"The Children of R: Plans
From Beyond the Earth
Plane," is a channeled
manuscript by Chime
1.3.0, (pronounced one,
three, zero). 1.3.0 was a

personal student of Heike,
one of the original Vrill
Ladies. 1.3.0 is a Chime:
one of a trinity of spirits
that incarnated here to
Earth as a human triad
with the mission to share
a message from The
Council in Aldebaran.
Aldebaran is a multi-
planet Star System
located in the Taurus
Constellation; more

specifically, "The Bulls-
Eye." The Council in
Aldebaran is responsible
for this sector of our
Galaxy administered by
the Galactic Council. The
Council in Aldebaran is
urging Earth to meet the
criteria of The
Administrators in order to
be accepted by The
Galactic Council. If we do
not meet these criteria we

will be destined for another cataclysm. The Administrators criteria are: 1.) The denial of hostility. 2.) To reach an understanding of the ultimate goal of balancing the Universe. tenets of God. The Flat Earth Report Createspace Independent Publishing Platform In this compelling work on Flat Earth Theory, David Waldo Scott uses a collection of scripture, reason, and fact to argue against the idea that the earth is a planet. Since its publication in 1901, Terra Firma: the Earth Not a Planet, Proved From Scripture, Reason, and Fact has become one of the primary texts on the subject and is a wonderful insight into the philosophy of a bygone age.

Focussing on the work made by 'modern astronomers', Scott draws on testimonies from travellers past, biblical scriptures, as well as other concepts from flat earth theorists to produce a wide-ranging collection of evidence to support his argument. Chapters in the book include: - The Adamic Creation - The Nebular Hypothesis: Examination of Three Alleged Proofs of the World's Globularity - The World Circular, But Not Globular; Has Immovable Foundations, Therefore

Not a Planet - The Horizontality of Land and Water Proved - The Sun, Moon, and Stars, According to Modern Astronomy - The Deluge - Biblical Account Despite being written over a decade ago, this work by David Waldo Scott continues to inspire modern generations. This edition by Read & Co. Books features an introduction to astronomy and is an interesting read for those interested in Flat Earth Theory and Christianity.

An eye-opening and
fascinating slow travel
journey from an
acclaimed writer who
circled the globe without
ever leaving the ground.
In this age of globalism
and high-speed travel,
Seth Stevenson, the witty,
thoughtful Slate
columnist, takes us back
to a time when travel
meant putting one foot in
front of the other, racing
to make connections
between trains and buses
in remote transit stations,
and wading through the

chaos that most long-haul
travelers float 35,000 feet
above. Stevenson winds
his way around the world
by biking, walking, hiking,
riding in rickshaws, freight
ships, cruise ships,
ancient ferries, buses, and
the Trans-Siberian
Railway-but never gets on
an airplane. He finds that
from the ground, one sees
the world anew-with a
deeper understanding of
time, distance, and the
vastness of the earth. In
this sensational
travelogue, each step of
the journey is an
adventure, full of

unexpected revelations in
every new port, at every
bend in the railroad
tracks, and around every
street corner.

BESTSELLER "This is
history at its most

immediate and moving...A
marvelous and
memorable book." —Jon
Meacham

"Remarkable...A priceless
civic gift...On page after
page, a reader will
encounter words that
startle, or make him
angry, or heartbroken."

—The Wall Street Journal “Visceral...I repeatedly cried...This book captures the emotions and unspooling horror of the day.” —NPR “Had me turning each page with my heart in my throat...There’s been a lot written about 9/11, but nothing like this. I urge you to read it.” —Katie Couric The first comprehensive oral history of September 11, 2001—a panoramic narrative woven from the voices of Americans on the front lines of an unprecedented national

trauma. Over the past eighteen years, monumental literature has been published about 9/11, from Lawrence Wright’s *The Looming Tower*, which traced the rise of al-Qaeda, to *The 9/11 Commission Report*, the government’s definitive factual retrospective of the attacks. But one perspective has been missing up to this point—a 360-degree account of the day told through the voices of the people who experienced it. Now, in *The Only Plane*

in the Sky, award-winning journalist and bestselling historian Garrett Graff tells the story of the day as it was lived—in the words of those who lived it. Drawing on never-before-published transcripts, recently declassified documents, original interviews, and oral histories from nearly five hundred government officials, first responders, witnesses, survivors, friends, and family members, Graff paints the most vivid and human portrait of the September 11 attacks yet. Beginning

in the predawn hours of airports in the Northeast, we meet the ticket agents who unknowingly usher terrorists onto their flights, and the flight attendants inside the hijacked planes. In New York City, first responders confront a scene of unimaginable horror at the Twin Towers. From a secret bunker underneath the White House, officials watch for incoming planes on radar. Aboard the small number of unarmed fighter jets in the air, pilots make a pact to fly into a hijacked airliner if

