**Belgic Confession** UCL Press

"Collecting essays by fourteen expert contributors into a trans-oceanic celebration and critique, Mamadou Diouf and Ifeoma Kiddoe Nwankwo show how music, dance, and popular culture turn ways of remembering Africa into African ways of remembering. With a mix of Nuyorican, Cuban, Haitian, Kenyan, Senegalese, Trinidagonian, and Brazilian beats, *Rhythms of the Afro-Atlantic World* proves that the pleasures of poly-rhythm belong to the realm of the discursive as well as the sonic and the kinesthetic." ---Joseph Roach, Sterling Professor of Theater, Yale University "As necessary as it is brilliant, *Rhythms of the Afro-Atlantic World* dances across, beyond, and within the Black Atlantic Diaspora with the aplomb and skill befitting its editors and contributors." ---Mark Anthony Neal, author of *Soul Babies: Black Popular Culture and the Post-Soul Aesthetic* Along with linked modes of religiosity, music and dance have long occupied a central position in the ways in which Atlantic peoples have

enacted, made sense of, and responded to their encounters with each other. This unique collection of essays connects nations from across the Atlantic---Senegal, Kenya, Trinidad, Cuba, Brazil, and the United States, among others---highlighting contemporary popular, folkloric, and religious music and dance. By tracking the continuous reframing, revision, and erasure of aural, oral, and corporeal traces, the contributors to *Rhythms of the Afro-Atlantic World* collectively argue that music and dance are the living evidence of a constant (re)composition and (re)mixing of local sounds and gestures. *Rhythms of the Afro-Atlantic World* distinguishes itself as a collection focusing on the circulation of cultural forms across the Atlantic world, tracing the paths trod by a range of music and dance forms within, across, or beyond the variety of locales that constitute the Atlantic world. The editors and contributors do so, however, without assuming that these paths have been either always in line with national, regional, or continental boundaries or always transnational, transgressive, and perfectly hybrid/syncretic. This collection seeks to reorient the discourse on cultural forms moving in the Atlantic world by being attentive to the specifics of the forms---their specific geneses, the specific uses to which they are put by their creators

and consumers, and the specific ways in which they travel or churn in place. Mamadou Diouf is Leitner Family Professor of African Studies, Director of the Institute of African Studies, and Professor of History at Columbia University. Ifeoma Kiddoe Nwankwo is Associate Professor of English at Vanderbilt University. Jacket photograph by Elias Irizarry

**Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986** Princeton University Press

From Executive summary: This report focuses on the government's efforts to enforce federal civil rights laws prohibiting religious discrimination in the administration and management of federal and state prisons. Prisoners in federal and state institutions retain certain religious exercise rights under the Constitution and statutes including the Religious Land Use and Institutionalized Persons Act (RLUIPA), the Religious Freedom Restoration Act (RFRA), and the Civil Rights of Institutionalized Persons Act (CRIPA). Many states have similar provisions in their state constitutions and in state law modeled on RFRA. These rights must be balanced with the legitimate concerns of prisons officials, including cost, staffing, and most importantly, prison safety and security. Reconciling these rights and concerns can be a significant challenge for penal institutions, as well as courts.

Crossing Parish Boundaries Cambridge University Press

"What corporations fear most are consumers who ask questions. Naomi Klein offers us the arguments with which to take on the superbrands." Billy Bragg from the bookjacket.

**Caribbean Discourse** UNESCO

How was American culture disseminated into Britain? Why did many British citizens embrace American customs? And what picture did they form of American society and politics? This engaging and wide-ranging history explores these and other questions about the U.S.'s cultural and political influence on British society in the post-World War II period.

**America in the British Imagination** Springer

Jake Colson, an overworked and disillusioned pastor, happens into a stranger who bears an uncanny resemblance (in manner) to the apostle John. A number of encounters with John as well as a family crisis lead Jake to a new understanding of what his life should be like: one filled with faith bolstered by a steady, close relationship with the God of the universe. Facing his own disappointment with Christianity, Jake must forsake the habits that have made his faith rote and rediscover the love that captured his heart when he first believed. Compelling and intensely personal, *So You Don't Want to Go to Church* Anything relates a man's rebirth from performance-based Christianity to a loving friendship with Christ that affects all he does, thinks, and says. As John tells Jake, "There is nothing the Father desires for you more than that you fall squarely in the lap of his love and never move from that place for the rest of your life."

**Who Are the Real Chosen People?** Fig

Provides up-to-date profiles on the careers of leading and emerging poets.

Under the Net University of Virginia Press

Spanning 25 years of serious writing on hip-hop by noted scholars and mainstream journalists, this comprehensive anthology includes observations and critiques on groundbreaking hip-hop recordings.

