Adriaan Reland (1676-1718), Arabist, Cartographer, Antiquarian and Scholar of Comparative Religion covers the intellectual achievements of a remarkable man: Adriaan Reland, professor of Oriental languages (1701) and Hebrew Antiquities (1713) at the University of Utrecht from 1701 to 1718. Although he never travelled beyond the borders of his home country, he had an astonishingly broad worldview. The contributions in this volume illuminate Reland's many accomplishments and follow his scholarly trajectory as an Orientalist, a linguist, a cartographer, a poet, and a historian of comparative religions. Reland, although a devout Protestant, believed that religions should be examined objectively on their own terms with the help of reliable and authentic documents, which would dispel the prejudices of the past. Contributors: Lot Brouwer, Ulrich Groetsch, Toon van Hal, Jason Harris, Bart Jaski, Christian Lange, Richard van Leeuwen, Remke Kruk, Anna Pytlowany, Henk J. van Rinsum, Dirk Sacré, Arnoud Vrolijk, Tobias Winnerling and Jan Just Witkam

Data can be extremely valuable if we are able to extract information from them. This is why multivariate data analysis is essential for business and science. This book offers an easy-to-understand introduction to the most relevant methods of multivariate data analysis. It is strictly application-oriented, requires little knowledge of mathematics and statistics, demonstrates the procedures with numerical examples and illustrates each method via a case study solved with IBM's statistical software package SPSS. Extensions of the methods and links to other procedures are discussed and recommendations for application are given. An introductory chapter presents the basic ideas of the multivariate methods covered in the book and refreshes statistical basics which are relevant to all methods. For the 2nd edition, all chapters were checked and calculated using the current version of IBM SPSS. Contents Introduction to empirical data analysis Regression analysis Analysis of variance Discriminant analysis Logistic regression Contingency analysis Factor analysis Cluster analysis Conjoint analysis The original German version is now available in its 17th edition. In 2015, this book was honored by the Federal Association of German Market and Social Researchers as "the textbook that has shaped market research and practice in German-speaking countries". A Chinese version is available in its 3rd edition. On the website [www.multivariate-methods.info](http://www.multivariate-methods.info), the authors further analyze the data with Excel and R and provide additional material to facilitate the understanding of the different multivariate methods. In addition, interactive flashcards are available

to the reader for reviewing selected focal points. Download the Springer Nature Flashcards App and use exclusive content to test your knowledge.

From the national bestselling author of *Alice* comes a familiar story with a dark hook—a tale about Peter Pan and the friend who became his nemesis, a nemesis who may not be the blackhearted villain Peter says he is... There is one version of my story that everyone knows. And then there is the truth. This is how it happened. How I went from being Peter Pan's first—and favorite—lost boy to his greatest enemy. Peter brought me to his island because there were no rules and no grownups to make us mind. He brought boys from the Other Place to join in the fun, but Peter's idea of fun is sharper than a pirate's sword. Because it's never been all fun and games on the island. Our neighbors are pirates and monsters. Our toys are knife and stick and rock—the kinds of playthings that bite. Peter promised we would all be young and happy forever. Peter lies.

After the publication of *The Origins of Totalitarianism* in 1951, Hannah Arendt undertook an investigation of Marxism, a subject that she had deliberately left out of her earlier work. Her inquiry into Marx's philosophy led her to a critical examination of the entire tradition of Western political thought, from its origins in Plato and Aristotle to its culmination and conclusion in Marx. *The Promise of Politics* tells how Arendt came to understand the failure of that tradition to account for human action. From the time that Socrates was condemned to death by his fellow citizens, Arendt finds that philosophers have followed Plato in constructing political theories at the expense of political experiences, including the pre-philosophic Greek experience of beginning, the Roman experience of founding, and the Christian experience of forgiving. It is a fascinating, subtle, and original story, which bridges Arendt's work from *The Origins of Totalitarianism* to *The Human Condition*, published in 1958. These writings, which deal with the conflict between philosophy and politics, have never before been gathered and published. The final and longer section of *The Promise of Politics*, titled "Introduction into Politics," was written in German and is published here for the first time in English. This remarkable meditation on the modern prejudice against politics asks whether politics has any meaning at all anymore. Although written in the latter half of the 1950s, what Arendt says about the relation of politics to human freedom could hardly have greater relevance for our own time. When politics is considered as a means to an end that lies outside of itself, when force is used to "create" freedom, political principles vanish from the face of the earth. For Arendt, politics has no "end"; instead, it has at times been—and perhaps can be again—the never-ending endeavor of the great

plurality of human beings to live together and share the earth in mutually guaranteed freedom. That is the promise of politics.

[Spatial Commons. Urban open spaces as a resource](#) Hachette UK

Space has to be discussed once one focuses on the commons, the natural and cultural resources securing the well-being of a community. The question of availability of these resources includes asking for the place where they are accessible or where they are made accessible and thus always the question of the spatial organization of this society. This publication wants to provide a first overview about historical types of commons, about contemporary theories on urban commons, and speculate about possible forms of future commoning. Die Beschäftigung mit den Gemeingütern, den elementaren natürlichen und kulturellen Ressourcen, die dem Wohle der Gemeinschaft dienen, fordert auch eine Auseinandersetzung mit Räumen. Denn die Frage nach der Verfügbarkeit von Ressourcen schließt die Frage nach dem Ort, an dem diese für die Gemeinschaft zugänglich sind oder zugänglich gemacht werden, und damit immer auch die Frage nach der räumlichen Organisation dieser Gemeinschaft, ein. Diese Publikation gibt einen ersten Überblick über historische Typen von Allmenden, über die aktuelle Theoriebildung zum Thema des urbanen Gemeingutes und spekuliert über mögliche Formen von zukünftigem Commoning.

Now in paperback, from one of the most dazzling authors of contemporary German literature comes this delightful tale of a philosopher and his encounter with a supernatural lion. One night, German philosopher Hans Blumenberg returns to his study to find a shocking sight—a lion lying on the floor as if it's the most natural thing in the world. The lion stretches comfortably on the Turkmen rug, eyes resting on Blumenberg. The philosopher with some effort retains his composure, even when the next day during his lecture the lion makes another appearance, ambling slowly down the center aisle. Blumenberg glances around; the seats are full, but none of his students seem to see the lion. What is going on here? Blumenberg is the captivating and witty fictional tale of this likable philosopher and the handful of students who come under the spell of the supernatural lion—including skinny Gerhard Optatus Baur, a promising young Blumenbergian, and the delicate, haughty Isa, who falls head over heels in love with the wrong man. Written by Sibylle Lewitscharoff, whom *Die Welt* called the "most dazzling stylist of contemporary German literature," Blumenberg will delight English readers.