necessary to bring it down. In the skies above Pennsylvania, civilians aboard United Flight 93 make the ultimate sacrifice in their place. Then, as the day moves forward and flights are grounded nationwide, Air Force One circles the country alone, its passengers isolated and afraid. More than simply a collection of eyewitness testimonies, *The Only Plane in the Sky* is the historic narrative of how ordinary people grappled with extraordinary events in real time: the father

and son working in the North Tower, caught on different ends of the impact zone; the firefighter searching for his wife who works at the World Trade Center; the operator of in-flight telephone calls who promises to share a passenger's last words with his family; the beloved FDNY chaplain who bravely performs last rites for the dying, losing his own life when the Towers collapse; and the generals at the Pentagon who break down and weep when they are

barred from rushing into the burning building to try to rescue their colleagues. At once a powerful tribute to the courage of everyday Americans and an essential addition to the literature of 9/11, *The Only Plane in the Sky* weaves together the unforgettable personal experiences of the men and women who found themselves caught at the center of an unprecedented human drama. The result is a unique, profound, and searing exploration of humanity on a day that

changed the course of history, and all of our lives.

The Flat Earth Clues book gives you 14 compelling reasons why you should rethink the globe model that you have been taught. Before you were born, before your parents, your grandparents, before you even had a family line... there was the illusion, the trick, the lie... That you lived on a small

spinning rock, flying through space. What if, after centuries of preaching the globe as a religious icon, "the powers that be" found out that it was actually not a sphere, but instead something much different? Would they risk unravelling 500 years of science doctrine by informing the public? Could a government still retain it's authority if there were actually proof of a higher power? It's about proving the Flat Earth, but more importantly, it's about disproving the globe, and

that shouldn't be possible, but there are several big questions which science has a difficult time with. Why was there only one blue marble image used for 43 years? Where are the videos of the earth rotating from space? Astronauts can't turn around in space with the camera running? Not even by accident? Are the Van Allen radiation belts dangerous? Why does the Orion Trial by Fire video exist? Why was the space shuttle program cancelled? Why does the Mars mission keep getting

postponed? Why are they closing down the ISS? Why is Psalm 19:1 on Werner Von Braun's headstone? Why is the moon generating a light that is sometimes 12 degrees colder than the moon shade? How is that possible if it's reflecting the sun's rays? And if the moon is generating it's own light source, then what was that dark grey thing we landed on? We can beam back crystal clear photos of Pluto, but the Global Positioning System doesn't track planes in the Southern

oceans? And why does this topic, compared to ANY other, conspiracy or not, make people excited, angry, or scared? Some of you are getting anxious just listening! Why? Because it's the greatest trick of all, and we all fell for it. You should be excited, because it's going to change the world. You should be angry, because you were fooled your entire life, and you should be a little scared, because this is uncharted territory. This is the Flat Earth theory, that the world is easy to

understand, more intimate, and very deliberate. It didn't just happen, it was built, and more importantly built for you. Open your eyes and smile. You have never been alone. “Fascinating . . .

memorable . . . revealing . . . perhaps the best of Carl Sagan’s books.”—The Washington Post Book World (front page review)
In *Cosmos*, the late astronomer Carl Sagan cast his gaze over the magnificent mystery of the Universe and made it accessible to millions of people around the world. Now in this stunning sequel, Carl Sagan completes his revolutionary journey through space and time. Future generations will look back on our epoch as the time when the human

race finally broke into a radically new frontier—space. In *Pale Blue Dot*, Sagan traces the spellbinding history of our launch into the cosmos and assesses the future that looms before us as we move out into our own solar system and on to distant galaxies beyond. The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race. “Takes readers far beyond Cosmos . . . Sagan

sees humanity’s future in the stars.”—Chicago Tribune

 This book is an Anthology of Gregory Lessing Garrett's writings and others on the topic of Flat Earth Plane Cosmology of all types, including Enclosed Earth, Hollow Earth, Concave Earth, Infinite Plane Earth, The Enochian Earth Model, etc... The hope is that the ideas expounded in this Flat Earth Trilogy series

will provide compelling justifications for the claim that no curvature can be found on the Earth, which points to the empirical conclusion that we live on a plane and not a spinning ball in science fiction outer space. The details regarding the possible topography of the Earth are discussed in depth in this book, but ultimately, the absolute true topography of the Earth is not known by anyone. - Gregory Lessing Garrett

Wolves in sheep's clothing have pulled the wool over our eyes. For almost 500 years, the masses have been thoroughly deceived by a cosmic fairy-tale of astronomical proportions. We have been taught a falsehood so gigantic and diabolical that it has blinded us from our own experience and common sense, from seeing the world and the universe as they truly are. Through pseudo-science books and programs, mass media

and public education, universities and government propaganda, the world has been systematically brain-washed, slowly indoctrinated over centuries into the unquestioning belief of the greatest lie of all time. A multi-generational conspiracy has succeeded, in the minds of the masses, to pick up the fixed Earth, shape it into a ball, spin it in circles, and throw it around the Sun! The greatest cover-up of all time, NASA and

Freemasonry's biggest secret, is that we are living on a plane, not a planet, that Earth is the flat, stationary center of the universe.