**Anarchism in Germany** Springer

This collection introduces readers to the history and practice of the Vodou religion, and corrects many misconceptions. The book focuses specifically on the role Vodou plays in Haiti, where it has its strongest following, examining its influence on spiritual beliefs, cultural practices, national identity, popular culture, writing and

art.

**English - One Tongue, Many Voices** Simon and Schuster  
Selected essays from the rich and complex collection of Edouard Glissant, one of the most prominent writers and intellectuals of the Caribbean, examine the psychological, sociological, and philosophical implications of cultural dependency.

**Antifa** Turner Publishing Company

Controversy erupted in spring 2001 when Chicago's mostly white Southside Catholic Conference youth sports league rejected the application of the predominantly black St. Sabina grade school. Fifty years after *Brown v. Board of Education*, interracialism seemed stubbornly unattainable, and the national spotlight once again turned to the history of racial conflict in Catholic parishes. It's widely understood that midcentury, working class, white ethnic Catholics were among the most virulent racists, but, as *Crossing Parish Boundaries* shows, that's not the whole story. In this book, Timothy B. Neary reveals the history of Bishop Bernard Sheil's Catholic Youth Organization (CYO), which brought together thousands of young people of all races and religions from Chicago's racially segregated neighborhoods to take part in sports and educational programming. Tens of thousands of boys and girls participated in basketball, track and field, and the most popular sport of all, boxing, which regularly filled Chicago Stadium with roaring crowds. The history of Bishop Sheil and the CYO shows a cosmopolitan version of American Catholicism, one that is usually overshadowed by accounts of white ethnic Catholics aggressively resisting the racial integration of their working-class neighborhoods. By telling the story of Catholic-sponsored interracial cooperation within Chicago, *Crossing Parish Boundaries* complicates our understanding of northern urban race relations in the mid-twentieth century.

Religious Liberty Under the Free Exercise Clause Melville House

This lively and readable survey introduces students to key areas of the field and shows how to apply an anthropological approach to the study of contemporary world religions. Written by an experienced teacher, it covers all of the traditional topics of anthropology of religion, including definitions and theories, beliefs, symbols and language, and ritual and myth, and combines analytic and conceptual discussion with up-to-date ethnography and theory. Eller includes copious examples from religions around the world - both familiar and unfamiliar - and two mini-case studies in each chapter. He also explores classic and contemporary anthropological contributions to important but often overlooked issues such as violence and fundamentalism, morality, secularization, religion in America, and new religious movements. *Introducing Anthropology of Religion* demonstrates that anthropology is both relevant and essential for understanding the world we inhabit today.

The World Book Encyclopedia OUP USA

This is the fully revised and expanded second edition of *English - One Tongue, Many Voices*, a book by three internationally distinguished English language scholars who tell the fascinating, improbable saga of English in time and space. Chapters trace the history of the language from its obscure beginnings over 1500 years ago as a collection of dialects spoken by marauding, illiterate tribes. They show how the geographical spread of the language in its increasing diversity has made English into an international language of unprecedented range and variety. The authors examine the present state of English as a global language and the problems, pressures and uncertainties of its future, online and offline. They argue that, in spite of the amazing variety and plurality of English, it remains a single language.

The Gift of Generations Windblown Media

*Same-Sex Marriage and Religious Liberty* explores the religious freedom implications of defining marriage to include same-sex

couples. It represents the only comprehensive, scholarly appraisal to date of the church-state conflicts virtually certain to arise in many spheres of law as a result of the legal recognition of same-sex marriage.

How American Jesuits helped forge modern Catholicism around the world At the start of the nineteenth century, the Jesuits seemed fated for oblivion. Dissolved as a religious order in 1773 by one pope, they were restored in 1814 by another, but with only six hundred aged members. Yet a century later, the Jesuits numbered seventeen thousand men and were at the vanguard of the Catholic Church's expansion around the world. This book traces this nineteenth-century resurgence, showing how Jesuits nurtured a Catholic modernity through a disciplined counterculture of parishes, schools, and associations. Drawing on archival materials from three continents, *American Jesuits and the World* tracks Jesuits who left Europe for America and Jesuits who left the United States for missionary ventures across the Pacific. Each chapter tells the story of a revealing or controversial event, including the tarring and feathering of an exiled Swiss Jesuit in Maine, the efforts of French Jesuits in Louisiana to obtain Vatican approval of a miraculous healing, and the educational efforts of American Jesuits in Manila. These stories reveal how the Jesuits not only revived their own order but made modern Catholicism more global. The result is a major contribution to modern global history and an invaluable examination of the meaning of religious liberty in a pluralistic age.

