I MISTERI DELLA VITA NELL'UNIVERSO

Max Milo

Paul Hill was a well-respected NASA scientist when, in the early 1950s, he had a UFO sighting. Soon after, he built the first flying platform and was able to duplicate the

UFO's tilt-to-control maneuvers. Official policy, however, prevented him from proclaiming his findings. "I was destined," says Hill, "to be as unidentified as the flying objects." For the next twenty-five years, Hill acted as an unofficial clearinghouse at NASA, collecting and analyzing sightings' reports for physical properties, propulsion possibilities, dynamics, etc. To refute claims that UFOs defy the laws of physics, he had to make "technological sense... of the unconventional object." After his retirement from NASA, Hill finally completed his remarkable analysis. This book, published posthumously, presents his findings that UFOs "obey, not

defy, the laws of physics." Vindicating his own sighting and thousands of others, he proves that UFO technology is not only explainable, but attainable.

OVNI : Les rencontres qui défient le FBI et le Pentagone Masters Creative

Le 26 juillet 2023, David Charles Grusch - ex-officier du renseignement - déclare sous serment devant les membres de la Chambre des représentants que le gouvernement américain possède depuis longtemps plusieurs vaisseaux d'origine non humaine issus de crashes, ainsi que les restes de leurs équipages, également non humains. Cette révélation fait la UNE des médias internationaux.

Conteur hors pair, Egon Kragel revisite cinquante-six rencontres avec des extraterrestres qui défient le Pentagone et le FBI. Dans un livre rigoureux et bourré d'anecdotes, l'auteur s'appuie sur les archives inédites et des articles de presse, pour analyser les contacts réels entre humains et non-humains qui ont eu lieu entre les années cinquante et aujourd'hui. Aucun lecteur ne sortira indemne de ce nouveau pavé lancé dans la mare des (in)certitudes officielles ! Egon Kragel est un des grands spécialistes d'ufologie en France. Son travail est reconnu dans le monde entier. Il a coécrit avec Yves Couprie OVNIS, Enquête sur un secret

d'État au Cherche-Midi puis a rédigé deux ouvrages parus chez Max Milo : OVNI, les 12 dossiers que le Pentagone ne s'explique pas et OVNI, sommes-nous en danger ? Le livre noir de l'ufologie. Il participe à de nombreuses conférences, intervient régulièrement sur les chaînes C8 (« Enquêtes paranormales ») et RMC Story (« Enquêtes mystérieuses »). Il anime une émission mensuelle sur BTLV et participe à des émissions et à des podcasts sur la RTBF.

This volume is perfect for the armchair UFO enthusiast and budding scientist. This compilation of stories from leading scientists

and UFO experts will pique any young person's interest in the possibility that UFOs really exist. Included are accounts from the world's leading experts on new evidence of famous sightings as well as the unearthing of famous classified files. Also, one leading nuclear physicist says how close we are to interstellar travel. For fans of The X-Files and Roswell conspiracies, this title will dispel any doubts about the existence of alien life.

Most people at one time or another have probably been curious to know, "What could account for all of those strange objects in the sky that many credible witnesses see?" Or, what about the modern

mystery of alien abductions and stories of visitations by beings claiming to be from other planets or star systems? Are aliens really making contact with human beings? Is it important anyway? At last, an easy-to-understand book traces the history of this strange phenomenon utilizing the research of many of the "heavyweights" of UFOlogy -- and it's been making sense to a lot of people. This is a book for everyone. The author's research and conclusions will surprise you and challenge your thinking, not just about UFOs, but about the nature of life itself. This is a landmark volume that brings together the most important evidences, coming to conclusions far more

sinister -- yet profound -- than most could imagine. - Publisher. *Les reports de Sr Henry Yelverton ... The first monographic publication focused on the Florentine UFO group (1968-1978), that conducts a historical analysis of its work, reveals its close relationship with the contemporary artistic, literary and architectural avant-garde and, finally, investigates its legacy for the contemporary project. The contemporary context is defined by a unique conjuncture. On one hand, we witness the revival of the Radical Architecture that from

