A Life Story  
A joyful celebration of lush femininity and quick-witted girlishness, this gorgeous little art book is truly a treasure in itself. German artist Tina Berning's international reputation is on the rise, winning her raves

in the blog world, and it's easy to see why—her paintings and drawings of women, gathered together here for the first time, are as expressive as they are beautiful. Flitting with ease from nudes to fashion pin-ups, from quick sketches to sultry portraits, Berning's work is by turns playful, provocative, and just plain pretty, and it's ripe to be embraced by fans of contemporary

illustration. Nestled between distinctive craft-paper covers, 100 Girls on Cheap Paper is an alluring volume for anyone who loves fine art, fashion, or girls.

From the New York Times bestselling author of Crazy Rich comes a blockbuster unauthorized biography of one of the most famous and ubiquitous family dynasties in contemporary culture: The Kardashians. Secrets and scandals of the Kardashians, so closely held that not even hard core fans have heard about them, are finally exposed in New York Times bestselling author Jerry Oppenheimer's forensic dissection of the infamous reality TV clan. From the curious life of patriarch Robert Kardashian, whose family meatpacking

business was tainted by scandal, to “momager” Kris Jenner’s top-secret plan for the future, *The Kardashians* reveals the untold, definitive story based on two years of investigative reporting and scores of candid, on-the-record interviews, ranging from childhood friends to powerful business associates, who break their silence for the first time. In the decade since the Kardashians first appeared on the scene, millions of speculative words have been written about their drama-filled lives. But most has been tabloid hype and gossip column fantasy. Until now. Oppenheimer has written revelatory books on such international icons as the Clintons, the

Kennedys, the Hiltons and more, and now comes *The Kardashians*, the true story that will make headlines and shock even the most loyal fans.

Founders of the phenomenally successful publishing company Lonely Planet, Tony and Maureen Wheeler have produced travel guides to just about every country across the globe. Lonely Planet Publications was born in 1973 when the Wheelers self-published a quirky travel guide, *Across Asia on the Cheap*. This was quickly followed by what soon became the backpackers' bible, *South-East Asia on a*

*Shoestring*. Going boldly where no other travel publisher had ventured, their budget-conscious travellers guide provided knowledge long before the advent of mass tourism. Once *While Travelling: The Lonely Planet Story* is a unique mix of autobiography, corporate history and travel book. It traces Tony and Maureen Wheeler's personal story as well as the often bumpy evolution of their business into the world's largest independent travel publishing company. Above all, their memoir reveals the spirit of adventure that has made them, according to the *New York Daily News*, 'the specialists in guiding weird folks to weird places.'

Frida Kahlo, a truly extraordinary

woman who captured the public's imagination with her iconic look, troubled life and exotic air, is first and foremost a great painter. This exhibition and accompanying catalogue aim to free her work from the haze of myth and the frustrating limits of private life in order to grant her the position she deserves within the history of art. Oil paintings, drawings, watercolors, letters and photographs explore the complex historical and cultural context of Kahlo's work, examining its explicit realism as well as its disturbing ambiguity, its dramatic content as well as its irony, and not least, the exuberant sensuality of her still lifes. Organized by

theme in several large chapters, the catalogue analyses the art of Frida Kahlo, revealing its uncompromising political nature, audacious use of the body, macabre, violent aesthetic, and symbiotic and symbiotic interaction with the natural environment of Mexico in the early 1900s. The catalogue represents the most up-to-date text available on the work of one of the most celebrated and beloved artists of all time.

One day a beautiful blue ball of yarn rolls naturally into the galaxy? and so, the journey of life begins. The yarn symbolizes the heartbeat that connects us all. It

swiftly travels through time on Earth and draws our deep interconnectedness with everything. The yarn unravels and endlessly shape-shifts into flowers and trees and animals and? into humans as well.

Following the line of life, we reach a tipping point, the recent pandemic. A shared chapter of sadness, desolation and separation but also an unexpected chance for human-hearted contemplation. With a new awareness, the humans realize that the only way forward is together. Inspired by unity, they take one big harmonious breath to flip the page into history. And that my dear, was the beginning of Earth Family.

