This book examines the career and publications of the French architect Julien-David Leroy (1724–1803) and his impact on architectural theory and pedagogy. Despite not leaving any built work, Leroy is a major international figure of eighteenth-century architectural theory and culture. Considering the place that Leroy occupied in various intellectual circles of the Enlightenment and Revolutionary period, this book examines the

sources for his ideas about architectural history and theory and defines his impact on subsequent architectural thought. This book will be of key interest to graduate students and scholars of Enlightenment-era architectural history.

The first English-language publication of a classic French book on the relationship between the development of photography and of the medical category of hysteria. In this classic of French cultural studies, Georges Didi-Huberman traces the intimate and reciprocal relationship between the disciplines of psychiatry and photography in the late nineteenth century. Focusing on the immense photographic output of the Salpetriere hospital, the notorious Parisian asylum for insane and incurable women, Didi-Huberman shows the crucial role played by photography in the invention of the category

of hysteria. Under the direction of the medical teacher and clinician Jean-Martin Charcot, the inmates of Salpetriere identified as hysterics were methodically photographed, providing skeptical colleagues with visual proof of hysteria's specific form. These images, many of which appear in this book, provided the materials for the multivolume album *Iconographie photographique de la Salpetriere*. As Didi-Huberman shows, these photographs were far from simply objective documentation. The subjects were required to portray their hysterical "type"—they performed their own hysteria. Bribed by the special status they enjoyed in the purgatory of experimentation and threatened with transfer back to the inferno of the incurables, the women patiently posed for the photographs and submitted to presentations of hysterical attacks before the crowds that gathered for Charcot's "Tuesday Lectures." Charcot did not stop at voyeuristic

observation. Through techniques such as hypnosis, electroshock therapy, and genital manipulation, he instigated the hysterical symptoms in his patients, eventually giving rise to hatred and resistance on their part. Didi-Huberman follows this path from complicity to antipathy in one of Charcot's favorite "cases," that of Augustine, whose image crops up again and again in the *Iconographie*. Augustine's virtuosic performance of hysteria ultimately became one of self-sacrifice, seen in pictures of ecstasy, crucifixion, and silent cries.

London may have Savile Row and Paris its luxury houses, but nowhere can compete with the essence of Italy's nonchalant elegance: sprezzatura. This book presents the most in-depth look at the designers, tailors and artisans who for generations have defined the very notion of Italian style. From such fabled names as Rubinacci and Kiton to highly sought-after global brands like Zegna, more than fifty iconic Italian menswear

houses are featured for their individual style and commitment to upholding the values of quality and timelessness. Featuring lavish photographs, with close-ups of subtle, exquisite details, most taken specially for this publication, *The Italian Gentleman* explores the world behind the finished garments - the ateliers and hidden shops where legends are born. Including iconic brands alongside fabric mills, shirting, accessories and shoemaking, this timely publication is a tribute to true Italian style with today's modern man in mind.

Preliminary Discourse to the *Encyclopedia of Diderot* expresses the hopes, dogmas, assumptions, and prejudices that have come to characterize the French Enlightenment. In this preface to the *Encyclopedia*, d'Alembert traces the history of intellectual progress from the Renaissance to 1751. Including a revision of Diderot's *Prospectus* and a list of contributors to the *Encyclopedia*, this edition, elegantly translated and introduced by Professor Richard Schwab, is one of

the great works of the Enlightenment and an outstanding introduction to the philosophes. [Catalogue of the Library of Congress](#) Routledge "Explores the role of private art collections in the cultural, social, and political life of early eighteenth-century Paris. Examines how two principal groups of collectors, each associated with a different political faction, amassed different types of treasures and used them to establish social identities and compete for distinction"--Provided by publisher.

Depuis quelques années, le style masculin est en plein renouveau et de nombreux hommes redécouvrent avec passion les joies d'une vie plus élégante. Paris, la capitale mondiale du luxe, de la mode et de la haute couture, dont les signatures éternelles incarnent l'élégance parisienne intemporelle, est célébrée dans le monde entier pour l'apport décisif de ses héros immortels - Coco Chanel, Yves Saint Laurent, Christian Dior - à l'élégance et à la beauté des femmes. Cependant,

le rayonnement planétaire et la quasi-hégémonie de la figure féminine dans l'image de l'élégance française et parisienne a toujours eu tendance à masquer l'autre versant du trésor de la capitale française : l'excellence des artisans et des maisons dédiés à l'élégance des hommes. L'engouement nouveau des hommes pour leur élégance a permis l'émergence soudaine de héros d'un genre nouveau : ils ne sont plus stylistes ou directeurs artistiques, mais maîtres tailleurs, maîtres bottiers, parfumeurs, lunetiers ou chemisiers. Ils ne s'appellent pas Karl Lagerfeld, Hedi Slimane ou Marc Jacobs, mais Lorenzo Cifonelli, Pierre Corthay, Marc de Luca, Anthony Delos ou Jean-Claude Colban. Là où l'on a uniquement célébré, durant trois décennies, le génie visionnaire et l'audace parfois sulfureuse des artistes du monde de la mode, l'on redécouvre aujourd'hui le savoir-faire discret et les créations intemporelles de ces artisans géniaux qui, loin de l'effervescence médiatique presque irréaliste du monde de la haute couture, habillent, chaussent, parfument et

