ALEXIS SCHMITT

Maternal & Child Nursing Care Prentice Hall

Based on a philosophy of active learning, this innovative and refreshing study aid is designed to help students learn the fundamentals of maternal-child nursing through unfolding case studies. Nursing content is woven into vivid case vignettes that evolve over time, thus engaging students and helping them develop critical thinking and clinical decision-making skills. The text also serves as a comprehensive workbook for students preparing for the NCLEX-RN®. It is the only maternal-child nursing review text to integrate content with practice and professional responsibilities to foster an engrossing real-world learning experience. The case vignettes are based on actual cases and incorporate all core content topics (assessment, planning, intervention, and evaluation of patient care) for maternal-child nursing and NCLEX-RN® success. The book includes multiple choice, matching, true/false and calculation questions, each related to the unfolding clinical situation. Exercise answers with rationale appear at the end of each chapter. References at the end of the book facilitate self-remediation. Nurse-educators will also find this resource helpful for simulation experiences, classroom cases, group projects, and clinical conferences. Key Features: Reviews maternal-child nursing core content for course learning and test review prep, as well as for NCLEX-RN® success Uses unfolding, real-life case vignettes to integrate core content with practice and professional responsibilities Covers all types of NCLEX-style questions for greater test familiarity Incorporates online resources for use in clinical settings Develops critical thinking skills to help students "think like a nurse"

Maternal-newborn Nursing Care F. A. Davis Company

This volume seeks to answer the needs of instructors and students in the shorter paediatric and maternity nursing courses. It should provide students with the right amount of accurate and up-to-date content in an easy-to-understand style. The first part

of the book includes content on maternal health nursing, including the newborn, and the second part of the book covers content related to paediatric nursing. Drawings, photographs, and tables help clarify the narrative.

Standards Elsevier Health Sciences

NEW! Consolidated, revised, and expanded mental health concerns chapter and consolidated pediatric health promotion chapter offer current and concise coverage of these key topics. NEW and UPDATED! Information on the latest guidelines includes SOGC guidelines, STI and CAPWHN perinatal nursing standards, Canadian Pediatrics Association Standards, Canadian Association of Midwives, and more. NEW! Coverage reflects the latest Health Canada Food Guide recommendations. UPDATED! Expanded coverage focuses on global health perspectives and health care in the LGBTQ2 community, Indigenous, immigrant, and other vulnerable populations. EXPANDED! Additional case studies and clinical reasoning/clinical judgement-focused practice questions in the printed text and on the Evolve companion website promote critical thinking and prepare you for exam licensure. NEW! Case studies on Evolve for the Next Generation NCLEX-RN® exam provide practice for the Next Generation NCLEX.

Legal Aspects of Maternal Child Nursing Practice F.A. Davis
Ideal for accelerated maternity and pediatrics courses, *Maternal-Child Nursing*, 4th Edition is filled with user-friendly features to help you quickly master essential concepts and skills. It offers completely updated content that's easy to read and understand. Plus, active learning tools give you the chance to practice applying your knowledge and make learning fun! Critical Thinking Exercises allow you to apply your knowledge to realistic clinical situations. Nursing care plans assist you with applying the nursing process to plan individualized care for the most common maternity and pediatric conditions. Critical to Remember boxes summarize and highlight essential, need-to-know information. Communication Cues provide practical tips for effective verbal and nonverbal communication with patients and families. Clinical Reference sections in pediatric chapters present information relevant to each body system, including anatomy and physiology, differences in the pediatric patient, and related laboratory and

diagnostic tests. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy.

Maternal-Child Nursing Care Jones & Bartlett Publishers
Safe Maternity & Pediatric Nursing Care, 2nd Edition. Online Resources, and Davis Edge work together to create an interactive learning experience that teaches students to think critically and make the best patient care decisions. The text, written specifically for LPNs/LVNs, provides the comprehensive nursing knowledge they need to understand in this key course. Online Resources equip instructors with the lesson plans, teaching resources, and activities to create an active classroom environment where students can apply what they're learning. Davis Edge online quizzing tracks student progress; assesses their knowledge; prepares students for classroom exams and the NCLEX®; and provides real time analytics to identify their weak concepts and topic areas. Text This is the maternity/peds textbook that focuses on what LPNs must know with just the right depth and breadth of coverage of the knowledge and skills to practice safely. A student-friendly approach helps LPN/LVNs to master safe and effective nursing care by developing the critical-thinking and problem-solving skills they need to excel in clinical practice. Clear, concise, readable, well organized, and easy to follow, it's the text that prepares new nurses to make the connections. Davis Edge Davis Edge is the online quizzing program that integrates seamlessly into the classroom to give students the additional practice questions they need to perform well on course exams and the NCLEX®. Handpicked preset assignments save instructors time, while actionable analytics let them take the pulse of how their students are performing. Instructors have the real-time data they need to monitor, track, and assess their class's mastery of the content. They are able to easily identify the areas in which students are struggling, intervene quickly, and provide

remediation to ensure that students succeed and improve within following areas: Comprehension and Retention: How well do students understand the content? Participation and Engagement: Are students keeping-up with their reading and assignments? Test-Taking Skills: Are students prepared for NCLEX®-style questions and improving their test-taking skills? An access code inside new printed texts unlocks Davis Edge as well as a wealth of online learning tools and resources, including an ebook powered by VitalSource. Our new approach to LPN/LVN education LPN/LVN Connections responds to the pressures and challenges faced in nursing education with a new approach that highlights key themes across our core textbooks, maintains a consistent reading level, common terminology and lab values to improve student outcomes in class and prepares them for professional practice. Educators: Contact your F.A. Davis Consultant to learn more about LPN/LVN Connections. Make the connections every step of the way.

