(Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber s My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. Hallelujah, Imagine & Other Songs of Inspiration Createspace Independent Publishing Platform

This book studies the working efficacy of Leonard Cohen's song Hallelujah in the context of today's network culture. Especially as recorded on YouTube, k.d. lang's interpretation(s) of Cohen's Hallelujah, embody acoustically and visually/viscerally, what Nietzsche named the 'spirit of music'. Today, the working of music is magnified and transformed by recording dynamics and mediated via Facebook exchanges, blog postings and video sites. Given the sexual/religious core of Cohen's Hallelujah, this study poses a phenomenological reading of the objectification of both men and women, raising the question of desire, including gender issues and both homosexual and heterosexual desire. A review of critical thinking about musical performance as 'currency' and consumed commodity takes up Adorno's reading of Benjamin's analysis of the work of art in the age of mechanical reproduction

as applied to music/radio/sound and the persistent role of 'recording consciousness'. Ultimately, the question of what Nietzsche called the becoming-human-of-dissonance is explored in terms of both ancient tragedy and Beethoven's striking deployment of dissonance as Nietzsche analyses both as playing with suffering, discontent, and pain itself, a playing for the sake not of language or sense but musically, as joy.
