Financial Performance - Combined Text and Workbook

The Course Book provides all the knowledge required for the Accounting Systems and Controls unit. The Course Books cover the relevant syllabus comprehensively, at an appropriate level and in a clear, user-friendly way. Features include: practical examples, tasks to consolidate learning, in-depth syllabus coverage, chapter summaries and keywords. Our materials and online equivalents will help ensure you are ready for your assessments and prepared for your career in accounting.

*AAT : Association of
Accounting Technicians*

The Course Book provides all the knowledge required for the Accounting Systems and Controls unit. The Course Books cover the relevant syllabus comprehensively, at an appropriate level and in a clear, user-friendly way. Features include: practical examples, tasks to consolidate learning, in-

depth syllabus coverage, chapter summaries and keywords. Our materials and online equivalents will help ensure you are ready for your assessments and prepared for your career in accounting.

*Business Tax - Combined
Text*

Designed for units 8 and 9 of the AAT examinations for accounting technicians, this interactive text focuses on managing costs and allocating resources.

Founded in 1980 by five major accountancy bodies in the UK, the AAT is a growing professional body for accounting technicians - the skilled support staff working in accounting and finance across

employment sectors. In 1994, the AAT completed the phasing-in of its competence-based

Education and Training Scheme. The scheme is accredited by the National Council for Vocational Qualifications and its Scottish equivalent to provide NVQs/SVQs in accounting at levels 2 (foundation stage), 3 (intermediate) and 4 (technician). The range of texts matches coverage of the AAT's Standards of Competence with opportunities to practice

assessment style-tasks.
*Indirect Tax - Combined
