The Art of Lettering
showcases dynamic
hand lettering from
today’s young and
sought-after
typographers and
calligraphers, stoking
creative inspiration for
graphic designers,
artists, and type
enthusiasts alike. Hand
lettering is making a

comeback, bursting out of its graphic-design bubble and finding a mainstream via collecting social media sites like Instagram and Pinterest. The avid interest in hand lettering seemingly goes hand in hand with the weariness audiences feel with constant slick digital presentation of the information they consume. The Art of Lettering collects myriad new and established graphic designers for whom hand lettering is a time-honored art that has modern applications. Showcasing more than 100 artists from all over the world, the book displays their typographic takes and illustrates their perfectly imperfect handcrafted art, from

beautiful photographs of concept sketches to the end result. Straying away from traditional pen calligraphy, artists today employ new and creative approaches, including building type with coffee grounds, watercolors, and combinations of different hand tools, resulting in a dynamically fresh approach to creating type.

But, like many skilled

trades, the sign industry has been overrun by the techno-fueled promise of quicker and cheaper. The resulting proliferation of computer-designed, die-cut vinyl lettering and inkjet printers has ushered a creeping sameness into our visual landscape. Fortunately, there is a growing trend to seek out traditional sign painters and a renaissance in the trade. In 2010 filmmakers Faythe Levine, coauthor of *Handmade Nation*, and Sam Macon began documenting these dedicated practitioners, their time-honored methods, and their appreciation for quality and craftsmanship. *Sign Painters*, the first anecdotal history of

the craft, features stories and photographs of more than two dozen sign painters working in cities throughout the United States. With a foreword by legendary artist (and former sign painter) Ed Ruscha, this vibrant book profiles sign painters young and old, from the new vanguard working solo to collaborative shops such as San Francisco's *New Bohemia Signs* and New York's *Colossal Media* and *Sky High Murals*.

This book is a hands-on guide to the entire process of making logos and fonts and even icons, all of which, essentially, start with the ability to draw letterforms. The intent of the book, in fact, is

to enable the user to end reliance on "OPF" (other people's fonts) and learn to draw your own custom logos, fonts and lettering! Logo, Font & Lettering Bible is unique in that it teaches you how to create logos and fonts from scratch using traditional tools as well as the computer programs Adobe Illustrator and Fontographer (plus a bit about FontLab). The book provides all the traditional rules and tips about letter formation relating to proportion, shaping, balance, spacing, composition and actually teaches five different methods of drawing letters on computer using bezier curves. There has never been a book like this one that goes into so much detail about

drawing letters and takes such a fun and irreverent approach while doing so. The book is also full of inspiration and analysis of tons of great examples of vintage and current lettering from old manuscripts to graffiti. Logo, Font & Lettering Bible also shows you how to create fancy drop shadows and other type effects. And finally, the last section provides straight talk on the business of being a logo and font designer, from advertising your work and pricing to dealing with difficult clients (aren't they all?). *An Animal ABC* Penguin Unabridged reprint of extremely rare 18th-century manual offers helpful hints on forming letters, holding the pen, arm and wrist

positions, and posture. Includes rich sampling of alphabets, maxims, didactic verses, and other words of advice. Charmingly illustrated instruction manual for calligraphers, commercial artists, and devotees of fine penmanship.
