After a brutal day investigating a quadruple homicide, Detective Hoke Moseley settles into his room at the unillustrious El Dorado Hotel and nurses a glass of brandy. With his guard down, he doesn't think twice when he hears a knock on the door. The next day, he finds himself in the hospital, badly bruised and with his jaw wired shut. He thinks back over ten years of cases wondering who would want to beat him into unconsciousness, steal his gun and badge, and most importantly, make off with his prized dentures. But the pieces never quite add up to revenge, and the few clues he has keep connecting to a dimwitted hooker, and

her ex-con boyfriend and the bizarre murder of a Hare Krishna pimp. Chronically depressed, constantly strapped for money, always willing to bend the rules a bit, Hoke Moseley is hardly what you think of as the perfect cop, but he is one of the the greatest detective creations of all time.

The Martian Chronicles

Orbis Books

#1 New York Times Bestseller Oprah's Book Club Selection The "extraordinary . . . monumental masterpiece" (Booklist) that changed the course of Ken Follett's already phenomenal career—and begins where its prequel, *The Evening and the Morning*, ended. "Follett risks all and comes out a clear winner," extolled Publishers Weekly on

the release of *The Pillars of the Earth*. A departure for the bestselling thriller writer, the historical epic stunned readers and critics alike with its ambitious scope and gripping humanity. Today, it stands as a testament to Follett's unassailable command of the written word and to his universal appeal. *The Pillars of the Earth* tells the story of Philip, prior of Kingsbridge, a devout and resourceful monk driven to build the greatest Gothic cathedral the world has known . . . of Tom, the mason who becomes his architect—a man divided in his soul . . . of the beautiful, elusive Lady Aliena, haunted by a secret shame . . . and of a struggle between good and evil that will turn church against state and

brother against brother. A spellbinding epic tale of ambition, anarchy, and absolute power set against the sprawling medieval canvas of twelfth-century England, this is Ken Follett's historical masterpiece.

**Laudato Si** Simon and Schuster  
Artificial Intelligence (AI) has the potential to address some of the biggest challenges in education today, innovate teaching and learning practices, and ultimately accelerate the progress towards SDG 4. However, these rapid technological developments inevitably bring multiple risks and challenges, which have so far outpaced policy debates and regulatory frameworks. This publication offers guidance for policy-

makers on how best to leverage the opportunities and address the risks, presented by the growing connection between AI and education. It starts with the essentials of AI: definitions, techniques and technologies. It continues with a detailed analysis of the emerging trends and implications of AI for teaching and learning, including how we can ensure the ethical, inclusive and equitable use of AI in education, how education can prepare humans to live and work with AI, and how AI can be applied to enhance education. It finally introduces the challenges of harnessing AI to achieve SDG 4 and offers concrete actionable

recommendations for policy-makers to plan policies and programmes for local contexts. [Publisher summary, ed]  
*Head First Java* United Nations  
 Focusing on the arcades of 19th-century Paris--glass-roofed rows of shops that were early centers of consumerism-- Benjamin presents a montage of quotations from, and reflections on, hundreds of published sources. 46 illustrations.  
*The New York and Brooklyn Bridge ...* Vintage Crime/Black Lizard  
 On the seventy-fifth anniversary of the United Nations, the world has faced its biggest shared test since the Second World War in the coronavirus disease (COVID-19)

pandemic. Yet while our welfare, and indeed the permanence of human life, depend on us working together, international cooperation has never been harder to achieve. This report answers a call from UN Member States to provide recommendations to advance our common agenda and to respond to current and future challenges. Its proposals are grounded in a renewal of the social contract, adapted to the challenges of this century, taking into account younger and future generations, complemented by a new global deal to better protect the global commons and deliver global public goods. Through a

deepening of solidarity—at the national level, between generations, and in the multilateral system—Our Common Agenda provides a path forward to a greener, safer and better future.

**Computer-assisted Reporting** Yearbook of International Orga  
This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong

homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It

proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

driving forces that will help make it better.

Yearbook of International

Organizations

2011-2012 UNESCO

Educating dual language learners (DLLs) and English learners (ELs)

effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELs—who account for more than 9 percent of enrollment in grades K-12 in U.S. schools—are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English: Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to

age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

Now in its ninety-eighth year of publication, this standard Canadian reference source contains the most comprehensive and authoritative biographical information on notable living Canadians. Those listed are carefully selected because of the positions they hold in Canadian society, or because of the contribution they have made to life in Canada. The volume is updated annually to ensure accuracy, and 600 new entries are added each year to keep current with developing trends and issues in Canadian society. Included are

outstanding Canadians from all walks of life: politics, media, academia, business, sports and the arts, from every area of human activity. Each entry details birth date and place, education, family, career history, memberships, creative works, honours and awards, and full addresses.

