 The Rogue Elf seeks a cure in the mysterious Shadowlands. But followers of The Blood stalk the lands and there are whispers of ancient demons returning... Kealin has only been like this for a few weeks and already he is changing. He feels a hunger he has never felt before. Before this, he had mastered the power of his ancient Dwemhar heritage, destroyed an ascended being, but was mortally injured. Vampirism saved him. But now he must hurry to reverse the effect before he is eternally trapped in a state of maniacal blood lust. But the worst part? The Shadowlands are not a place for a pale elf... and even more so one that has the ancient Dwemhar lineage. Not to mention his traveling companions have their own secrets, especially the mysterious wizard Evurn -a shadow elf returning home after generations in hiding. Kealin knows it unwise to ask him directly. In the darkness of what is to come, Kealin will have few choices if he is to save himself and those he cares about. But the one choice he might need to make will mean losing everything else he fights to hold on to. In the end, should he just embrace the darkness and release his hold on sanity? He might not have a choice. If you're a fan of epic fantasy, explosive sorcery, and swordplay, with an air of political intrigue and religious zealotry, you're in for a treat. "Epic. Fast. Heroic. The Rogue Elf series is classic epic fantasy with none of the fluff. ★★★★★" War calls the elves of Urlas to battle. But Kealin, a young half-elf training to be a Sacred Blade, and his three siblings, are forbidden to go. They are not ready, or so they're told. But Kealin's lineage has a dark secret and the High Council of Urlas fears what he may become... Kealin is about to learn that secret and in the cataclysm emerging, Urlas will wish they had embraced it. When the soothsayer of Urlas tells Kealin that doom comes for all that left for the war, he and his siblings set off on what may be a one way journey to the edge of the world. Darkness is upon them and a specter that dwells between the borders of the living realms has been waiting for them. The Rogue Elf awakens... but is it too late to save those he loves? A brave group of companions await you: Kealin- a defiant half-blood that has little care of the purist High Elves and their beliefs. Eager, skilled, and sometimes a bit cocky, he fights with furious zeal to protect those he cares about. Alri- The only female elf in the group. Her powers are far beyond her brothers. As a potent magic-user training under the best of the arcane masters, she knows much about her deadly art but necromancy is her natural gift. With her, a power unlike that taught in her homeland is just within her grasp yet she doesn't realize it yet. Taslun- A son after his father's image. Strong, loyal to Urlas, and at 800 years old nearly ready to go before the High Council and be christened as a Blade of Urlas. He is the last anyone expects to become defiant. As the oldest sibling, he naturally desires to look after the young ones. They'll need his skills if they are all to survive. Calak- The youngest of the males and with equal qualities of being cocky and honorable. While he is capable with a sword, his true gift is in his love of astrology, history, and ancient knowledge. Where he lacks in fighting ability he makes up for what his more 'violence-centric' brothers see as 'boring'. Valrin- Not an elf but also not a normal human. However, the greatest mystery to the half-elves is his level of knowledge of the vast Glacial Seas and what he seems to know but not say about their quest. A loyal companion that has known of the elven lands and the coming darkness on the seas far before the half-elves left their home, he is the key to much to come. He commands the Aela Sunrise, a not-so-simple sailing vessel crafted by the ancient Sea Peoples of the North.

 Law & Order meets Men in Black in this graphic novel adaptation of an unproduced TV pilot script by the author of *A Game of Thrones*—a never-before-seen story brought to life for the first time! SECOND CITY. FIRST CONTACT. Ten years ago,

representatives from an interstellar collective of 314 alien species landed on Earth, inviting us to become number 315. Now, after seemingly endless delays, the Starport in Chicago is operational, a destination for diplomats, merchants, and tourists alike. Inside, visitors are governed by intergalactic treaty. Outside, the streets belong to Chicago's finest. Charlie Baker, newly promoted to the squad that oversees the Starport district, is eager to put to practical use his enthusiasm for all things extraterrestrial; he just never expected to arrive on his first day in the back of a police cruiser. Lieutenant Bobbi Kelleher is married to the job, which often puts her in conflict with Lyhanne Nhar-Lys, security champion of Starport and one of the galaxy's fiercest warriors. Undercover with a gang of anti-alien extremists, Detective Aaron Stein has no problem mixing business with pleasure—until he stumbles upon evidence of a plot to assassinate a controversial trade envoy with a cache of stolen ray guns. Now the Chicago PD must stop these nutjobs before they piss off the entire universe. Based on a TV pilot script written by George R. R. Martin in 1994 and adapted and illustrated by Hugo Award-nominated artist Raya Golden, this bold and brilliant graphic novel adaptation at last brings Martin's singular vision to rollicking life. With all the intrigue, ingenuity, and atmosphere that made *A Game of Thrones* a worldwide phenomenon, Starport launches a new chapter in the career of a sci-fi/fantasy superstar.

Pedro is ugly, so ugly that he has been mistakenly identified as El Chupacabra. In the town of Santa Maria all animals are welcome and free. But from the mountains, the lizard king and his gang raid the town of precious supplies. In their hour of need the town turn to a hero, a hero whose name will strike fear in to all that hear it. Will Pedro save Santa Maria? Or will the truth be told? Authors Note: After receiving negative feedback and hate mail, I thought it prudent to add a PARENTAL WARNING-This book contains words like poo, fart and snot; it also uses the word fluff three times as a cuss word. I would also like to point out that Chupacabra comes from the words chupar "to suck" and cabra "goat," literally "goat sucker" and is not a double entendre.

It began with a key. One afternoon in 1956, in the home of the Hitchings family in Battersea, south London, a small silver key appeared on Shirley Hitchings' bed. This seemingly insignificant event heralded the beginning of one of the most terrifying, incredible and mysterious hauntings in British history. The spirit, who quickly became known as 'Donald', began to communicate, initially via tapping sounds, but over time - and with the encouragement of psychical researcher Harold Chibbett, whose case-files appear here - by learning to write. Soon, the spirit had begun to make simply incredible claims about his identity, insisting that he was one of the most famous figures in world history - but what was the truth? Here, for the first time, is the full story, told by the woman right at the heart of it all - Shirley herself.
