 Method Acting is one of the most popular and controversial approaches to acting in the United States. It has not only shaped important schools of acting, but has been a fundamental constant of all American acting. This insightful volume explores Method Acting from a broad perspective, focusing on a point of equilibrium between the principles of the Method and its relationship to other theories of performance. David Krasner has gathered together some of the most well-known theater scholars and acting teachers to look at the Method. By concentrating on three areas of the Method - its theory, practice, and future application - the collection will serve to inform and teach us how to approach acting and acting theory in the 21st century.

 "The definitive source book on acting."—Los Angeles Times  
 Marlon Brando, Al Pacino, Paul Newman, Dustin Hoffman, Dennis Hopper, Robert DeNiro, Marilyn Monroe, and Joanne Woodward—these are only a few of the many actors training in "Method" acting by the great and legendary Lee Strasberg. This revolutionary theory of acting—developed by Stanislavski and continued by Strasberg—has been a major influence on the art of acting in our time. During his last decade, Strasberg devoted himself to a work that would explain once and for all what The Method was and how it worked, as well as telling the story of its development and of the people involved with it. The result is a masterpiece of wisdom and guidance for anyone involved with

the theater in any way. "A must for young actors—for old ones, too, for that matter."—Paul Newman "An exploration of the creative process that will reward all who are interested in the nature of inspiration."—Library Journal "An important cultural document."—Booklist

This transnational collection discusses the use of Native American imagery in twentieth and twenty-first-century European culture. With examples ranging from Irish oral myth, through the pop image of Indians promulgated in pornography, to the philosophical appropriations of Ernst Bloch or the European far right, contributors illustrate the legend of "the Indian." Drawing on American Indian literary nationalism, postcolonialism, and

transnational theories, essays demonstrate a complex nexus of power relations that seemingly allows European culture to build its own Native images, and ask what effect this has on the current treatment of indigenous peoples.

*Women Artists* Routledge

A comprehensive compendium of renowned art historian Linda Nochlin's work, including her landmark essays on the position and influence of women artists. Linda Nochlin was one of the most accessible, provocative, and innovative art historians of our time. In 1971, she published "Why Have There Been No Great Women Artists?"—a dramatic feminist call to arms that questioned traditional art historical practices and led to a major revision of the discipline. Now available in paperback, *Women Artists* brings together twenty-nine essential essays from throughout Nochlin's career. Included are her major thematic texts "Women Artists After the French Revolution" and "Starting from Scratch: The Beginnings of Feminist Art History," as well as her landmark 1971 essay and its rejoinder, " 'Why Have There Been No Great Women Artists?' Thirty Years After." These appear alongside monographic entries focusing on a selection of major women artists, including Mary Cassatt, Louise Bourgeois, Cecily Brown, Kiki Smith, Miwa Yanagi, and Sophie Calle.

 The original Getty Museum, housed in a replica of a Roman Villa on a site overlooking the Pacific Ocean, is one of Los Angeles's most treasured landmarks. Closed for almost ten years while renovations were made to the building and the site itself was transformed into a center for the study of antiquities and conservation, the Getty Villa is now set to open late in 2005. The Getty Villa is a lively history of the Getty Museum, its renowned antiquities collections, and its growth from a small museum in a ranch house in Malibu to its first home in a building designed to replicate what we know of the Villa dei Papiri, an ancient Roman villa partially uncovered in Herculaneum. Most engagingly, this book records the ten-year adventure in reconfiguring a beautiful, but topographically challenging, site into one that could continue

to accommodate the splendid Museum building and also provide for an outdoor theater, laboratories for conservation work and research, offices for staff and visiting scholars, and an education program for adults and children. This is a story of architectural imagination, geographical challenges, and legal hurdles, all of which have resulted in a truly unique and beautiful site. The story is an enlightening and rewarding one for anyone interested in architecture and in the difficulties posed by building on a grand scale in the twenty-first century. Beautifully illustrated throughout, the book includes 250 reproductions of works of art, photographs of both the old and the new Getty Museum, site plans, and architectural elevations.

In 1941 the Swiss art critic Pierre Courthion interviewed Henri Matisse while the artist was in bed recovering from a serious operation. It was an extensive interview, seen at the time as a vital assessment of Matisse's career and set to be published by Albert Skira's then newly established Swiss press. After months of complicated discussions between Courthion and Matisse, and just weeks before the book was to come out--the artist even had approved the cover design--Matisse suddenly refused its publication. A typescript of the interview now resides in Courthion's papers at the Getty Research Institute. This rich conversation, conducted during the Nazi occupation of France, is published for the first time in this volume, where it appears both in English translation and in the original French version. Matisse unravels memories of his youth and his life as a bohemian student in Gustave Moreau's atelier. He recounts his experience

with collectors, including Albert C. Barnes. He discusses fame, writers, musicians, politicians, and, most fascinatingly, his travels. Chatting with Henri Matisse, introduced by Serge Guilbaut, contains a preface by Claude Duthuit, Matisse's grandson, and essays by Yve-Alain Bois and Laurence Bertrand Dorleac. The book includes unpublished correspondence and other original documents related to Courthion's interview and abounds with details about avant-garde life, tactics, and artistic creativity in the first half of the twentieth century.

Dear Black Girls is a letter to all Black girls. Every day poet and educator Shanice Nicole is reminded of how special Black girls are and of how lucky she is to be one. In this celebratory poem, Kezna and Shanice remind young readers that despite differences, they all deserve to be loved just the way they are.

The Rat Bastard Protective Association was an inflammatory, close-knit community of artists who lived and worked in a building they dubbed Painterland in the Fillmore neighborhood of midcentury San Francisco. The artists who counted themselves among the Rat Bastards--which included Joan Brown, Bruce Conner, Jay DeFeo, Wally Hedrick, Michael McClure, and Manuel Neri--exhibited a unique fusion of radicalism, provocation, and community. Geographically isolated from a viable art market and refusing to conform to institutional expectations, they animated broader social and artistic discussions through their work and became a transformative part of American culture over time. Anastasia Aukeman presents new and little-known archival material in this authorized account of these artists and their circle, a colorful cultural milieu that intersected with the broader Beat scene.
