*OCR AS/Alevel Biology Lab Book* Oxford University Press - Children  
Written by a senior examiner, Richard Fosbery, this OCR AS Biology Student Unit Guide is the essential study companion for Unit F212: Molecules, Biodiversity, Food and Health. This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries,

knowledge check questions and a quick-reference index examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade  
[A Level Advancing Biology for OCR Student Book \(OCR B\)](#) Hodder Education  
Please note this title is suitable for any student studying: Exam Board: OCR Level: A Level Year 1 and AS Subject: Biology First teaching: September 2015 First

exams: June 2016 Written by curriculum and specification experts, this Student Book supports and extends students through their course whilst delivering the breadth, depth, and skills needed to succeed at A Level and beyond.  
*A Level Biology for OCR A: Year 2* Oxford University Press - Children  
Please note this title is suitable for any student studying: Exam Board: OCR Level: A Level Year 2 Subject: Biology First teaching: September 2015 First exams: June 2017 Written by curriculum and specification experts in partnership with

OCR, this Student Book supports and extends students throughout their course while delivering the breadth, depth, and skills needed to succeed at A Level and beyond. It develops real subject knowledge as well as essential exam skills. This Student Book covers the second year of content required for the OCR Biology A specification.

*A Level Biology a for OCR: A Level: A Level Biology a for OCR Student Book* Philip Allan

The books in this series present revision in a straightforward and user-friendly way. The authors give tips on common pitfalls and each guide contains help with the best ways to tackle different types of exam questions.

Biology 2 for OCR Philip Allan

Exam Board: OCR Level: A-level Subject: Biology First Teaching: September 2015 First Exam: June 2017 Reinforce students' understanding throughout their course with clear topic summaries and sample questions and answers to help your students target higher grades. Written by experienced examiner Richard Fosbery, our Student Guides are divided into two key sections, content guidance and

sample questions and answers. Content guidance will: - Develop students' understanding of key concepts and terminology; this guide covers module 6: genetics, evolution and ecosystems. - Consolidate students' knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - Build students' understanding of the different question types, so they can approach questions from module 6 with confidence. - Enable students to target top grades with sample answers and commentary explaining exactly why marks have been awarded.

*My Revision Notes: OCR AS Biology ePub* Oxford University Press - Children

This series is for schools following OCR A double or separate award for GCSE science. The resources offer preparation for the OCR exams with teacher support to minimise the amount of time spent on administration and maximise the time available for teaching. In addition, the teacher's resources are available on CD-ROM in a fully customizable format to meet the needs of individual students.

**My Revision Notes: OCR AS Biology A**

**Second Edition** Hodder Education

Written by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Level and beyond. It develops true subject knowledge while also developing essential exam skills. Covers the second year of content required for the Advancing Biology A Level qualification.

OCR A2 Biology Student Unit Guide: Unit F214 Communication, Homeostasis and Energy Heinemann Educational Publishers

Our brand-new OCR A level Lab books are designed to support students structuring their lab work and help them cover the practical requirements of the OCR A level Science courses.

*OCR AS/A Level Year 1 Biology A Student Guide: Module 3 and 4* Oxford University Press - Children

Get the best grades with My Revision Notes: OCR AS Biology. Manage your own revision with step-by-step support from experienced teacher and examiner Frank Sochacki Use specific examples and advice to improve your knowledge of biological processes and applications Get

the top marks by applying biological terms accurately with the help of definitions and key words Improve your exam skills with self-testing and exam-style questions and answers My Revision Notes will help you prepare for the big day: Plan and pace your revision with My Revision Planner Use the concise notes to revise the essential information Use the examiner's tips and summaries to clarify key points Avoid making typical mistakes with expert advice Test yourself with end-of-topic questions and answers and tick off each topic as you complete it Practise your exam skills on exam questions then check your answers online Get exam-ready with last-minute quick quizzes at [www.therevisionbutton.co.uk/myrevisionnotes](http://www.therevisionbutton.co.uk/myrevisionnotes)

**OCR A Level Year 2 Biology A Student Guide: Module 6** Philip Allan

Exam Board: OCR Level: A-level Subject: Biology First Teaching: September 2015 First Exam: June 2016 This is an OCR endorsed resource Encourage students to learn independently and build on their knowledge with this textbook that leads students seamlessly from basic biological concepts to more complicated theories. -

Develop experimental, analytical and evaluation skills with activities that introduce the practicals required by OCR and other experimental investigations in Biology - Provide assessment guidance with synoptic questions and multiple choice questions throughout the book, and revision tips and skills all in one chapter - Strengthen understanding of key concepts with contemporary and engaging examples, illustrated with accessible diagrams and images - Give students the opportunity to apply their knowledge and understanding of all aspects of practical work with Test Yourself Questions and Exam Practice Questions - Offer detailed guidance and examples of method with a dedicated 'Maths in Biology' chapter and mathematical support throughout - Develop understanding with free online access to answers, an extended glossary, learning outcomes and topic summaries OCR A Level Biology Student Book 1 includes AS Level [A Level Biology for OCR A: Year 1 and AS](#) Pearson Education Ltd Unlock your full potential with these revision guides which focus on the key content and skills you need to know. With

My Revision Notes for OCR AS Biology you can: - Take control of your revision: plan and focus on the areas you need to revise with content summaries and commentary from author Franck Sochacki - Show you fully understand key topics by using the examples to add depth to your knowledge of biological processes and applications - Apply biological terms accurately with the help of definitions and key words on all topics - Improve your skills to tackle exam questions, with self-testing and exam-style questions and answers - Get exam-ready with last-minute quick quizzes at <http://www.hodderplus.co.uk/myrevisionnotes>  
*OCR A-Level Year 2 Biology a Workbook: Communication, Homeostasis and Energy (Topics 1-7)* Philip Allan  
A new resource for the 2008 OCR specification providing supportive features and increased flexibility in teaching OCR A Level Science. The trusted choice for the 2008 OCR Specification. Biology 1 clearly explains concepts and is supported by a CD-ROM in the back of the books that provides extra information and links to a free website full of e-learning activities. The book comes with an interactive PDF

CD-ROM that provides extra information for rapid advancement for pupils requiring it, without creating a heavy and intimidating book. The CD-ROM links to a free website full of e-learning activities, promoting independent and extension learning.