Paper University of Michigan Press  
An exquisite look into the legacy of the rose at the House of Dior, from Christian Dior's early passion for gardening to contemporary floral-inspired designs. Christian Dior discovered gardening at his childhood home in Granville, France. Roses profoundly influenced the designer, especially with his famous New Look aesthetic, where they were placed beneath the iconic corolla symbol. Published on the occasion of the exhibition at the Musée Christian Dior in Granville, this volume explores the rose's importance in Dior's history. The inspiration for Christian Dior's flowery vision of

femininity runs deep throughout the House's collections; reinventions by subsequent artistic directors pay homage to Dior's wish to design dresses for "flower-like women." A focus on a new variety of rose, the Rose de Granville, underscores the perennial significance of the rose today—from inspiring Haute Couture creations to perfume making. This fascinating immersion in Dior's universe continues with texts by experts Éric Pujalet-Plàa, Vincent Leret, and Brigitte Richart, accompanied by sublime photographs, including shots by the most acclaimed twentieth-century masters as well as contemporary photography.

When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. From the co-founder of THINX and hellotushy.com, start-ups collectively valued

at more than \$150 million, comes DISRUPT-HER, a rallying cry for women to radically question the status quo. Miki Agrawal has faced patriarchal pushback, fought girl-on-girl hate, ridden the roller coaster of building businesses as a female CEO, and even overcome an attempt to burn her for witchcraft (figuratively). In order to navigate the complicated--at times maddening--struggles of contemporary femininity, we need an unabashed manifesto for the modern woman that inspires us to move past outrage and take positive steps on the personal, professional, and societal levels. This manifesto galvanizes us to action in 13

major areas of our lives with as much fire power as possible. These are the credos we live by, the advice we give to friends, the tenets we instill in our companies and peers on a daily basis. Stories of badass female movers and shakers are shared in this book too to give you an extra jolt of "I've got this." It's a whole body F\*CK YES to your work, your love, your relationships, and your mission--while doing it all authentically, unapologetically, and with full integrity. [A History of Japan, 1582-1941](#) Springer Comprehensive biography of Anthony Fokker, the famed Dutch pilot and daredevil aviator Anthony Fokker: The Flying Dutchman Who Shaped American

Aviation tells the larger-than-life true story of maverick pilot and aircraft manufacturer Anthony Fokker. Fokker came from an affluent Dutch family and developed a gift for tinkering with mechanics. Despite not receiving a traditional education, he stumbled his way into aviation as a young stunt pilot in Germany in 1910. He survived a series of spectacular airplane crashes and rose to fame within a few years. A combination of industrial espionage, luck, and deception then propelled him to become Germany's leading aircraft manufacturer during World War I, making him a multimillionaire by his midtwenties. When the German Revolution swept the country in 1918 and

1919, Fokker made a spectacular escape to the United States. He set up business in New York and New Jersey in 1921, and shortly thereafter became the world's largest aircraft manufacturer. The U.S. Army and Navy acquired his machines, and his factories equipped legendary carriers such as Pan American and TWA at the dawn of commercial air transport. Yet despite his astounding success, his empire collapsed in the late 1920s after a series of ill-conceived business decisions and deeply upsetting personal dramas. In 1927, aviator Richard Byrd solicited a Fokker three-engine plane to be the first to fly non-stop across the Atlantic. The plane was damaged on a test

flight and Charles Lindbergh beat him to it. Lindbergh's solo adventure in the Spirit of St. Louis earned him--and cost Fokker--a lasting place in the history books. Using previously undiscovered records and primary sources, Marc Dierikx traces Fokker's extraordinary life and celebrates his spectacular achievements.

Unseen images and documents from the ultimate Bond film Perhaps the classic James Bond film, *Goldfinger* (1964) undoubtedly marked the beginning of 1960s Bondmania.

Incorporating much unpublished material, including photographs and the original typed screenplay, *The*

Goldfinger Files is an illustrated history of the film's iconic scenes shot in Switzerland's Urseren Valley, crowned by the car chase with Bond's gadget-laden Aston Martin. To maximize publicity for the film, its makers took the unorthodox step of inviting journalists and photographers onto the set, resulting in a wealth of photos, including those by Hans Gerber, Josef Ritler and Erich Kocian. These give us an insider's view of the famous sequence-- Goldfinger's Rolls-Royce on the dusty mountain road, Tilly Masterson's failed assassination attempt on him, the chase between her Mustang

and Bond's Aston Martin and finally Goldfinger's smelting factory. Dozens of private pictures revealing candid, behind-the-scenes moments complete this documentary flipbook of golden-age James Bond culture.
