More than 6 million copies sold! The classic Christian novel of the crucifixion and one Roman soldier's transformation through

faith. At the height of his popularity, Lloyd C. Douglas was receiving an average of one hundred letters a week from fans. One of those fans, a department store clerk in Ohio named Hazel McCann, wrote to Douglas asking what he thought had happened to Christ's garments after the crucifixion. Douglas immediately began

working on *The Robe*, sending each chapter to Hazel as he finished it. It is to her that Douglas dedicated this book. A Roman soldier wins Christ's robe as a gambling prize. He then sets forth on a quest to find the truth about the Nazarene—a quest that reaches to the very roots and heart of Christianity. Here is the fascinating

story of this young Roman soldier, Marcellus, who was in charge at the crucifixion of Jesus. After he won Christ's robe in a game of dice on Calvary, he experienced a slow and overpowering change in his life. Through the pages of this great book, the reader sees how a pagan Roman was eventually converted to Christ. Set against the vividly drawn background of ancient Rome, this is a timeless story of adventure, faith, and romance, a tale of spiritual longing and

ultimate redemption . . .

 This book presents original, empirical research that reframes how educators should consider autism and educational inclusion. Rebecca Wood carefully unpicks common misapprehensions about autism and how autistic children learn, and

reconsiders what inclusion can and should mean for autistic learners in school settings. Drawing on research and interwoven with comments from autistic child and adult contributors throughout, the book argues that inclusion will only work if the ways in which autistic children think, learn, communicate and exhibit their understanding are valued and supported. Such an approach will benefit both the learner and the whole classroom. Considering topics such as the sensory environment,

support, learning and cognition, school curriculums, communication and socialisation, this much needed book offers ideas and insight that reflect the practical side of day-to-day teaching and learning, and shows how thinking differently about autism and inclusion will equip teachers to effectively improve teaching conditions for the whole school.

How colleges and universities can live up to their ideals of diversity, and why inclusivity and excellence go hand in hand. Most colleges and universities embrace the ideals of diversity and inclusion, but many fall short, especially in the hiring, retention, and advancement of faculty who would more fully represent our diverse world—in particular women and people of color. In this book, Abigail Stewart and Virginia Valian argue that diversity and excellence go hand in

hand and provide guidance for achieving both. Stewart and Valian, themselves senior academics, support their argument with comprehensive data from a range of disciplines. They show why merit is often overlooked; they offer statistics and examples of individual experiences of exclusion, such as being left out of crucial meetings; and they outline institutional practices that keep exclusion invisible, including reliance on proxies for excellence,

such as prestige, that disadvantage outstanding candidates who are not members of the white male majority. Perhaps most important, Stewart and Valian provide practical advice for overcoming obstacles to inclusion. This advice is based on their experiences at their own universities, their consultations with faculty and administrators at many other institutions, and data on institutional change. Stewart and Valian offer recommendations for

changing structures and practices so that people become successful in ways that benefit everyone. They describe better ways of searching for job candidates; evaluating candidates for hiring, tenure, and promotion; helping faculty succeed; and broadening rewards and recognition.

Beautiful Child

HarperCollins
From the bestselling author of *One Child* comes this amazing, true story of a mute and withdrawn seven-year-old girl and the special education

teacher determined never to abandon a child in need. Seven-year-old Venus Fox never spoke, never listened, never even acknowledged the presence of another human being in the room with her. Yet an accidental playground “bump” would release a rage frightening to behold. The school year that followed would be one of the most trying, perplexing, and ultimately rewarding of Torey Hayden’s career, as she struggled to reach a silent child in obvious pain. It

would be a strenuous journey beset by seemingly insurmountable obstacles and darkened by truly terrible revelations—yet encouraged by sometimes small, sometimes dazzling breakthroughs—as a dedicated teacher remained committed to helping a “hopeless” girl, and patiently and lovingly leading her toward the light of a new day.

“Fascinating . . . A tragic saga, but at the same time it often reads like a thriller filled with acts of extraordinary courage, descriptions of dangerous journeys and a series of secret identities.”—Chicago Tribune “To this day, I don't even know what my mother's real name is.”

Helen Fremont was raised as a Roman Catholic. It wasn't until she was an adult, practicing law in Boston, that she discovered her parents were Jewish—Holocaust survivors living invented lives. Not even their names were their own. In this powerful memoir, Helen Fremont delves into the secrets that held her family in a bond of silence for more than four decades, recounting with heartbreaking clarity a remarkable tale of survival, as vivid as fiction but with the resonance of

truth. Driven to uncover their roots, Fremont and her sister pieced together an astonishing story: of Siberian Gulags and Italian royalty, of concentration camps and buried lives. After *Long Silence* is about the devastating price of hiding the truth; about families; about the steps we take, foolish or wise, to protect ourselves and our loved ones. No one who reads this book can be unmoved, or fail to understand the seductive, damaging power of secrets. Praise for After

Long Silence “Poignant . . . affecting . . . part detective story, part literary memoir, part imagined past.”—The New York Times Book Review
 “Riveting . . . painfully authentic . . . a poignant memoir, a labor of love for the parents she never really knew.”—The Boston Globe
 “Mesmerizing . . . Fremont has accomplished something that seems close to impossible. She has made a fresh and worthy contribution to the vast literature of the Holocaust.”—The

