This contemporary, comprehensive, case-driven textbook from award-winning professor Matthew Lippman combines clear explanations of foundational concepts with thought-provoking examples to encourage students to think critically about legal principles and apply the rules of law to criminal procedure. Organized around the challenge of striking a balance between rights and liberties, *Criminal Procedure, Fourth Edition* emphasizes diversity and its impact on how laws are enforced. Built-in learning aids, including You Decide scenarios, Legal Equations, and Criminal Procedure in the News features, engage students and help them master key concepts. New to This Edition New U.S. Supreme Court cases help students understand the significant impact the recent decisions have on society, such as *United States v. Carpenter*, which raised important questions around police use of new technology. Other new cases address important issues including privacy, racial discrimination and effective assistance of counsel, search and seizure, juries, plea bargaining, the exclusionary rule, pretrial motions, and habeas corpus. Updated Criminal Procedure in the News and You Decide features keep students engaged in the content by connecting core concepts to contemporary developments in topics ranging from police use of deadly force, the Second Amendment and gun control, racial bias in jury deliberations, searches of electronic devices, and much more. New and expanded topics in criminal procedure encourage students to reflect on their growing impact. These topics include technology and the home, patterns and trends of Terry stops in major cities across the United States, racial bias in the judiciary, and the impact of the policies of the Trump administration on the use of drones, the detention of undocumented immigrants, and more. Each chapter now opens with a new Test Your Knowledge feature that encourages active reading and prepares students for the material that follows. Give your students the SAGE edge! SAGE edge offers a robust online environment featuring an impressive array of free tools and

resources for review, study, and further exploration, keeping both instructors and students on the cutting edge of teaching and learning.

 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you

identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

This book brings together empirical research and conceptual work on textbooks and education media from 13 countries and 17 disciplines. Along with textbook production, usage, and development, it also explores the interconnectedness of (educational) policy and teaching and learning materials. Further, the book offers insights into regional and local discourses (e.g. specific theories of Portuguese- and Spanish-speaking countries as well as Nordic countries, contrasting their theories with international literature), practices, and solutions with regard to teaching selected subjects at the pre-primary, primary, secondary, and tertiary level. This book also discusses the specific combinations of subjects (e.g. Physics, Biology, Geography, Swedish, English) and their subject-specific education (e.g. Physics Education or Didactics). Lastly, it examines the work of a number of early-career researchers, giving them a voice and bringing in fresh ideas currently being developed in various countries around the globe. This proceedings volume will appeal to publishers, subject educators in primary, secondary, and tertiary education, and academic researchers from the fields of textbooks, educational media and subject-specific education. Its international authorship and explicit focus on subject-specific particularities of educational media provide a unique and comprehensive overview.

#### **Proceedings of the Board of Regents**

Vols. for 1887-1946 include the preprint pages of the institute's Transactions.

#### **The Medieval Book**

This volume contains the Proceedings of the 7th International Conference on Text, Speech and Dialogue, held in Brno, Czech Republic, in September 2004, under the auspices of the Masaryk University. This series of international conferences on text, speech and dialogue has come to constitute a major forum for presentation and discussion, not only of the latest developments

in academic research in these fields, but also of practical and industrial applications. Uniquely, these conferences bring together researchers from a very wide area, both intellectually and geographically, including scientists working in speech technology, dialogue systems, text processing, lexicography, and other related fields. In recent years the conference has developed into a primary meeting place for speech and language technologists from many different parts of the world and in particular it has enabled important and fruitful exchanges of ideas between Western and Eastern Europe. TSD 2004 offered a rich program of invited talks, tutorials, technical papers and poster sessions, as well as workshops and system demonstrations. A total of 78 papers were accepted out of 127 submitted, contributed altogether by 190 authors from 26 countries. Our thanks as usual go to the Program Committee members and to the external reviewers for their conscientious and diligent assessment of

submissions, and to the authors themselves for their high-quality contributions. We would also like to take this opportunity to express our appreciation to all the members of the Organizing Committee for their tireless efforts in organizing the conference and ensuring its smooth running.
