The Laws of Human Nature Crown

Don't miss *Evermore*, the first book in Alyson Noël's #1 New York Times bestselling *The Immortals* series. Enter an enchanting new world where true love never dies. . . After a horrible accident claimed the lives of her family, sixteen-year-old Ever Bloom can see people's auras, hear their thoughts, and know someone's entire life story by touching them. Going out of her way to avoid human contact and suppress her abilities, she has been branded a freak at her new high school—but everything changes when she meets Damen Auguste. Damen is gorgeous, exotic and wealthy. He's the only one who can silence the noise and random energy in her head—wielding a magic so intense, it's as though he can peer straight into her soul. As Ever is drawn deeper into his enticing world of secrets and mystery, she's left with more questions than answers. And she has no idea just who he really is—or what he is. The only thing she knows to be true is that she's falling deeply and helplessly in love with him.

An icon of the Jazz Age, Art Deco painter Tamara de Lempicka lived a life well worth recording. Until now, however, no one has written the story of this woman of extraordinary talent and notoriety. She was a great beauty, an aristocratic refugee of the Russian Revolution, and a frankly erotic painter who insisted upon Renaissance aesthetics, figuration, and painterly craft in modern art. The sky-high prices attached to her canvases in recent years have still not dispelled the suspicions that a woman of Lempicka's glamour and fame could be a truly serious artist. Yet the reviews of the early twentieth century tell a different story: her work was routinely singled out as competing with major figures of the School of Paris, including Léger, Laurençin, Kisling, and Picasso. In this first critical biography, Laura Claridge draws upon her exclusive access to Lempicka's family, friends, and archives to re-create the life that the painter carefully withheld even from her own daughter: the truth of her birth; her escape from Bolshevik Russia; her determination to become a New Woman; her lifelong bouts of depression; her numerous affairs with the women and men she painted; her flight from Nazi Europe via Havana; and her years in Hollywood and New York as the "Baroness with a brush," all informed by the artistic integrity and social anachronism that condemned her to being written out of the canons of modern art. Emblematic of '20s excess and indulgence, Tamara de Lempicka's life of great wealth, indiscriminate sexuality, and endless intrigue makes for a fascinating narrative. But her paintings have inspired fierce disagreements over issues of class, wealth, and gender in modern art, making her work ripe for critical re-evaluation. In *Tamara de Lempicka: A Life of Deco and Decadence*, Laura Claridge has succeeded brilliantly on both counts, bringing to light the contradictions that fueled the life and work of this provocative painter. Though Paris in the early twenties certainly earned its bohemian reputation, Tamara was playing the game hard by anyone's

standards. It seemed to her that she could have it all: respect, money, and sexual gratification on the side. She had arrived at the Gare du Nord only four years earlier, gifted with a painter's talent and a family history of feminine power. Encountering a cultural climate that affirmed art as a remunerative career for women, she also felt freed personally by the Modernist mantra to "make it new" that underwrote every aspect--trivial and profound--of daily life. She was determined to embody that icon of the age, the new woman.

Despite long-standing assertions that languages, including French and English, cannot sufficiently communicate the experience of smell, much of France's nineteenth-century literature has gained praise for its memorable evocation of odours. As French perfume was industrialized, democratized, cosmeticized, and feminized in the nineteenth century, stories of fragrant scent trails aligned perfume with toxic behaviour and viewed a woman's scent as something alluring, but also something to be controlled. Drawing on a wealth of resources, *Perfume on the Page in Nineteenth-Century France* explores how fiction and related writing on olfaction meet, permeate, and illuminate one another. The book examines medical tracts, letters, manuscripts, posters, print advertisements, magazine articles, perfume manuals, etiquette books, interviews, and encounters with fragrant materials themselves. Cheryl Krueger explores how the olfactory language of a novel or poem conveys the distinctiveness of a text, its unique relationship to language, its style, and its ways of engaging the reader: its signature scent. Shedding light on the French perfume culture that we know today, *Perfume on the Page in Nineteenth-Century France* follows the scent trails that ultimately challenge us to read perfume and literature in new ways.

