## GLOVER OSCAR

**Into the Woods** Grand Central Publishing

Alienated from his fellow zombies because of his dislike of having to kill humans and his enjoyment of Sinatra music, "R" meets a living girl who sharply contrasts with his cold and dreary world and whom he resolves to protect in spite of her delicious appearance.

*Mick* MIT Press

Tour the Final Book of the Bible Revelation was written because God wants us to know what the future holds. For Christians, the prophetic truths within provide wisdom, reassurance, and discernment—while for unbelievers, Revelation is a plea to receive God's grace while there is still time. Bestselling author Amir Tsarfati examines what Revelation makes known about the end times and beyond. Guided by accessible teaching that lets Scripture speak for itself, you'll take a closer look at the timeline of what believers and nonbelievers will experience before, during, and after the tribulation plan that the Lord has specifically prepared for the people of Israel in the end times encouragements, challenges, and warnings Jesus Himself gave to prepare us for His return. Revealing Revelation provides an eye-opening look at what lies ahead for every person in the end times—either in heaven or on earth. Are you prepared for what is to come?

*Orders of the Quest* Timber Press

In the late 1970s, new generations of nuclear delivery systems were proposed for deployment across Eastern and Western Europe. The ensuing controversy grew to become a key phase in the late Cold War. This book explores the origins, unfolding, and consequences of that crisis. Contributors from international relations, political science, sociology, and history draw on extensive research in a number of countries, often employing declassified documents from the West and from the newly opened state and party archives of many Soviet bloc countries. They cover especially Soviet-Warsaw Pact relations, U.S.-NATO relations, and the role of public opinion worldwide in relation to the crisis.

*The Rough Guide Book of Playlists* Simon and Schuster

Abstracts of journal articles, books, essays, exhibition catalogs, dissertations, and exhibition reviews. The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century, up to the most recent works and trends in the late 20th century. Photography is covered from its invention in 1839 to the present. A particular emphasis is placed upon adding new and lesser-known artists and on the coverage of foreign-language literature. Approximately 13,000 new entries are added each year. Published with title LOMA from 1969-1971.

*China's Second Continent* Severed Press

In 1521, Suleiman the Magnificent, Muslim ruler of the Ottoman Empire, dispatched an invasion fleet to the Christian island of Rhodes. This would prove to be the opening shot in an epic clash between rival empires and faiths for control of the Mediterranean and the center of the world. In *Empires of the Sea*, acclaimed historian Roger Crowley has written a thrilling account of this brutal decades-long battle between Christendom and Islam for the soul of Europe, a fast-paced tale of spiraling intensity that ranges from Istanbul to the Gates of Gibraltar. Crowley conjures up a wild cast of pirates, crusaders, and religious warriors struggling for supremacy and survival in a tale of slavery and galley warfare, desperate bravery and utter brutality. *Empires of the Sea* is a story of extraordinary color and incident, and provides a crucial context for our own clash of civilizations.

*The Stench of Honolulu* Cold War International History

The second volume of the bestselling landmark work on the history of the modern state Writing in The Wall Street Journal, David Gress called Francis Fukuyama's *Origins of Political Order* "magisterial

in its learning and admirably immodest in its ambition." In The New York Times Book Review, Michael Lind described the book as "a major achievement by one of the leading public intellectuals of our time." And in The Washington Post, Gerard DeGroot exclaimed "this is a book that will be remembered. Bring on volume two." Volume two is finally here, completing the most important work of political thought in at least a generation. Taking up the essential question of how societies develop strong, impersonal, and accountable political institutions, Fukuyama follows the story from the French Revolution to the so-called Arab Spring and the deep dysfunctions of contemporary American politics. He examines the effects of corruption on governance, and why some societies have been successful at rooting it out. He explores the different legacies of colonialism in Latin America, Africa, and Asia, and offers a clear-eyed account of why some regions have thrived and developed more quickly than others. And he boldly reckons with the future of democracy in the face of a rising global middle class and entrenched political paralysis in the West. A sweeping, masterful account of the struggle to create a well-functioning modern state, *Political Order and Political Decay* is destined to be a classic.

**Artbibliographies Modern** Vintage

A New York Times Notable Book Chinese immigrants of the recent past and unfolding twenty-first century are in search of the African dream. So explains indefatigable traveler Howard W. French, prize-winning investigative journalist and former New York Times bureau chief in Africa and China, in the definitive account of this seismic geopolitical development. China's burgeoning presence in Africa is already shaping, and reshaping, the future of millions of people. From Liberia to Senegal to Mozambique, in creaky trucks and by back roads, French introduces us to the characters who make up China's dogged emigrant population: entrepreneurs singlehandedly reshaping African infrastructure, and less-lucky migrants barely scraping by but still convinced of Africa's opportunities. French's acute observations offer illuminating insight into the most pressing unknowns of modern Sino-African relations: Why China is making these cultural and economic incursions into the continent; what Africa's role is in this equation; and what the ramifications for both parties and their people—and the watching world—will be in the foreseeable future. One of the Best Books of the Year at • The Economist • The Guardian • Foreign Affairs

