generator sets, Mobile  
Electric Power  
(MEP)-1030 (50/60  
Hertz (Hz)) and  
MEP-1031 (400 Hz).  
This operator's manual  
provides operating  
procedures,  
troubleshooting, PMCS,  
maintenance, and  
supporting information  
required to operate  
and maintain the  
AMMPS 5 kW generator  
sets. Listed below are  
some of the features  
included in this TM to  
help locate and use the  
provided information.  
This TM has been  
organized using the  
Work Package (WP)  
concept. Each chapter  
contains a series of  
WPs rather than  
sections and  
paragraphs. Each WP is  
designed to stand  
alone as a complete

information module. If you keep the section(s) of this TM in a loose-leaf binder, you will be able to remove just the WP needed to complete a specific task. Each WP is numbered using a four-digit number beginning with WP 0001. WPs are numbered sequentially throughout the TM (e.g. WP 0022, WP 0023, etc.). The Table of Contents lists each chapter and WP title, as well as all figures and tables contained within each WP. Figures and tables are numbered sequentially within each WP. The WP number is located at the top right of each page. It is also located at the bottom of the page with the WP page number included (0001-1 would be page 1 of the General Information WP (WP

0001, General Information). Each WP starts on a right-hand page. This is done so you can remove a single WP from the paper TM if needed for a task. Blank pages are assigned a number, but it appears on the preceding or following page. For example, if page 0001-10 of a WP is blank, page 0001-9 will have the number 0001-9/10 blank; or if page 0001-1 of a WP is blank, page 0001-2 will have the number 0001-1 blank/2. Each WP containing step-by-step maintenance or troubleshooting procedures will end with the words END OF TASK, and each WP ends with the statement END OF WORK PACKAGE. Think of each WP as a small, standalone TM. Monthly Catalogue.