Many people know that Gabrielle "Coco" Chanel (1883-1971) was a prolific French fashion designer and founder of the House of Chanel, who ruled over Parisian haute couture for almost six decades. What, perhaps, they don't know is that, she was taught to sew by nuns and started Chanel by making hats; that she lived in a suite at the Ritz Hotel, Paris, for 37 years; that, in 1935, she was recognized as the world's wealthiest woman; and that, prior to her fashion career, she worked as a singer, famously gaining the nickname "Coco" from one of her songs. This book presents a visual catwalk through her life and work, with an array of irresistible facts and figures converted into infographics to reveal the genius behind the garments.

From the #1 New York Times best-selling author of *The 48 Laws of Power* comes the definitive new book on decoding the behavior of the people around you Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, *The Laws of Human Nature* offers brilliant tactics for success, self-improvement, and self-defense.

Antonio Giangrande, orgoglioso di essere diverso. Si nasce senza volerlo. Si muore senza volerlo. Si vive una vita di prese per il culo. Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Oggi le persone si stimano e si rispettano in base al loro grado di utilità materiale da rendere agli altri e non, invece, al loro valore intrinseco ed estrinseco intellettuale. Per questo gli inutili sono emarginati o ignorati. Se si è omologati (uguali) o conformati (simili) e si sta sempre dietro alla massa, non si sarà mai primi nella vita, perché ci sarà sempre il più furbo o il più fortunato a precederti.

author Mary H.K. Choi comes a compulsively readable novel that shows young love in all its awkward glory—perfect for fans of *Eleanor & Park* and *To All the Boys I've Loved Before*. For Penny Lee, high school was a total nonevent. Her friends were okay, her grades were fine, and while she'd somehow landed a boyfriend, they never managed to know much about each other. Now Penny is heading to college in Austin, Texas, to learn how to become a writer. It's seventy-nine miles and a zillion light years away from everything she can't wait to leave behind. Sam's stuck. Literally, figuratively, emotionally, financially. He works at a café and sleeps there too, on a mattress on the floor of an empty storage room upstairs. He knows that this is the god-awful chapter of his life that will serve as inspiration for when he's a famous movie director but right this second the seventeen bucks in his checking account and his dying laptop are really testing him. When Sam and Penny cross paths it's less meet-cute and more a collision of unbearable awkwardness. Still, they swap numbers and stay in touch—via text—and soon become digitally inseparable, sharing their deepest anxieties and secret dreams without the humiliating weirdness of having to, you know, see each other.

With a foreword by Karl Lagerfeld, "this enchanting, tiny book"—a series of transcriptions from interviews with the fashion icon—is the closest anyone can get to a face-to-face with Coco [Chanel]" (The Spectator) Coco Chanel invited Paul Morand to visit her in St. Moritz at the end of the Second World War when he was given the opportunity to write her memoirs; his notes of their conversations were put away in a drawer and only came to light one year after Chanel's death. Now, he presents them here in *The Allure of Chanel*. Through Morand's transcription of their conversations, Chanel tells us about her friendship with Misia Sert, the men in her life—Boy Capel, the Duke of Westminster, artists such as Diaghilev, her philosophy of fashion and the story behind the legendary Number 5 perfume. The memories of Chanel told in her own words provide vivid sketches and portray the strength of Coco's character, leaving us with an extraordinary insight into Chanel the woman and the woman who created Chanel.

How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose "what if" questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

At the beach, bodies converge with the elements and strange treasures come to light. Departing from the conventional association of modernism with the city, this book makes a case for the coastal zone as a surprisingly generative setting for twentieth-century literature and art. An unruly and elusive confluence of human and more-than-human forces, the seashore is also a space of performance—a stage for loosely scripted, improvisatory forms of embodiment and togetherness. The beach, Hannah Freed-Thall argues, was to the modernist imagination what mountains were to Romanticism: a space not merely of anthropogenic conquest but of vital elemental and creaturely connection. With an eye to the peripheries of capitalist leisure, Freed-Thall recasts familiar seaside practices—including tide-pooling, beachcombing, gambling, and sunbathing—as radical experiments in perception and sociability. Close readings of works by Marcel Proust, Virginia Woolf, Claude McKay, Samuel Beckett, Rachel Carson, and Gordon Matta-Clark, among others, explore the modernist beach as a queer refuge, a precarious commons, a scene of collective exhaustion and endurance, and a visionary threshold at the end of the world. Interweaving environmental humanities, queer and feminist theory, and cultural history, *Modernism at the Beach* offers new ways of understanding twentieth-century literature and its relation to ecological thought.