Indispensable to researchers, students, media, business, government and schools, Canadian Who's Who is an invaluable source of general knowledge. The complete text of Canadian Who's Who is also available on CD-ROM, in a comprehensively indexed and fully searchable format. Search 'astronaut' or 'entrepreneur of the year,' 'aboriginal

achievement award' and 'Order of Canada' and discover a wealth of information. Fast, easy and more accessible than ever, the Canadian Who's Who on CD-ROM is an essential addition to your electronic library.

"In the heart of this world, the Lord of life, who loves us so much, is always present. He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!" -

Pope Francis, *Laudato Si'* In his second encyclical, *Laudato Si'*: *On the Care of Our Common Home*, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable.

Pope Francis' letter joins the body of the Church's social and moral teaching, draws on the best scientific research, providing the foundation for "the ethical and spiritual itinerary that follows." Laudato Si' outlines: The current state of our "common home" The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis' call to action for each of us Our Sunday Visitor has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching. *Miami Blues* American Mathematical Soc.

An invaluable source of information on the personalities and organizations of the literary world.

**Fratelli Tutti** World Business Pub.

From the Introduction In his Autobiography, Mill predicts that the essay *On Liberty* is "likely to survive longer than anything else that I have written." He goes on to say that the essay is the expression of a "single truth: "the importance, to man and society, of a large variety of types of character, and of giving full freedom to human nature to expand itself in innumerable and conflicting directions." In the essay itself, Mill defines his subject as "the nature and limits of the power which can be legitimately exercised by society

over the individual." He defends the absolute freedom of individuals to engage in conduct not harmful to others, and the near-absolute freedom to express and discuss opinions of all kinds. Mill's essay survives, as he had predicted, because his powerful message is still widely rejected by the powerful, and by those who continue to seek power over the lives of others.

*The Wretched of the Earth* DIANE Publishing

The book consists of 18 chapters, each covering roughly one hour of the day, beginning around 8 a.m. and ending sometime after 2 a.m. the following morning. Each chapter employs its own literary style, and parodies a specific episode in Homer's *Odyssey*. Furthermore,

each chapter is associated with a specific colour, art or science, and bodily organ. This combination of kaleidoscopic writing with an extreme formal schematic structure renders the book a major contribution to the development of 20th-century modernist literature. The use of classical mythology as an organising framework, the near-obsessive focus on external detail, and the occurrence of significant action within the minds of characters have also contributed to the development of literary modernism. Nevertheless, Joyce complained that, "I may have oversystematised *Ulysses*," and played down the mythic

correspondences by eliminating the chapter titles that had been taken from Homer. As he was completing work on *Dubliners* in 1906, Joyce considered adding another story featuring a Jewish advertising canvasser called Leopold Bloom under the title *Ulysses*. Although he did not pursue the idea further at the time, he eventually commenced work on a novel using both the title and basic premise in 1914. The writing was completed in October 1921. Three more months were devoted to working on the proofs of the book before Joyce halted work shortly before his self-imposed deadline, his 40th birthday (2 February 1922). This publication encountered censorship problems in

the United States; serialisation was halted in 1920 when the editors were convicted of publishing obscenity. Although the conviction was based on the "Nausicaä" episode of *Ulysses*, *The Little Review* had fuelled the fires of controversy with dada poet Elsa von Freytag-Loringhoven's defence of *Ulysses* in an essay "The Modest Woman." Joyce's novel was not published in the United States until 1933. With the appearance of both *Ulysses* and T. S. Eliot's poem, *The Waste Land*, 1922 was a key year in the history of English-language literary modernism. In *Ulysses*, Joyce employs stream of consciousness, parody, jokes, and virtually every other established literary

technique to present his characters. The action of the novel, which takes place in a single day, 16 June 1904, sets the characters and incidents of the *Odyssey* of Homer in modern Dublin and represents Odysseus (Ulysses), Penelope and Telemachus in the characters of Leopold Bloom, his wife Molly Bloom and Stephen Dedalus, parodically contrasted with their lofty models. The book explores various areas of Dublin life, dwelling on its squalor and monotony. Nevertheless, the book is also an affectionately detailed study of the city, and Joyce claimed that if Dublin were to be destroyed in some catastrophe it could be rebuilt, brick by brick,

using his work as a model. To achieve this level of accuracy, Joyce used the 1904 edition of Thom's Directory—a work that listed the owners and/or tenants of every residential and commercial property in the city. He also bombarded friends still living there with requests for information and clarification.
