For two decades photojournalist David Bacon has documented the connections between labor, migration, and the global economy. In *Illegal People* Bacon exposes the many ways globalization uproots people in Latin America and Asia, driving them to migrate. At the same time, U.S. immigration policy makes the labor of those displaced people a crime in the United States. Bacon makes his case through interviews and on-the-spot reporting both from impoverished communities abroad

and from immigrant workplaces and neighborhoods here. He analyzes NAFTA's corporate tilt as a cause of displacement and migration from Mexico and shows that criminalizing immigrant labor also benefits employers. He argues that immigration and trade policy are elements of a single economic system. Bacon traces the development of illegal status back to slavery and shows the human cost of treating the indispensable labor of millions of migrants--and the migrants themselves--as illegal. *Illegal People* argues for a sea change in the way we think, debate, and legislate around issues of migration and globalization, promoting a human rights perspective

throughout a globalized world.

There is a crisis that millions of families face each fall: how to get their child into highly selective colleges. In 2015, the Ivy League received almost 250,000 applications for 14,000 spots, while one of the top public universities, UCLA, received over 92,000 applications for 5,800 spots in its freshman class. This crisis spirals out of control as the number of applicants from the U.S. and abroad skyrockets. Whether your child dreams of attending Harvard or Berkeley, *Earning Admission* is the blueprint that empowers your child to use strategic planning and marketing to stand

out amongst a sea of applicants and earn admission. This step-by-step guide to earning admission teaches: \* How your child can select and take classes in high school to stand out from other straight 'A' students. \* How your child can dramatically increase her odds of admission by strategically choosing a major. \* How your child can write a personal statement that sets her apart from other applicants by demonstrating perspective, passion, and maturity. \* How your child can build a slate of extracurricular activities that admissions officers value. \* How your child can secure hundreds of thousands of dollars of merit scholarships or need-based grants

even if your family earns over \$100,000 per year. "Earning Admission taught us everything we needed to know about making our daughter a unique and competitive applicant It helped us get our daughter get into Yale." -Jay C., parent of a Yale undergrad.

The open country of Texas between the Nueces River and the Rio Grande was sparsely settled through the nineteenth century, and most of the settlers who did

live there had Hispanic names that until recently were rarely admitted into the pages of Texas history. In 1935, however, a descendant of one of the old Spanish land-grant families in the region—a woman, no less—found an ingenious way to publish the history of her region at a time when neither Tejanos nor women had much voice. She told the story from the perspective of an ancient mesquite tree, under whose branches much South Texas history had passed. Her tale became an invaluable source of folk history but has long been out of print. Now, with important new introductions by Leticia M. Garza-Falcón and Andrés Tijerina, the history witnessed by El Mesquite can

again inform readers of the way of life that first shaped Texas. Through the voice of the gnarled old tree, Elena Zamora O'Shea tells South Texas political and ethnographic history, filled with details of daily life such as songs, local plants and folk medicines, foods and recipes, peone/patron relations, and the Tejano ranch vocabulary. The work is an important example of the historical-folkloristic literary genre used by Mexican American writers of the period. Using the literary device of the tree's narration, O'Shea raises issues of culture, discrimination, and prejudice she could not have addressed in her own voice in that day and explicitly states the Mexican American

ideology of 1930s Texas. The result is a literary and historic work of lasting value, which clearly articulates the Tejano claim to legitimacy in Texas history. ELENA ZAMORA O'SHEA (1880-1951) was born at Rancho La Noria Cardenena near Peñitas, Hidalgo County, Texas. A long-time schoolteacher, whose posts included one on the famous King Ranch, she wrote this book to help Tejano children know and claim their proud heritage.

This book proposes a renewal of 'Open Regionalism' in Latin America and the Caribbean (LAC) aimed at achieving the region's goals of high

growth with stability. The LAC region experienced a growth spurt with equity during the first decade of the 21st Century. It is well understood that an unsustainable demand boom fueled by terms-of-trade improvements drove this growth acceleration episode, especially in South America.

