A comprehensive user guide with Screenshots to guide you in achieving better results with your new Mac Pro 2019. When Apple unveiled the new Mac Pro 2019 at its 2019 WWDC event, it came as a surprise to several users as the last update on the Mac Pro was done in 2013. During WWDC, Apple showcased the latest Mac Pro as the most powerful computer produced by the company to date. This Apple computer comes with 1.5TB of six-channel ECC system memory, and up to 28-core Intel Xeon processor, this alone makes it the fastest computer in the world today. Apart from this, the Mac Pro also allows for modular upgrades. Apple built the new Mac Pro for professionals who require flexible and powerful machines. The computer is perfect for applications that use so many processing cores like image-editing software, video-editing applications, 3D programs, and lots more. Below, you will find more details about the Mac Pro 2019. The 2019 Mac Pro comes with the macOS Catalina and gives you more features to explore on your Mac, like the Picture in Picture feature, New Dark Mode, Apple Arcade, option to unsubscribe directly in the Mail app and lots more. Even for existing users, these new features may seem a little overwhelming when using them for the first time. In July 2019, Apple updated the MacBook Air that was originally redesigned in October 2018. Even though there were no major updates to the MacBook Air, the enhancement led to a new butterfly keyboard which utilizes the same updated materials like the 2019 MacBook Pro, some small SSD changes, an improved display with True Tone, and a lower price tag. The MacBook Air has a T2 chip as well as fingerprint sensor for the Touch ID that can be used instead of entering password. This T2 chip is built for enhanced security on the MacBook Air by ensuring a secure boot process through Secure Enclave, and fast data encryption with an SSD controller. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users. Some of these features include the Screen Time, division of iTunes into 3 separate apps, using the iPad as a second screen, otherwise known as Sidecar and lots more. This user guide contains detailed steps on how to explore all the new features on your computer along with screenshots to make it easy for you to familiarize yourself with the workings of the macOS Catalina. Whether you are just buying a new Mac device or downloading the new software to your existing device, this book would help you to achieve better and faster productivity. NOTE: This book is the color edition of "MacBook Air (Retina) with MacOS Catalina: Getting Started with MacOS 10.15 for MacBook Air." MacBook Air used to be the computer you would never think was possible: thin enough to fit in an envelope, but powerful enough to run all the programs you love. For years, the Air collected dust as other notebooks came out more powerful and almost the same weight. In 2018, however, it was made relevant again when Apple released a new model that was both powerful and had a Retina display. If you have purchased the notebook or are just curious about seeing more about what Mac OS Catalina (10.15) can do for you, then you'll see it in this book. If you are switching from Windows to Mac, then I'll walk you through the steps to make it as quick and pain less as possible. This book is intended for people who want to get started quickly with the MacBook Air. For that reason, it's not as comprehensive as other guides. If you want to know about some feature buried deep under the hood that you'll never use, then there are other books for you-- I'm sure they'll make good doorstops when you finish. If you just want a simple guide that tells you what you need to know, so you can use your computer already, then this book is for you Are you ready to start enjoying the new Mac OS? Then let's get started
