Catalog Corwin Press

Materials for teaching language arts to grade K-8 students. The program aims to develop students to be critical readers, fluent writers, critical thinkers, fluent users of language, articulate speakers and critical listeners.

Discovering Life Skills Student Edition McGraw-Hill Education

Complete and comprehensive family and consumer sciences program. Contains lesson plans, teaching suggestions, discussion activities, research ideas, background information, outreach activities, and multicultural and cross-curricular links to assist the teacher.

Learning Science by Doing Science Cambridge University Press

This book consists of chapters that present the state-of-the-art research on mixed reality, simulation and serious games with applications in four main educational topics: (1) K-12 STEAM Education; (2) Tertiary/Professional Education; (3) Special Needs Education; and (4) Cultural, Social & Museum Education. The chapters of the book present a multi-facet view on different approaches to deal with challenges that surround the uptake of

educational applications of mixed reality, simulations and serious games in various practices. The different approaches highlight challenges and potential solutions and provide future directions for mixed reality, simulation and serious games research, for the design of learning material and for implementation. By doing so, the book is a useful resource for both students and scholars interested in research in this field, for designers of learning material and for practitioners that want to embrace mixed reality, simulation and/or serious games in their education. Chapter "Development of AR Interactive Components for Positive Behavioral Interventions and Supports" is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Mixed Reality for Education McGraw-Hill Education

Time-tested activities to teach the key ideas of science—and turn students into scientists! This witty book adapts classic investigations to help students in grades 3 through 8 truly think and act like scientists. Chapter by chapter, this accessible primer illustrates a “big idea” about the nature of science and offers clear links to the Next Generation Science Standards and its Science and Engineering Practices. You’ll also find: A reader-friendly overview of the NGSS Guidance on adapting the activities to your grade level, including communicating instructions, facilitating discussions, and managing safety concerns Case studies of working scientists to highlight specifics about the science and engineering practices

Te HS&T a Springer Nature

Glencoe Health is a comprehensive health program, provided in a flexible format, designed to improve health and wellness among high school students. Real-life application of health skills helps students apply what they learn in health class toward practicing good health behavior in the real world. Hands-on features are integrated with technology, assessment, and up-to-date health content. Features: Hands-on activities-based program focuses on health skills, avoiding risk behaviors, and promoting health literacy. Academic integration throughout the program includes research-based reading and writing strategies in every lesson, as well as Real-World Connections emphasizing math concepts and activities, and Standardized Test Practice focusing on Math and Reading/Writing. Fitness is emphasized through the program with the Fitness Zone. The Fitness Zone includes tips in the Student Edition for incorporating fitness into everyday life, activities in the Teacher Edition, a special section of the Online Learning Center, and a heart-rate activity workbook with CD-ROM. The latest technology includes videos, podcasts, activities for handheld devices, the online student edition, PowerPoint DVD, StudentWorks Plus, and TeacherWorks Plus. Includes: Print Student Edition