Unfortunately, terms of trade are no longer fueling growth, and the region's policymakers are in search of new sources of growth with stability. With the experience of East Asia and the Pacific in mind, many policymakers in LAC are looking to international economic ties as a potential source of stable growth. The challenge highlighted in this book lies in designing an

integration agenda comprising trade and factor market integration that is conducive to region-wide efficiency gains, which can help LAC enhance its global competitiveness. The forces of geography imply that pro-growth global integration cannot be achieved without building a strong neighborhood. Thus, this volume argues that LAC's regional economic integration agenda needs to go well beyond the current spaghetti bowl of preferential trading arrangements.

The great movements of modern African history -- imperialism, nationalism, and the revolution of rising

expectations -- are vividly presented in this authoritative history. It begins in 1875 when the majority of African peoples still preserved their old-established social and political structures. In the course of the next 60 years virtually the entire continent was brought under European hegemony -- only to be followed by the rise of an African nationalism that all but swept away, in a wave of independent nationhood, the dominions established by the Europeans. Offers a comprehensive account and analysis of this dramatic period.

The Last Knight The Story of Don Bernardo Gutierrez de Lara Uribe (1774-1841), a Texas Hero (By Jose Antonio Lopez) Once there was a magical land called Tejas. Here is where our Spanish-Mexican ancestors settled to raise families, build their homes, and ranching communities.

They were a rare breed of men and women; a hearty stock, strong of both mind and body. They tamed what historian Jerry Thompson calls the Wild and Vivid Land of South Texas. In so doing, they invented the ranching and cowboy phenomena. However, all was not well. Spain ruled Tejas with oppressive and unjust laws. In response for direction to rid America of European colonial rule, several great American-born leaders answered the call to duty during those turbulent times of the late 1700s and early 1800s. Among these were George Washington, Simon Bolivar, and Bernardo Gutierrez de Lara Uribe. While most people may have heard

of the first two, few are familiar with Don Bernardo. The Last Knight is the story of this great Texas hero. To begin with, Don Bernardos life has the drama, action, and intrigue of a Hollywood movie, but it is a true story. He was born in Revilla (now Guerrero), on the southern bank of the Rio Grande back when the Rio was just another South Texas river. (The shape of Texas was very different than it is today.) As a young man, Don Bernardo decided to get involved in bringing social change in his community and throughout Texas and Mexico. It was in this restless period of early Texas history that Don Bernardo volunteered to help Father Miguel Hidalgo in his struggle

to gain Mexico's independence from Spain. That is why September 16th is today celebrated in Texas. Don Bernardo was appointed a Lt Colonel in the Republican Army. After a trip to the U.S. to seek help and volunteers, he began his revolution in Nacogdoches. That the struggle began here in the Louisiana border was very significant in a historical sense. Nacogdoches and Los Adaes represented the eastern boundary of New Spain. As a matter of fact, Los Adaes is the first capital of Texas. On April 17, 1813, he wrote Texas first Declaration of Independence and its first constitution. He won a series of battles. He became the first President-Protector

(governor) of the Independent State of Texas. However, his hope of victory over the Spanish forces vanished quickly, when he was relieved of command and forced to move to Natchitoches, Louisiana in exile. When Mexico gained its independence from Spain in 1821, Don Bernardo was asked to return to his homeland. He did so in 1824. Upon arriving, he became the governor of the new state of Tamaulipas. He also was appointed to several military posts, including Commandant General of Tamaulipas and Commandant General of the Eastern Interior States (Texas, Coahuila, Tamaulipas, and Nuevo Leon.) He died in 1841 after an illustrious career as a

rancher, military leader, Indian fighter, gifted communicator, skilled diplomat, governor of two states (Texas and Tamaulipas), and commandant general of four states. He was a man who possessed rare leadership qualities. We owe our gratitude to this great hero who shared in the first vision of a free and independent Texas.
