Sex education is rarely out of the news. Despite this, there exist surprisingly few studies of the principles, policies and practice of sex education. This book provides such an examination, focusing on the values to which children are exposed in sex education. Sex education inevitably involves the transmission of values, regardless of whether this is intended by teachers. Throughout the book, academic and professional literature on both values and sex education is reviewed and discussed. The authors look at the implicit liberal values, which underpin programmes of sex education, and at the challenges presented by the diversity of values in contemporary society. The book also considers: \* Why values are central to sex education \* Children's voices and children's values \* Religious and family values \* Achievable aims for school sex education \* How to help young people to reflect critically on the influences to which they are exposed and on their own developing sexual values \* How to build values into practical approaches to sex education at both primary and secondary levels. This timely book will help all those involved in sex education to steer a path between controversial and often opposing views and will be essential reading for students on PGCE and BEd courses. It will also be a valuable resource for teachers and professionals involved in teaching sex education such as teachers of personal and social education, form tutors, heads of year, school

nurses, health workers and academics.

Sagata Ankira, seorang gadis pendalaman dari Mentawai. Harus berjuang hidup mandiri di usia yang masih belia. Tanpa belaian keluarga yang hilang ditelan masa. Bejibun penderitaan hidup tak berhenti bertandang. Seolah meminta untuk menyerah pada keadaan. Pelayanan pemerintah di kampungnya sangat terbatas, makin mencekik hidup Ata. Tak ada tangan yang sudi terulur, hingga Ata harus angkat kaki ke negeri seberang. Akankah Ata mampu mengapai mentari untuk menerangi Mentawai? Agar bersinar dengan cahaya Ilahi. Atau memilih menyerah pada tantangan yang terpatrit? "Dari awal baca di bagian opening, aku udah ngerasain aroma bawang. Ini cerita yang akan sangat berhasil membuat hati pembacanya merasa miris. Dari segi story, karena Menggapai Mentari juga mengambil genre slice of live, aku rasa konfliknya akan sangat dekat

dengan kehidupan kita. Penggambaran latarnya juga cukup detail, bisa membuat pembaca merasakan keadaan di sekitartokoh.” Mandis Parawansa (Admin Kece Lovrinz dan Penulis Novel)

"The Global status report on road safety 2015, reflecting information from 180 countries, indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year, with the highest road traffic fatality rates in low-income countries. In the last three years, 17 countries have aligned at least one of their laws with best practice on seat-belts, drink-driving, speed, motorcycle helmets or child restraints. While there has been progress towards improving road safety legislation and in making vehicles safer, the report shows that the pace of change is too slow. Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development: halving the global number of deaths and injuries from road traffic crashes by 2020. Made possible through funding from Bloomberg Philanthropies, this report is the third in the series, and provides a snapshot of the road safety situation globally, highlighting the gaps and the measures needed to best drive progress."--Publisher's description.

Trying to get your message heard? Build an iconic brand? Welcome to the battlefield. The story wars are all around us. They are the struggle to be heard in a world of media noise and clamor. Today, most brand messages and mass appeals for causes are drowned out before they even reach us. But a few consistently break through the din, using the only tool that has ever moved minds and changed behavior—great stories. With insights from mythology, advertising history, evolutionary biology, and psychology, viral storyteller and advertising expert Jonah Sachs takes readers into a fascinating world of seemingly insurmountable challenges and enormous opportunity. You'll discover how: • Social media tools are driving a return to the oral tradition, in which stories that matter rise above the fray • Marketers have become today's mythmakers, providing society with explanation, meaning, and ritual • Memorable stories based on timeless themes build legions of eager evangelists • Marketers and audiences can work together to create deeper meaning and stronger partnerships in building a better world • Brands like Old Spice, The Story of Stuff, Nike, the Tea Party, and Occupy Wall Street created and sustained massive viral buzz Winning the Story Wars is a call to arms for business communicators to cast aside broken traditions and join a revolution to build the iconic brands of the future. It puts marketers in the role of heroes with a chance to transform not just their craft but the enterprises they represent. After all, success in the story wars doesn't come just from telling great stories, but from learning to live them.

The idiosyncrasies of human decision-making have confounded economists and social theorists for years. If each person makes choices for personal (and often irrational) reasons, how can people's choices be predicted by a single theory? How can any economic, social, or political theory be valid? The truth is, none of them really are. Mark Buchanan makes the fascinating argument that the science of physics is beginning to provide a new picture of the human or "social atom," and help us understand the surprising, and often predictable, patterns that emerge when they get together. Look at patterns, not people, Buchanan argues, and rules emerge that can explain how movements form, how interest groups operate, and even why ethnic hatred persists. Using similar observations, social physicists can predict whether neighborhoods will integrate, whether stock markets will crash, and whether crime waves will continue or abate. Brimming with mind games and provocative experiments, *The Social Atom* is an incisive, accessible, and comprehensive argument for a whole new way to look at human social behavior.

