This course is for the older
student of any age. It
includes the ten year old
who is too far advanced
mentally to play pieces
with childish titles; the
adult of any age from ten
on who never had

lessons; and the person who studied in childhood and now needs a refresher course. This method is designed for those who want to do more than fit a melody to a few chords learned by rote. It teaches the student to read music so that he or she will be able to play "on his or her own."

Rolf Harris was always amazed that in his home town of Perth, Christmas temperatures reached over thirty degrees, yet people were singing songs about Christmas in the snow! So he set out to write something that would capture the difference about

Christmas in Australia, where there's no snow at Christmas, and reindeer are found only in zoos. The result is *Six White Boomers*, an immediate success when it was released in 1960. Published as a picture book, it introduces a whole new generation to this true-blue Australian classic. Sing along with Rolf as you enjoy the fun of this unique Christmas song.

La Mascotte Canadian Brass Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of

masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young

men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and

undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health. Dipsy's Day to Dance Routledge This charming series has been specifically designed for babies. A great introduction to books through well-known nursery rhymes and

interactive text. Singing songs and rhymes is the perfect way to bond with your baby and share quality time. It also aids language development by introducing them to the natural sounds and patterns of speech. Combining these with actions also stimulates the brain and helps muscle development. *The Life of William Cavendish, Duke of Newcastle: To Which Is Added the True Relation of My Birth, Breeding and Life / by Margaret, Duchess of Newcast*

Are some research methods more successful at bringing about change than others? Contributors to this volume discuss principles of feminist inquiry, providing

examples from their own experience and evaluating research practices for their potential to promote social change.