the avant-garde experiments of the origins recovers creative processes and iconographic fragments while nullifying the original ideological and political values. On the other hand, we see social protests in defense of fundamental rights of democracy, as in 1968. With these premises, Architecture is now reinvestigating those ephemeral experiments that have endured half a century as new “stone monuments” capable of indicating new perspectives for both research and design. Placing UFO group, one of the authors of those still poorly known “monuments”, at the core of the contemporary debate means investigating their formal and

seductive aspects, but also the ideological, political and social values with which objects, installations and happenings have been innervated, transforming them into devices of an architecture nourished by literature, art and political commitment for the foundation of an eloquent and activist project even more radical than the well-known Superstudio and Archizoom. The collaboration between Beatrice Lampariello, an architecture historian specialized in the 1960s and 1970s, and False Mirror Office, a group of historians and designers engaged in the rediscovery of UFO group, lead to a monograph focused on the UFO’s work and an evaluation of their

legacy relative to contemporary architecture. This monograph is composed of three sections: 1) History, a first-ever study of UFO by False Mirror Office via analysis of all archival and bibliographic sources, as well as a series of interviews with UFO members and a collection of its writings (published and unpublished), for the first time translated into English; 2) Context, composed of essays by historians and architectural theorists (Beatrice Lampariello, Simon Sadler, Anna Rosellini, Giovanni Galli, Jacopo Galimberti) intended to place UFO's work in the context of the avant-garde that influenced its work, from the experience of

Florentine Radical Architecture to Umberto Eco's theories on semiotics and the American experiences between Pop Art, Video Art and Happening; 3) Legacy, articulated through graphic contribution and essays by young designers, as False Mirror Office, Parasite 2.0, Point Supreme, Jimenez Lai, Andrew Kovacs, Adam Nathaniel Furman, Traumnovelle, (ab)Normal and Peter Behrbohm, to investigate UFO's legacy relative to the contemporary revival of the most distinguishing creative processes and obsessions that shaped the so-called Radical Architecture. Contributions by: Beatrice Lampariello, Boris Hamzeian and

Andrea Anselmo (False Mirror Office), Gloria Castellini (False Mirror Office), Simon Sadler, Anna Rosellini, Giovanni Galli, Jacopo Galimberti, Filippo Fanciotti and Giovanni Glorialanza (False Mirror Office), Parasite 2.0, Point Supreme, Jimenez Lai (Bureau Spectacular), Andrew Kovacs, Adam Nathaniel Furman, Traumnovelle, (ab)Normal, Peter Behrbohm

Identified Flying Objects Actar D, Inc. "CE-5" is the ultimate reference of real data on the hottest topic in UFOs. This book documents, explains, and questions nearly 250 UFO incidents from around the world where people have deliberately tried to have contact with UFO phenomena or alien

beings and succeeded. *X3, Healing, Entities, and Aliens* Hampton Roads Publishing

Discusses the social and political implications of widespread belief in unidentified flying objects, extraterrestrials, and government cover-ups, and considers what they reveal in a culture of mass media and conflicting evidence.

Aliens Adored is the first full length, in-depth look at the Raëlian movement, a fascinating new religion founded in the 1970s by the charismatic prophet, Raël. Born in France as Claude Vorilhon, the former race-car driver founded the religion after he experienced a

visitation from the aliens (the "elohim") who, in his cosmology, created humans by cloning themselves. This pioneering study provides a thorough analysis of the movement, focusing on issues of sexuality, millenarianism, and the impact of the scientific worldview on religion and the environment. Raël's radical sexual ethics, his gnostic anthropocentrism, and shallow ecotheology offer us a mirror through which we see how our worldview has been shaped by the forces of globalization, postmodernism, and secular humanism. *Dizionario italiano, latino e francese ...* Rutgers University Press
 PAUL POPE's new graphic novel *Battling Boy* debuted at #1 on

the New York Times bestseller list, and the original art is now the focus of a series of traveling art exhibits in the United States and Europe. Image Comics presents POPE's large, lush, brushy original drawings, represented here in detail, photographed from the actual art boards, with minimal editorial interference or digital editing. This is a wide sampling from the various touring exhibits, featuring the art in its original format, with text in English, French, and Italian. The book focuses on the subtleties of the drawings in process, replicating the experience of seeing the art in person. 63 originals from *Battling Boy* are showcased, along with detailed

close-ups of the pages. A critical essay by CHARLES BROWNSTEIN, executive director of CBLDF, is included. POPE himself contributes an essay on the influences behind Battling Boy, as well as his process and technique. This is a must for any POPE fan, student, fellow artist, or fan of the medium. MONSTERS & TITANS is a celebration of the original art from one of the most critically-acclaimed American cartoonists of our time.

