Haunting Bollywood is a pioneering, interdisciplinary inquiry into the supernatural in Hindi cinema that draws from literary criticism, postcolonial studies, queer theory, history, and cultural studies. Hindi

commercial cinema has been invested in the supernatural since its earliest days, but only a small segment of these films have been adequately explored in scholarly work; this book addresses this gap by focusing on some of Hindi cinema's least explored genres. From Gothic ghost films of the 1950s to snake films of the 1970s and 1980s to today's globally influenced

zombie and vampire films, Meheli Sen delves into what the supernatural is and the varied modalities through which it raises questions of film form, history, modernity, and gender in South Asian public cultures. Arguing that the supernatural is dispersed among multiple genres and constantly in conversation with global cinematic forms, she demonstrates that it is an especially malleable

impulse that routinely pushes Hindi film into new formal and stylistic territories. Sen also argues that gender is a particularly accommodating stage on which the supernatural rehearses its most basic compulsions; thus, the interface between gender and genre provides an exceptionally productive lens into Hindi cinema's negotiation of the modern and the global. *Haunting Bollywood* reveals that the supernatural's unruly energies continually resist containment, even as

they partake of and sometimes subvert Hindi cinema's most enduring pleasures, from songs and stars to myth and melodrama. *Manorama Year Book* Greenhaven Press, Incorporated "It is a milestone in subaltern studies, a biographical journey penned by a living relic of the indentured experience and a scholar whose thoroughly interdisciplinary approach is a good example for the anthropologist, the sociologist or the

economist who wish to see the proper integration of their disciplines in a major historical work." Brinsley Samaroo, University of the West Indies, St Augustine Campus, Trinidad *Haunting Bollywood* Publications Division (India), New Delhi Containing 90+ case studies including BP, Beyoncé, Pizza Hut and Chrysler, this is the first book to analyze brandjacking - when organizations lose control of their brand's image online. Combining crisis

communication and social media, this book charts the trend's growth, offering advice to those who find themselves at the mercy of brand pirates.

After his studies, he worked as a ship's surgeon on various boats. During the Second Boer War, he was an army doctor in South Africa. When he came back to the United Kingdom, he opened his own practice and started writing crime books. He is best known for his thrilling stories about the adventures of Sherlock Holmes. He published four novels and more than 50 short-stories starring the detective and Dr Watson, and they play an important role in the

history of crime fiction. Other than the Sherlock Holmes series, Doyle wrote around thirty more books, in genres such as science-fiction, fantasy, historical novels, but also poetry, plays, and non-fiction.

As David White explains in the Introduction to Tantra in Practice, Tantra is an Asian body of beliefs and practices that seeks to channel the divine energy that grounds the universe, in creative and liberating ways. The subsequent chapters reflect the wide geographical and temporal scope of Tantra by examining thirty-six

texts from China, India, Japan, Nepal, and Tibet, ranging from the seventh century to the present day, and representing the full range of Tantric experience--Buddhist, Hindu, Jain, and even Islamic. Each text has been chosen and translated, often for the first time, by an international expert in the field who also provides detailed background material. Students of Asian religions and general readers alike will find the book rich and informative. The book

includes plays, transcribed interviews, poetry, parodies, inscriptions, instructional texts, scriptures, philosophical conjectures, dreams, and astronomical speculations, each text illustrating one of the diverse traditions and practices of Tantra. Thus, the nineteenth-century Indian Buddhist Garland of Gems, a series of songs, warns against the illusion of appearance by referring to bees, yogurt, and the fire of Malaya Mountain; while fourteenth-century

Chinese Buddhist manuscripts detail how to prosper through the Seven Stars of the Northern Dipper by burning incense, making offerings to scriptures, and chanting incantations. In a transcribed conversation, a modern Hindu priest in Bengal candidly explains how he serves the black Goddess Kali and feeds temple skulls lentils, wine, or rice; a seventeenth-century Nepalese Hindu praise-poem hammered into the golden doors to the temple of the Goddess

Taleju lists a king's faults and begs her forgiveness and grace. An introduction accompanies each text, identifying its period and genre, discussing the history and influence of the work, and identifying points of particular interest or difficulty. The first book to bring together texts from the entire range of Tantric phenomena, Tantra in Practice continues the Princeton Readings in Religions series. The breadth of work included, geographic areas spanned, and expert

scholarship highlighting each piece serve to expand our understanding of what it means to practice Tantra.

Marriage. It's the obvious path for every girl in India. It's supposed to define us, shape us and give meaning to our life. But does it, really? Figures show that nearly 74.1 million women in India are either divorced, separated, widowed or have never been married. And the number is on the rise. In what promises to

be a path-breaking work on female identity, Sreemoyee Piu Kundu, a proud-to-be-single woman herself, spills the beans on what it is like being over 30 and unattached in India, through her own compelling story and the chequered lives and journeys of nearly 3,000 urban single Indian women from all walks of life. Women, whether single by choice or circumstance, are under scathing societal pressure, invasive scrutiny and pervasive criticism. Be it the

difficulty in renting an apartment, being character-assassinated by your gynaecologist, or being slut- shamed as having slept your way to the top, even when you're successful professionally, a single woman's life choices are the easiest to dissect. From one of the most powerful voices in contemporary Indian writing, comes a passionate narrative of grit and gumption, anger and loneliness and the daily struggle of being single in a country where the highest validation of

your gender remains marriage and motherhood. Fiercely honest and painfully vulnerable, *Status Single* is a book that every woman and man—single or otherwise—must read.

Mystic's Musings

(eBook) McGraw-Hill Education

India is frequently represented as the quintessential land of

religion. Johannes Quack challenges this representation through an examination of the contemporary Indian rationalist organizations: groups who affirm the values and attitudes of atheism, humanism, or free-thinking. Quack shows the rationalists' emphasis on maintaining links to atheism and materialism in ancient India and outlines their strong ties to the intellectual currents of modern European history. At the heart of *Disenchanted India* is an

ethnographic study of the organization "Andhashraddha Nirmulan Samiti" (Organization for the Eradication of Superstition), based in the Indian State of Maharashtra. Quack gives a nuanced account of the Organization's specific "mode of unbelief." He describes the group's efforts to encourage a scientific temper and to combat beliefs and practices that it regards as superstitious. Quack also shows the role played by rationalism in the day-to-day lives of the

Organization's members, as well as the Organization's controversial position within Indian society. *Disenchanted India* contributes crucial insight into the nature of rationalism in the intellectual life and cultural politics of India. *Index to the Times of India* Diamond Pocket Books (P) Ltd. Drawing on the work of a large team of specialists, this book contains 500 entries on all the leading directors, stars, studios and genres in Indian

cinema. In addition to comprehensive filmographies, it also features 1450 entries on key films from all periods and regions, with cast and credits as well as concise critical evaluations. A chronicle of film history, together with basic production statistics and an index, complete the volume.

Magic and divination in
early Islam encompassed

a wide range of practices, including belief in jinn, warding off the evil eye, the production of amulets and other magical equipment, conjuring, wonder-working, dream interpretation, predicting the weather, casting lots, astrology, and physiognomy. The ten studies here are concerned with the pre-Islamic antecedents of such practices, and with the theory of magic in

healing, the nature and use of amulets and their decipherment, the arts of astrometeorology and geomancy, the refutation of astrology, and the role of the astrologer in society. Some of the studies are highly illustrated, some long out of print, some revised or composed for this volume, and one translated into English for the first time. These fundamental

investigations, together with the introductory bibliographic essay, are intended as a guide to the concepts, terminology, and basic scholarly literature of an important, but often overlooked, aspect of classical Islamic culture.