*A Psalm for the Wild-Built* Fordham Univ Press

Antiblack racism avows reason is white while emotion, and thus supposedly unreason, is black. Challenging academic adherence to this notion, Lewis R. Gordon offers a portrait of Martinican-turned-Algerian revolutionary psychiatrist and philosopher Frantz Fanon as an exemplar of "living thought" against forms of reason marked by colonialism and racism. Working from his own translations of the original French texts, Gordon critically engages everything in Fanon from dialectics, ethics, existentialism, and humanism to philosophical anthropology, phenomenology, and political theory as well as psychiatry and psychoanalysis. Gordon takes into account scholars from across the Global South to address controversies around Fanon's writings on gender and sexuality as well as political violence and the social underclass. In doing so, he confronts the replication of a colonial and racist geography of reason, allowing theorists from the Global South to emerge as interlocutors alongside northern ones in a move that exemplifies what, Gordon argues, Fanon represented in his plea to establish newer and healthier human relationships beyond colonial paradigms.

*That's the Joint!* University of Chicago Press

An "urgent and significant book [that] speaks to our times" (The New York Times Book Review) from the bestselling, Man Booker Prize-winning author of *The White Tiger* and *Selection Day* about a young illegal immigrant who must decide whether to report crucial information about a murder—and thereby risk deportation. Danny—formerly Dhananjaya Rajaratnam—is an illegal immigrant in Sydney, Australia, denied refugee status after he fled from Sri Lanka. Working as a cleaner, living out of a grocery storeroom, for three years he's been trying to create a new identity for himself. And now, with his beloved vegan girlfriend, Sonja, with his hidden accent and highlights in his hair, he is as close as he has ever come to living a normal life. But then one morning, Danny learns a female client of his has been murdered. The deed was done with a knife, at a creek he'd been to with her before; and a jacket was left at the scene, which he believes belongs to another of his clients—a doctor with whom Danny knows the woman was having an affair. Suddenly Danny is confronted with a

choice: Come forward with his knowledge about the crime and risk being deported? Or say nothing, and let justice go undone? Over the course of this day, evaluating the weight of his past, his dreams for the future, and the unpredictable, often absurd reality of living invisibly and undocumented, he must wrestle with his conscience and decide if a person without rights still has responsibilities. "Searing and inventive," Amnesty is a timeless and universal story that succeeds at "illuminating the courage of displaced peoples and the cruelties of those who conspire against them" (Star Tribune, Minneapolis).

*American Jesuits and the World* University of Michigan Press Globalization discourse now presumes that the "world space" is entirely at the mercy of market norms and forms promulgated by reactionary U.S. policies. An academic but accessible set of studies, this wide range of essays by noted scholars challenges this paradigm with diverse and strong arguments. Taking on topics that range from the medieval Mediterranean to contemporary Jamaican music, from Hong Kong martial arts cinema to Taiwanese politics, writers such as David Palumbo-Liu, Meaghan Morris, James Clifford, and others use innovative cultural studies to challenge the globalization narrative with a new and trenchant tactic called "worlding." The book posits that world literature, cultural studies, and disciplinary practices must be "worlded" into expressions from disparate critical angles of vision, multiple frameworks, and field practices as yet emerging or unidentified. This opens up a major rethinking of historical "givens" from Rob Wilson's reinvention of "The White Surfer Dude" to Sharon Kinoshita's "Deprovincializing the Middle Ages." Building on the work of cultural critics like Edward Said, Gayatri Spivak, and Kenneth Burke, *The Worlding Project* is an important manifesto that aims to redefine the aesthetics and politics of postcolonial globalization with alternative forms and frames of global becoming.

**Enforcing Religious Freedom in Prison** Psychology Press

For years, historians have argued that Catholicism in the United States stood decisively apart from papal politics in European society. Drawing on previously unexamined documents from Italian state collections and newly opened Vatican archives, Peter D'Agostino paints a starkly different portrait.

*EEOC Compliance Manual* Rowman & Littlefield

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

**Bulletin** Transaction Pub

What Does It Mean to Be "Chosen"? Why Did God Have to Choose? "To be chosen can have a range of meaning from the mundane to the holy, but in all cases it means to be singled out and preferred over others. In a deep sense that permeates much or most of Western culture, having been chosen communicates a sense of something that is extraordinary, is transcendent, and entitles a reward. What is assumed in this sense of the term is that God has done the choosing and the reward is something that is unequalled, for what could possibly equal divinely ordained eternal happiness?" —from the Introduction Religious people who define themselves as monotheists have often advanced the idea that their relationship with God is unique and superior to all others. Theirs supersedes those who came before, and is superior to those who have followed. This phenomenon tends to be expressed in terms not only of supersessionism, but also "choseness," or "election." Who is most beloved by God? What expression of the divine will is the most perfect? Which relationship reflects God's ultimate demands or desire? In this fascinating examination of the religious phenomenon of choseness, Reuven Firestone explores the idea of covenant, and the expressions of supersessionism as articulated through the scriptures of the three major monotheistic religions: Judaism,

Christianity and Islam. He explores how and why the ongoing competition and friction between these religions came about, and offers thoughts about how to overcome it.
