Women of the Republic
views the American
Revolution through
women's eyes. Previous
histories have rarely

recognized that the battle
for independence was
also a woman's war. The
"women of the army"
toiled in army hospitals,
kitchens, and laundries.
Civilian women were
spies, fund raisers,
inkeepers, suppliers of
food and clothing.
Recruiters, whether
patriot or tory, found men
more willing to join the
army when their wives
and daughters could be
counted on to keep the

farms in operation and to resist encroachment from squatters. "I have Don as much to Carrey on the warr as maney that Sett Now at the heal of government," wrote one impoverished woman, and she was right. Women of the Republic is the result of a seven-year search for women's diaries, letters, and legal records. Achieving a remarkable comprehensiveness, it describes women's participation in the war, evaluates changes in their education in the late eighteenth century,

describes the novels and histories women read and wrote, and analyzes their status in law and society. The rhetoric of the Revolution, full of insistence on rights and freedom in opposition to dictatorial masters, posed questions about the position of women in marriage as well as in the polity, but few of the implications of this rhetoric were recognized. How much liberty and equality for women? How much pursuit of happiness? How much justice? When American

political theory failed to define a program for the participation of women in the public arena, women themselves had to develop an ideology of female patriotism. They promoted the notion that women could guarantee the continuing health of the republic by nurturing public-spirited sons and husbands. This limited ideology of "Republican Motherhood" is a measure of the political and social conservatism of the Revolution. The subsequent history of women in America is the

story of women's efforts to accomplish for themselves what the Revolution did not. *Visionary Women* catapults a disproportionate number of male writers, including such figures as Amiri Baraka, Larry Neal, Maulana Karenga, and Haki Madhubuti, continue to be credited for constructing the iconic and ideological foundations for what would be perpetuated as the Black Art Movement. Though there has arisen an increasing amount of scholarship that

recognizes leading women artists, activists, and leaders of this period, these new perspectives have yet to recognize adequately the ways women aspired to far more than a mere dismantling of male-oriented ideals. In *Visionary Women Writers of Chicago's Black Arts Movement*, Carmen L. Phelps examines the work of several women artists working in Chicago, a key focal point for the energy and production of the movement. Angela Jackson, Johari Amiri, and

Carolyn Rodgers reflect in their writing specific cultural, local, and regional insights, and demonstrate the capaciousness of Black Art rather than its constraints. Expanding from these three writers, Phelps analyzes the breadth of women's writing in BAM. In doing so, Phelps argues that these and other women attained advantageous and unique positions to represent the potential of the BAM aesthetic, even if their experiences and artistic perspectives were

informed by both social conventions and constraints. In this book, Phelps's examination brings forward a powerful and crucial contribution to the aesthetics and history of a movement that still inspires.

As an 11-year-old Iranian Jew, Angella Nazarian was forced by increasing violence from her childhood cocoon in Tehran. Part memoir, part travel diary, *Life as a Visitor* presents two interwoven narratives--of her family's harrowing escape from revolution-rocked Iran to the glitz and glamour of Beverly Hills, and of Nazarian's own quest to understand her past and her present. Profiles of Female

Genius Sourcebooks, Inc. Queen Victoria's reign was an era of breathtaking social change, but it did little to create a platform for women to express themselves. But not so within the social sphere of the séance--a mysterious, lamp-lit world on both sides of the Atlantic, in which women who craved a public voice could hold their own. Out of the *Shadows* tells the stories of the enterprising women whose supposedly clairvoyant gifts granted them fame, fortune, and

most important, influence as they crossed rigid boundaries of gender and class as easily as they passed between the realms of the living and the dead. The Fox sisters inspired some of the era's best-known political activists and set off a transatlantic séance craze. While in the throes of a trance, Emma Hardinge Britten delivered powerful speeches to crowds of thousands. Victoria Woodhull claimed guidance from the spirit world as she took on the millionaires of Wall Street

before becoming America's first female presidential candidate. And Georgina Weldon narrowly escaped the asylum before becoming a celebrity campaigner against archaic lunacy laws. Drawing on diaries, letters, and rarely seen memoirs and texts, Emily Midorikawa illuminates a radical history of female influence that has been confined to the dark until now.

Step Into Your Power Prometheus Books Cover version of book. *Women in Art* Penguin Winner of The Green Prize for Sustainable Literature A Finalist for the PEN/Bograd Weld Prize for Biography Four influential women we thought we knew well—Jane Jacobs, Rachel Carson, Jane Goodall, and Alice Waters—and how they spearheaded the modern progressive movement This is the story of four

visionaries who profoundly shaped the world we live in today. Together, these women—linked not by friendship or field, but by their choice to break with convention—showed what one person speaking truth to power can do. Jane Jacobs fought for livable cities and strong communities; Rachel Carson warned us about poisoning the environment; Jane Goodall demonstrated the indelible kinship between humans and animals; and Alice Waters urged us to

reconsider what and how we eat. With a keen eye for historical detail, Andrea Barnet traces the arc of each woman's career and explores how their work collectively changed the course of history. While they hailed from different generations, Carson, Jacobs, Goodall, and Waters found their voices in the early sixties. At a time of enormous upheaval, all four stood as bulwarks against 1950s corporate culture and its war on nature. Consummate outsiders,

each prevailed against powerful and mostly male adversaries while also anticipating the disaffections of the emerging counterculture. All told, their efforts ignited a transformative progressive movement while offering people a new way to think about the world and a more positive way of living in it. **Women Artists A to Z** Penguin UK

An exploration of the role that dreaming, psychedelic experiences, and mystical visions play in visionary art • Includes discussions with 18 well-known female artists, including Josephine Wall, Allyson Grey, Amanda Sage, Martina Hoffmann, Penny Slinger, and Carolyn Mary Kleefeld •

Reveals how they have all been inspired by deep inner experiences and seek to express non-ordinary visions of reality, reminiscent of shamanic trance states, lucid dreams, and spiritually transcendent experiences
• Shows how visionary art often contains an abundance of feminine energy, helping us to heal ourselves and see that we are all connected Since early humans first painted from their mystic eye onto cave walls, artists have sought to share their sacred visions with the

world. Created in every medium, from oil painting and sculpture to contemporary digital modeling, these visionary works of art give those who experience them a chance to “see the unseen,” realize wider modes of perception, and discover spiritual and mystical realms. In this full-color illustrated book, David Jay Brown and Rebecca Ann Hill examine the work and inspirations of eighteen of today’s leading female visionary artists, including Josephine Wall, Allyson

Grey, Amanda Sage, Martina Hoffmann, Penny Slinger, and Carolyn Mary Kleefeld. They explore the creative process and the role that dreaming, psychedelic experiences, sexuality, and divine guidance play in the work of these women, alongside full-color examples of their art. They discuss the future of visionary art and reveal how these artists have all been informed and inspired by deep inner experiences and seek to express non-ordinary visions of reality, often

reminiscent of those encountered in shamanic trance, lucid dreams, psychedelic states, spiritually transcendent experiences, and other altered states. Showing how visionary art often contains an abundance of feminine energy, helping us to heal ourselves and see that we are all connected, the authors explore with each artist what it is about being a woman that has most influenced their artwork. They also examine the connection between visionary art and

spirituality, the influence of Nature and sacred geometry, and how this creative form is simultaneously ancient, futuristic, and timeless, providing an accessible doorway into the visionary realm.
