materials to teachers and learners of English since 2018. Ready for CAE "This new edition of Ready for FCE has been revised and updated to incorporate all the new features of the Cambridge First Certificate in English. It is a comprehensive, well-rounded course that gives both the teacher and student confidence of exam success. The course also contains a complete grammar

syllabus and reference, as well as regular review sections that incorporate exam-style exercises. Gold Advanced Coursebook This book is an introduction to the language and standard proof methods of mathematics. It is a bridge from the computational courses (such as calculus or differential equations) that students typically encounter in their first year of college to a more abstract

<p>outlook. It lays a foundation for more theoretical courses such as topology, analysis and abstract algebra. Although it may be more meaningful to the student who has had some calculus, there is really no prerequisite other than a measure of mathematical</p>	<p>maturity. <u>Ready for CAE</u> "As with Ready for FCE, Ready for CAE is based on the same thorough exam preparation structure, and has been revised and updated in line with the new Cambridge Certificate in Advanced English. Special language</p>	<p>focus sections encourage analysis of the main grammar areas at this advanced level. Skills for all papers are covered and there is compete practise speaking test included. Extra photocopiable vocabulary exercises and practise tests available in the Teachers Book</p>