Il libro "I MISTERI DELLA VITA NELL'UNIVERSO" parla del Mistero più importante ed immenso dell'Universo: la VITA. Nel libro tratto argomenti come la nascita della Vita, l'Ufologia, Alieni, Vita dopo la Morte, Insegnamenti e tante altre cose; tutto ruota intorno alla Vita. Del resto la Vita è l'essenza dell'Universo, ed è anche il dono più importante che abbiamo e che dobbiamo tutelare e proteggere. Ho lavorato a questo libro per molti anni e per me

poterlo pubblicare è non solo un Sogno, ma un obiettivo che viene raggiunto dopo molto impegno, sacrifici e dedizione.

Aliens in America
Simon and Schuster
The question, "Are we alone in the cosmos?" has been answered. We are not alone.
Geologist-paleontologist Pierre Teilhard de Chardin, SJ, stated, as early as the mid-1920s, that intelligent life likely exists elsewhere and

distinguished scientists of today, including Harvard biologist, E. O. Wilson; Cambridge cosmologist, Stephen Hawking; astrophysicist and noted UAP researcher, Jacques Vallee; astronomer, Allen Hynek; and many others concur. The oral traditions of Native American elders teach that they have interacted periodically with Star People who are respected ancestors. Credible witness-participants today describe abductions by benevolent and malevolent Others. Discoveries by the Kepler, Hubble, and Gaia space telescopes, ground-based arrays of radio telescopes, and TESS (Transiting Exoplanet Survey Satellite) suggest that

in the Milky Way, twenty-five billion planets are in the life-friendly Goldilocks Zone. In *Third Displacement: Cosmobiology, Cosmolocality, Cosmosocioecology*, author John Hart links experiences with research in science-based and Spirit-focused books and articles—including narratives about close encounters with Visitors from elsewhere in space (ETI) or Others from other cosmos dimensions (IDI)—in examination of the claim that Intelligent ExoEarth life exists, that Otherkind has visited humankind. *Aliens Adored* Doubleday Books

Le phénomène OVNI est bien présent au Maroc, ce n'est pas seulement dans les

pays tels la France, les Usa, l'Italie etc.... qu'il est localisé. Au Maroc plusieurs centaines d'observations ont été rapportées et figurent dans « L'HISTOIRE DES OVNIS AU MAROC ». Le problème est sérieux, lors d'une observation en 1976, sa majesté le roi Hassan II s'en est inquiété et a demandé aux autorités américaines des informations sur le sujet. En France le dossier OVNI est également pris au sérieux, tout comme dans plusieurs pays et un service spécialisé au sein même du CNES (Centre National d'Études Spatiales) : le GEIPAN (Groupe d'Études et d'informations sur les Phénomènes aérospatiaux Non Identifiés) est chargé de l'étudier et rend

compte au grand public, via un site internet spécialisé, de l'avancement de ses recherches. Gérard LEBAT.

Could "UFOs" and "Aliens" simply be us, but from the future?

This provocative new book cautiously examines the premise that extraterrestrials may instead be our distant human descendants, using the anthropological tool of time travel to visit and study us in their own hominin evolutionary past. Dr. Michael P. Masters, a professor of

biological anthropology specializing in human evolutionary anatomy, archaeology, and biomedicine, explores how the persistence of long-term biological and cultural trends in human evolution may ultimately result in us becoming the ones piloting these disc-shaped craft, which are likely the very devices that allow our future progeny to venture backward across the landscape of time. Moreover, these extraterrestrials are ubiquitously described

as bipedal, large-brained, hairless, human-like beings, who communicate with us in our own languages, and who possess technology advanced beyond, but clearly built upon, our own. These accounts, coupled with a thorough understanding of the past and modern human condition, point to the continuation of established biological and cultural trends here on Earth, long into the distant human future.