 Special-education teacher Torey Hayden's first book, *One Child*, was an international bestseller, thrilling readers on every continent. Their hearts were captured by Sheila, a silent, troubled girl who had been abandoned on a highway by her mother and abused by her alcoholic father, and who refused to speak. As Hayden writes in the prologue to this book, “This little girl had a

profound effect on me. Her courage, her resilience, and her inadvertent ability to express that great, gaping need to be loved that we all feel -- in short, her humanness -- brought me into contact with my own." Since then Hayden has gone on to write books about many of her students, but her fans continue to ask her, "What happened to Sheila?" The Tiger's Child is her response. Here Hayden tells how Sheila, now a young woman, finally came to terms with

her nightmare childhood. When Hayden was working on *One Child*, she showed the manuscript to Sheila, then a teenager, and was astonished to find that Sheila remembered almost nothing of her troubled younger years. She had no recollection of her many clashes with her teacher as Hayden tried to break through her emotional pain. And although Hayden had managed to get Sheila to communicate and become an active and lively child, Sheila's home life was still

very troubled. Her father had been sent to prison when she was eight and Sheila had run away from a series of foster homes until finally she was placed in a children's home. But as Hayden continued to renew her relationship with the teenage Sheila, the memories slowly came back, bringing with them feelings of abandonment and hostility. Overwhelmed by the intensity of her awakening emotions, Sheila was driven to suicidal despair. The Tiger's Child is the

touching, inspiring story of how a maturing Sheila came to perceive her mother not as a monster who willfully cast off her eldest child, but as a weak, forlorn, ordinary human being. Able to appreciate her own strength and resilience, Sheila at last is free to overcome the haunting legacy of child abuse. One child Penguin For the first time, bestsellers *Somebody Else's Kids* and *The Tiger's Child* are combined to show Hayden's extraordinary

attempt to rescue the children that no one else wanted to help. *The Very Worst Thing* MIT Press The first new book from beloved therapist and writer Torey Hayden in almost fifteen years—an inspiring, uplifting tale of a troubled child and the remarkable woman who made a difference. In a forgotten corner of Wales, a young girl languishes in a home for troubled children. Abandoned by her parents because of her violent streak, Jessie—at the age of

ten—is at risk of becoming just another lost soul in the foster system. Precocious and bold, Jessie is convinced she is possessed by the devil and utterly unprepared for the arrival of therapist Torey Hayden. Armed with patience, compassion, and unconditional love, Hayden begins working with Jessie once a week. But when Jessie makes a stunning accusation against one of Hayden's colleagues – a man Hayden implicitly trusts – Hayden's work doubles:

now she must not only get to the root of Jessie's troubles, but also find out if what the girl alleges is true. A moving, compelling, and inspiring account, *Lost Child* is a powerful testament once again of Torey Hayden's extraordinary ability to reach children who many have given up on—and a reminder of how patience and love can ultimately prevail.

Effective inclusion in the classroom shouldn't be a burden; it should be the most rewarding aspect of a teacher's role. SEN Magazine In this innovative guide to supporting the most vulnerable students, experts Daniel Sobel and Sara Alston help primary and secondary teachers understand the barriers to children's learning.

Emphasising the importance of meeting needs rather than focusing on diagnosis, they provide proven differentiation methods that maximise learning for the whole class, while reducing stress and saving time for the teacher. Guiding teachers through all the different phases of a single lesson, from starters to plenaries, the unique format of *The Inclusive Classroom* will help bring inclusion to the forefront of any lesson plan. Each chapter contains simple, effective

actions to differentiate and improve learning outcomes for students vulnerable to underachievement, including those traditionally labelled SEN, EAL, pupil premium, looked after and young carers. From the bestselling author of *One Child* comes the story of three of former special education teacher Torey Hayden's most extraordinary challenges. Nine-year-old Cassandra, kidnapped by her father and found starving, dirty, and picking through garbage cans—is a child prone to long silences and erratic, violent behavior. Charming, charismatic four-year-old Drake will

speak only in private to his mother—while his tough, unbending grandfather's demands for an immediate cure threatens to cause irreparable harm. And though she had never worked with adults, Hayden agrees to help fearful and silent eighty-two-year-old massive stroke victim Gerda—discovering in the process that a treatment's successes could prove nearly as heartbreaking as its limitations. so fully combines vivid clinical examples, specific details of technique, and mature perspectives on both effectively functioning families and those seeking therapy. The views and strategies of a master clinician are presented here in such clear and precise form that readers can proceed directly from the book with comparisons and modifications to suit their own styles and working situations. Salvador Minuchin presents six chapter-length transcripts of actual family

sessions—two devoted to ordinary families who are meeting their problems with relative success; four concerned with families seeking help. Accompanying each transcript is the author's running interpretation of what is taking place, laying particular stress on the therapist's tactics and maneuvers. These lively sessions are interpreted in a brilliant theoretical analysis of why families develop problems and what it takes to set them right. The author constructs a model of an

effectively functioning family and defines the boundaries around its different subsystems, whether parental, spouse, or sibling. He discusses ways in which families adapt to stress from within and without, as they seek to survive and grow. Dr. Minuchin describes methods of diagnosing or "mapping" problems of the troubled family and determining appropriate therapeutic goals and strategies. Different situations, such as the extended family, the family with a parental

child, and the family in transition through death or divorce, are examined. Finally, the author explores the dynamics of change, examining the variety of restructuring operations that can be employed to challenge a family and to change its basic patterns.