**How to Read a Film** Helsinki University Press

Kingdom of Nokia tells a fascinating story of corporatism in Finland. How did the mobile phone giant Nokia make the Finnish elite willing to serve the interests of the company? Nokia became a global player in mobile communications in the 1990s, and helped establish Anglo-Saxon capitalism in Finland. Through its success and strong lobbying, the company managed to capture the attention of Finnish politicians, civil servants, and journalists nationwide. With concrete detailed examples, Kingdom of Nokia illustrates how Nokia organised lavish trips to journalists and paid direct campaign funding to politicians to establish its role at the core of Finnish decision-making. As a result, the company influenced important political decisions such as joining the European Union and adopting the euro, and further, Nokia even drafted its own law to serve its special interests. All this in a country considered one of the least corrupt in the world.

**McCurdy's World** Crown

Zach Gunderson's life sucked and then the zombie apocalypse began. Rick, an aging Vietnam veteran, alcoholic, and prepper, convinces Zach that the apocalypse is on the horizon. The two of them take refuge at a remote farm. As the zombie plague rages, they face a terrifying fight for survival. They soon learn however that the walking dead are not the only monsters.

*Star Trek: Coda: Book 1: Moments Asunder* Bantam

"Riveting. . . a testament to a misconceived war, and to the ease with which ordinary men, under certain conditions, can transform into monsters."—New York Times Book Review This is the story of a small group of soldiers from the 101st Airborne Division's fabled 502nd Infantry Regiment—a unit known as "the Black Heart Brigade." Deployed in late 2005 to Iraq's so-called Triangle of Death, a veritable meat grinder just south of Baghdad, the Black Hearts found themselves in arguably the country's most dangerous location at its most dangerous time. Hit by near-daily mortars, gunfire, and roadside bomb attacks, suffering from a particularly heavy death toll, and enduring a chronic breakdown in leadership, members of one Black Heart platoon—1st Platoon, Bravo Company, 1st Battalion—descended, over their year-long tour of duty, into a tailspin of poor discipline, substance abuse, and brutality. Four 1st Platoon soldiers would perpetrate one of the most heinous war crimes U.S. forces have committed during the Iraq War—the rape of a fourteen-year-old Iraqi girl and the cold-blooded execution of her and her family. Three other 1st Platoon soldiers would be overrun at a remote outpost—one killed immediately and two taken from the scene, their mutilated corpses found days later booby-trapped with explosives. *Black Hearts* is an unflinching account of the epic, tragic deployment of 1st Platoon. Drawing on hundreds of hours of in-depth interviews with Black Heart soldiers and first-hand reporting from the Triangle of Death, *Black Hearts* is a timeless story about men in combat and the fragility of character in the savage crucible of warfare. But it is also a timely warning of new dangers emerging in the way American soldiers are led on the battlefields of the twenty-first century.

*Black Hearts* Beacon Press

Explores the medium of film as both art and craft, sensibility and science, tradition and technology.

*Political Order and Political Decay* Oxford University Press, USA

This second edition of the Rough Guide Book of Playlists contains more than 500 lists of which 50 are new to this edition. The lists are recommendations of ten songs (sometimes a couple more, sometimes a couple less), covering artists (Rufus Wainwright to Thelonus Monk, Al Green to Manu Chao, Glenn Gould to Julie Andrews), genres (Bebop Classics to Reggae Toasters to Punk Originals to Hot Club jazz), songs (10 best Dylan covers; 8 classic versions of Summertime; 10 love songs that don't cloy), quirks and silliness (Songs about Chickens and Insects; Who let the frogs out?; Big Pizza Pie crooners; Take this Job and Shove it!). There's even a literary edge with playlists like '10 songs raved about in Murakami novels'. Each of the Playlists has a nugget about the song (why you want it on your iPod), and a listings of where it's from (remember CDs?).

*The Euromissile Crisis and the End of the Cold War* Simon and Schuster

This Chief Inspector Gamache novella is set in Three Pines. This novella is a short and easy read for people on the go.

*Apocalypse* NYU Press

Bestselling author and international political expert Joel C. Rosenberg tackles the question, Is America an empire in decline or a nation poised for an historic renaissance? America teeters on a precipice. In the midst of financial turmoil, political uncertainty, declining morality, the constant threat of natural disasters, and myriad other daunting challenges, many wonder what the future holds. Will history's greatest democracy stage a miraculous comeback, returning to the forefront of the world's economic and spiritual stage? Can America's religious past be repeated today with a third Great Awakening? Or will the rise of China, Russia, and other nations, coupled with the US's internal struggles, send her into a decline from which there can be no return? *Implosion* helps readers understand the economic, social, and spiritual challenges facing the United States in the 21st century, through the lens of biblical prophecy.

