This business book is different. Unlike every other book you'll read with titles like "How To Craft The Perfect Business Plan in 89 Incredibly Simple Steps", this book is different. It's a simple "How To" guide for creating a Business Plan that's right for you and your business and also

an easy to follow workbook. The workbook will guide you through the process you need to follow. It tells you the questions that you need to consider, the numbers you need (and how to get them), and supporting documents you need to gather. The main purpose of a business plan is to aid YOU in running YOUR business. So the workbook has been designed for you to write the information in and refer back to as needed. If you need to supply your Business Plan to another party, such as a bank if you're looking for finance, then it's simple to type up the various sections for a professional document. Running your own business is both a challenging and daunting prospect. With a well-thought-out business plan in place (anticipating the challenges you'll face

AND the solutions) it will be much less daunting and much more exciting. Good luck! Molly

This business book is different. Unlike every other book you'll read with titles like "How To Craft The Perfect Business Plan in 89 Incredibly Simple Steps", this book is different. It's a simple "How To" guide for creating a Business Plan that's right for you and your business and also an easy to follow workbook. The workbook will guide you through the process you need to follow. It tells you the questions that you need to consider, the numbers you need (and how to get them), and supporting documents you need to gather. The main purpose of a business plan is to aid YOU in running YOUR business. So the workbook has been designed for you to write the information in and refer back to as needed.