Maternal Child Nursing Care - Binder Ready Thakur Publicatoin Private Limited

Maternal Child Nursing Care F.A. Davis

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

Maternal Child Nursing Care Springer Publishing Company

Master the essentials of maternity and pediatric nursing with this comprehensive, all-in-one text! Maternal Child Nursing Care, 7th Edition covers the issues and concerns of women during their childbearing years and children during their developing years. It uses a family-centered, problem-solving approach to patient care,

with guidelines supported by evidence-based practice. New to this edition is an emphasis on clinical judgment skills and a new chapter on children with integumentary dysfunction. Written by a team of experts led by Shannon E. Perry and Marilyn J.

Hockenberry, this book provides the accurate information you need to succeed in the classroom, the clinical setting, and on the Next Generation NCLEX-RN® examination. Focus on the family throughout the text emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Information on victims of sexual abuse as parents and human trafficking helps prepare students to handle these delicate issues. Nursing Alerts highlight critical information that could lead to deteriorating or emergency situations. Guidelines boxes outline nursing procedures in an easy-to-follow format. Evidence-Based Practice boxes include findings from recent clinical studies. Emergency Treatment boxes describe the signs and symptoms of emergency situations and provide step-by-step interventions. Atraumatic Care boxes teach students how to manage pain and provide competent care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes highlight important information nurses need to communicate to patients and families. Cultural Considerations boxes describe beliefs and practices relating to pregnancy, labor and birth, parenting, and women's health. Family-Centered Care boxes draw attention to the needs or concerns of families that students should consider to provide family-centered care.

Maternal Child Nursing Care Prentice Hall

NEW! Updated content throughout corresponds to the new features and chapters in the Maternal Child Nursing Care, 7th Edition text.

Maternal Child Nursing Care F.A. Davis

It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity/pediatric courses. A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children, not only in traditional hospital settings, but also wherever they live,

work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material.

Maternal-Child Nursing Care Elsevier Health Sciences

Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success.

Maternal and Child Nursing Care Elsevier Health Sciences

Specially designed to parallel the material in Maternal-Child Nursing, 4th Edition, this user-friendly study guide provides valuable review of essential concepts and skills. Hands-on learning exercises and practical activities allow you to apply your knowledge to real-world scenarios. Learning exercises include multiple-choice, matching, true/false, and review questions, as well as case studies, critical thinking activities, clinical learning exercises, and key concepts. Active learning approach helps you understand complex processes, improve skills performance, and develop critical-thinking and clinical decision-making skills. Completely updated content matches the textbook and provides a comprehensive review of essential maternal-child concepts and skills.

Maternal-child Nursing Care Elsevier

LEARN-APPLY-ASSESS Davis Advantage for Maternal-Child Nursing Care combines an innovative text with an immersive online program that make this challenging but must-know content easier to master by making learning personal. Maternal Child Nursing Care Pearson

The new Study Guide for Perry's Maternal Child Nursing Care in Canada is designed to help you review and master content from the core text and learn how to think critically in applying your knowledge. Chapters parallel those in the text and provide review, critical thinking applications, engaging activities, and more, with an answer key at the back of the book. This comprehensive study guide also contains case studies to help you

integrate information and develop the critical thinking, clinical reasoning, and clinical judgement skills required to pass your licensure examination and excel in clinical practice. Thinking Critically case-based activities require students to apply the concepts found in the chapters to solve problems, make clinical judgement decisions concerning care management, and provide responses to patient questions and concerns. Reviewing Key Concepts questions in various formats give students ample opportunities to assess their knowledge and comprehension of information covered in the text. Matching, fill-in-the-blank, true/false, short-answer, and multiple-choice activities help students identify the core content of each chapter and test their

understanding. Learning Key Terms matching and fill-in-the-blank questions let students test their ability to define all key terms highlighted in the corresponding textbook chapter. Perforated pages allow you to use activities for graded assignments. Answer key at the end of the book includes answers to all questions.

Maternal-Child Nursing - E-Book F.A. Davis

This dynamic, up-to-date text offers an integrated framework and philosophy for teaching the nursing of childbearing families and nursing of children together. Accurate, readable, and concise, Maternal & Child Nursing Care supports faster and more efficient learning in briefer, more compressed courses; while helping students develop essential skills for fast-changing healthcare environments. Core themes in this edition include family-centered

and community-based care; health promotion (including Healthy People 2020); patient and family education; clinical reasoning; evidence-based practice, and developing cultural competence. This edition adds new Safety Alerts; more coverage of pain as the fifth vital sign; greater focus on care of families where a child is dying; and updated content on assessment, nutrition, communication, and many other key topics. Multiple pedagogical tools help students focus both learning and review, including intuitive Pathophysiology Illustrated visuals; Family Quotes presenting the family's perspective; Learning Outcomes and Critical Concept Review Features; Key Terms, and an online audio glossary.