*Brother Odd* Routledge

Acclaimed historian Gerald Horne troubles America's settler colonialism's "creation myth" August 2019 saw numerous commemorations of the year 1619, when what was said to be the first arrival of enslaved Africans occurred in North America. Yet in the 1520s, the Spanish, from their imperial perch in Santo Domingo, had already brought enslaved Africans to what was to become South Carolina. The enslaved people here quickly defected to local Indigenous populations, and compelled their captors to flee. Deploying such illuminating research, *The Dawning of the Apocalypse* is a riveting revision of the "creation myth" of settler colonialism and how the United States was formed.

Here, Gerald Horne argues forcefully that, in order to understand the arrival of colonists from the British Isles in the early seventeenth century, one must first understand the "long sixteenth century"—from 1492 until the arrival of settlers in Virginia in 1607. During this prolonged century, Horne contends, "whiteness" morphed into "white supremacy," and allowed England to co-opt not only religious minorities but also various nationalities throughout Europe, thus forging a muscular bloc that was needed to confront rambunctious Indigenous and Africans. In retelling the bloodthirsty story of the invasion of the Americas, Horne recounts how the fierce resistance by Africans and their Indigenous allies weakened Spain and enabled London to dispatch settlers to Virginia in 1607. These settlers laid the groundwork for the British Empire and its revolting spawn that became the United States of America.

*The New York Times Index* BRILL

The legendary *Deep Thoughts* and *New Yorker* humorist Jack Handey is back with his very first novel—a hilarious, absurd, far-flung adventure tale. *THE STENCH OF HONOLULU* Are you a fan of books in which famous tourist destinations are repurposed as unlivable hellholes for no particular reason? Read on! Jack Handey's exotic tale is full of laugh-out-loud twists and unforgettable characters whose names escape me right now. A reliably unreliable narrator and his friend, who is some other guy, need to get out of town. They have a taste for adventure, so they pay a visit to a relic of bygone days—a travel agent—and discover an old treasure map. She might have been a witch, by the way. Our heroes soon embark on a quest for the Golden Monkey, which takes them into the mysterious and stinky foreign land of Honolulu. There, they meet untold dangers, confront strange natives, kill and eat Turtle People, kill some other things and people, eat another thing, and discover the ruins of ancient civilizations. As our narrator says, "The ruins were impressive. But like so many civilizations, they forgot the rule that might have saved them: Don't let vines grow all over you."

*The End of the Present World and the Mysteries of the Future Life* OUP USA

"Story by Dayton Ward, James Swallo, and David Mack. Based on *Star Trek* and *Star Trek: the next generation* created by Gene Roddenberry. *Star Trek: Deep space nine* created by Rick Berman & Michael Piller. *Star Trek: Voyager* created by Rick Berman & Michael Piller & Jeri Taylor."

*Kingdom of Nokia* Sophia Institute Press

The posthumous publication in French of Archeology of Violence in 1980 gathered together Clastres's final groundbreaking essays and the opening chapters of the book he had begun before his death in 1977. Elaborating upon the conclusions of such earlier works as *Society Against the State*, Clastres turns around the analysis of power among South American Indians and rehabilitates violence as an affirmative act meant to protect the integrity of their societies and presents us with a genealogy of power in a native state. For him, tribal societies are not Rousseauist in essence; to the contrary, they practice systematic violence in order to prevent the rise in their midst of this "cold monster": the state. Only by waging war with other tribes can they maintain the dispersion and autonomy of each group. In the same way, tribal chiefs are not all-powerful; to the contrary, they are rendered weak in order to remain dependent on the community. In a series of groundbreaking essays, Clastres turns around the analysis of power among South American Indians and rehabilitates violence as an affirmative act meant to protect the integrity of their societies. These "savages" are shrewd political minds who resist in advance any attempt at "globalization".

*Implosion* Farrar, Straus and Giroux

Illuminates how the preservation of slavery was a motivating factor for the Revolutionary War The successful 1776 revolt against British rule in North America has been hailed almost universally as a great step forward for humanity. But the Africans then living in the colonies overwhelmingly sided with the British. In this trailblazing book, Gerald Horne shows that in the prelude to 1776, the abolition of slavery seemed all but inevitable in London, delighting Africans as much as it outraged slaveholders, and sparking the colonial revolt. Prior to 1776, anti-slavery sentiments were deepening throughout Britain and in the Caribbean, rebellious Africans were in revolt. For European colonists in America, the major threat to their security was a foreign invasion combined with an insurrection of the enslaved. It was a real and threatening possibility that London would impose abolition throughout the colonies—a possibility the founding fathers feared would bring slave rebellions to their shores. To forestall it, they went to war. The so-called Revolutionary War, Horne writes, was in part a counter-revolution, a conservative movement that the founding fathers fought in order to preserve their right to enslave others. The Counter-Revolution of 1776 brings us to a radical new understanding of the traditional heroic creation myth of the United States.
