Mountains” includes the Sierra de las Nieves UNESCO Biosphere Reserve, the Guadiaro Valley, the Sierra de Grazalema Natural Park, the upper and mid-Genal Valley, the Sierra Bermeja and the Sierra Blanca. “Walking in the Ronda Mountains” highlights the wealth and diversity of hiking routes in the Serranía de Ronda. Recognising that many

people are not interested in climbing mountain summits, Eva and Tony have concentrated on walks on public footpaths in the mountains. During a walk “you should have a sense of being at one with your surroundings, even when the setting is jaw-droppingly magnificent.” The authors bring the rich and diverse birdlife and wildflowers to life with vivid photographs and descriptions. The in-house

produced route maps should eliminate any risk of getting lost. The longest walk in this book is about 4 hours. Many are just 1.5 - 2 hours in length, a few even less than that. So the reader will have ample time for rest stops, for admiring their surroundings and for doing something else with the rest of their day. Eva and Tony have also chosen the walks for the way that they contrast with each other, as well

as for their individual intrinsic merits. Local ornithology author Juan Oñate summed this book up perfectly: “The authors’ witty and thoughtful passion for nature shines through this much-needed book. A mix of acute observation, an eye for detail and every encouragement to buy a pair of binoculars”.