équipent chaque jour des milliers de gentlemen élégants à Paris et ailleurs, souvent depuis trois ou quatre générations. C'est à la découverte de ces artisans souvent discrets et de ces maisons illustres ou inconnues, grandes ou minuscules, qu'Hugo Jacomet, le fondateur du célèbre magazine en ligne "Parisian Gentleman", propose de partir avec ce livre. Fruit de deux années de travail et d'immersion dans le monde fascinant des salons et des ateliers dédiés à l'élégance des hommes, cet éloge de l'élégance à la française est richement illustré par les prises de vue du photographe parisien Andy Julia, dont la grande majorité ont été spécialement réalisées pour les besoins de cet ouvrage. Un voyage passionnant et émouvant au coeur de maisons parisiennes parfois plus que centaines auxquelles Marcel Proust, Claude Debussy, Charles Baudelaire, Sacha Guitry, Jean Cocteau mais aussi Andy Warhol, Marcello Mastroianni ou Philippe Noiret sont restés fidèles durant toute leur existence. *Transactions, American Philosophical Society (vol.*

 Mummified explores the curious, unsettling and controversial cases of mummies held in French and British museums. From powdered mummies eaten as medicine to mummies unrolled in public, dissected for race studies and DNA-tested in modern laboratories, there is a lot more to these ancient remains than first meets the eye. This book takes you on a journey from Paris to London, Leicester and Manchester, from the apothecaries of the Middle Ages to the dissecting tables of the eighteenth century, and finally behind the screen of today's computers, to revisit the stories of these bodies that have fascinated Europeans for so long. Mummified investigates matters of life and death, of collecting and viewing, and of interactions - sometimes violent and sometimes emotional - that question the essence of what makes us human. *Alphabetical Catalogue of the Library of Congress* Cambridge University Press

A unique and personal portrait of the beloved, legendary Swiss writer, finally in English After a nervous breakdown in 1929, Robert Walser spent the remaining twenty-seven years of his life in mental asylums, closed off from the rest of the world in almost complete anonymity. While at the Herisau sanitarium, instead of writing, Walser practiced another favorite activity: walking. Starting in 1936, Carl Seelig, Walser's friend and literary executor, visited and accompanied him on these walks, meticulously recording their conversations. As they strolled, Walser told stories, shared his daily experiences of the sanatorium, and expressed his opinions about books and art, writing and history. When Seelig asked why he no longer wrote, Walser famously replied: "I'm not here to write, I'm here to be mad." Filled with lively anecdotes and details, *Walks with Walser* offers the fullest available account of this wonderful

writer's inner and outer life.

A Dictionary of Books Relating to America, from Its Discovery to the Present Time American Philosophical Society
The experience, and failure, of Louis XVI's short-lived constitutional monarchy of 1789–1792 deeply influenced the politics and course of the French Revolution. The dramatic breakdown of the political settlement of 1789 steered the French state into the decidedly stormy waters of political terror and warfare on an almost global scale. This book explores how the symbolic and political practices which underpinned traditional Bourbon kingship ultimately succumbed to the radical challenge posed by the Revolution's new 'proto-republican' culture. While most previous studies have focused on Louis XVI's real and imagined foreign counterrevolutionary plots, Ambrogio A. Caiani examines the king's hitherto neglected domestic activities in Paris. Drawing on previously unexplored archival source material, Caiani provides an alternative reading of Louis XVI in this period, arguing that the

monarch's symbolic behaviour and the organisation of his daily activities and personal household were essential factors in the people's increasing alienation from the newly established constitutional monarchy.

In a new compact edition, a luxurious celebration of the elegant craftsmanship behind the timeless French men's fashion and lifestyle labels. Home of haute couture and the world's leading fashion houses, Paris and its inhabitants represent sophistication and refinement to the rest of the world. Debonair Parisian men continue to participate in a centuries-long tradition of sartorial craftsmanship and quality. In its newly accessible compact edition, *The Parisian Gentleman* is like a dream shopping excursion to the leading men's style-makers, from hidden ateliers and little-known studios to internationally renowned labels such as shirtmakers Charvet, shoemakers Berluti, and the recently revived trunk-makers Moynat. The stories behind each house, and the creative minds and artisans who give each brand its unique identity, bring the clothes

alive, capturing an unceasing dedication to quality in an era overrun with new, mass-produced trends. Author Hugo Jacomet's portraits of these often-inaccessible marques (or brands) are intimate and illuminating, thanks to his personal connections to many of the leading figures. His text is accompanied by beautifully shot photographs of the designers, studios, garments, and locations, the majority of which were taken exclusively for this book.