This "well-researched, nuanced" study of the rise of social media activism explores how marginalized groups use Twitter to advance counter-narratives, preempt political spin, and build diverse networks of dissent (Ms.) The power of hashtag activism became clear in 2011, when #IranElection served as an organizing tool for Iranians protesting a disputed election and offered a global audience a front-row seat to a nascent revolution. Since then, activists have used a variety of hashtags, including #JusticeForTrayvon, #BlackLivesMatter, #YesAllWomen, and #MeToo to advocate, mobilize, and communicate. In this book, Sarah Jackson, Moya Bailey, and Brooke Foucault Welles explore how and why Twitter has become an important platform for historically disenfranchised populations, including Black Americans, women, and transgender people. They show how marginalized groups, long excluded from elite media spaces, have used Twitter hashtags to advance counternarratives, preempt political spin, and build diverse networks of dissent. The authors describe how such hashtags as #MeToo, #SurvivorPrivilege, and #WhyIStayed have challenged the conventional understanding of gendered violence; examine the voices and narratives of Black feminism enabled by #FastTailedGirls, #YouOKSis, and #SayHerName; and explore the creation and use of #GirlsLikeUs, a network of transgender women. They investigate the digital signatures of the "new civil rights movement"—the online activism, storytelling, and strategy-building that set the stage for #BlackLivesMatter—and recount the spread of racial justice hashtags after the killing of Michael Brown in Ferguson, Missouri, and other high-profile incidents of killings by police. Finally, they consider hashtag created by allies, including #AllMenCan and #CrimingWhileWhite.

Tech enlightenment and empowerment for parents so they can create iRules contracts for their own families As Janell Burley Hofmann, mother of five, wrapped her thirteen-year-old's iPhone on Christmas Eve, she was overwhelmed by questions: Will my children learn to sit and wonder without Googling? Should I know their password for online accounts? Will they experience the value of personal connection without technology? To address her concerns, she outlined boundaries and expectations in a contract for her son to sign upon receiving his first cell phone. When Hofmann's editor at the Huffington Post posted the contract, now known as iRules, it resonated on a massive scale and went viral, resulting in a tsunami of media coverage and requests. It quickly became apparent that people across the country were hungry for more. In iRules, Hofmann provides families with the tools they need to find a balance between technology and human interaction through a philosophy she calls Slow Tech Parenting. In the book, she educates parents about the online culture tweens and teens enter the minute they go online, exploring issues like cyberbullying, friend fail, and sexting, as well as help parents create and modify their own iRules contract to fit their families needs.iRules will also help parents figure out when to unplug and how to stay in sync with the changing world of technology, while teaching teach their children self-respect, integrity, and responsibility.

This second edition of Project-Based Learning (PBL) presents an original approach to Science, Technology, Engineering and Mathematics (STEM) centric PBL. We define PBL as an "ill-defined task with a well-defined outcome," which is consistent with our engineering design philosophy and the accountability highlighted in a standards-based environment. This model emphasizes a backward design that is initiated by well-defined outcomes, tied to local, state, or national standard that provide teachers with a framework guiding students' design, solving, or completion of ill-defined tasks. This book was designed for middle and secondary teachers who want to improve engagement and provide contextualized learning for their students. However, the nature and scope of the content covered in the 14 chapters are appropriate for preservice teachers as well as for advanced graduate method courses. New to this edition is revised and expanded coverage of STEM PBL, including implementing STEM PBL with English Language Learners and the use of technology in PBL. The book also includes many new teacher-friendly forms, such as advanced organizers, team contracts for STEM PBL, and rubrics for assessing PBL in a larger format.

SELECTED AS A 2008 BEST BUSINESS BOOK OF THE YEAR BY THE ECONOMIST "ONE OF THE SMARTEST INVESTORS ON THE PLANET."--MONEY

MAGAZINE "This book is an essential read for those who wish to understand the modern world of investing." —Alan Greenspan Winner of the 2008 Financial Times and Goldman Sachs Business Book of the Year Award *When Markets Collide* is a timely alert to the fundamental changes taking place in today's global economic and financial systems—and a call to action for investors who may fall victim to misinterpreting important signals. While some have tended to view asset class mispricings as mere "noise," this compelling book shows why they are important signals of opportunities and risks that will shape the market for years to come. One of today's most respected names in finance, Mohamed El-Erian puts recent events in their proper context, giving you the tools that can help you interpret the markets, benefit from global economic change, and navigate the risks. The world economy is in the midst of a series of hand-offs. Global growth is now being heavily influenced by nations that previously had little or no systemic influence. Former debtor nations are building unforeseen wealth and, thus, enjoying unprecedented influence and facing unusual challenges. And new derivative products have changed the behavior of many market segments and players. Yet, despite all these changes, the system's infrastructure is yet to be upgraded to reflect the realities of today's and tomorrow's world. El-Erian investigates the underlying drivers of global change to shed light on how you should: Think about the new opportunities and risks Construct an appropriately diversified and internationalized portfolio Protect your portfolio against new sources of systemic risk Best think about the impact of central banks and financial policies around the world Offering up predictions of future developments, El-Erian directs his focus to help you capitalize on the new financial landscape, while limiting exposure to new risk configurations. *When Markets Collide* is a unique collection of books for investors and policy makers around the world. In addition to providing a thorough analysis and clear perspective of recent events, it lays down a detailed map for navigating your way through an otherwise perplexing new economic landscape.

This document's purpose is to spell out the Church's understanding of the nature of revelation—the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

Why there is no such thing as a free audience in today's attention economy The internet was supposed to fragment audiences and make media monopolies impossible. Instead, behemoths like Google and Facebook now dominate the time we spend online—and grab all the profits. This provocative and timely book sheds light on the stunning rise of the digital giants and the online struggles of nearly everyone else, and reveals what small players can do to survive in a game that is rigged against them. Challenging some of the most enduring myths of digital life, Matthew Hindman explains why net neutrality alone is no guarantee of an open internet, and demonstrates what it really takes to grow a digital audience in today's competitive online economy.
