The Protestant Clergy of Early Modern Europe provides a comprehensive survey of the Protestant clergy in Europe during the confessional age. Eight contributions, written by historians with specialist research knowledge in the field, offer the reader a wide-ranging synthesis of the

main concerns of current historiography. Themes include the origins and the evolution of the Protestant clergy during the age of Reformation, the role and function of the clergy in the context of early modern history, and the contribution of the clergy to the developments of the age (the making of confessions, education, the reform of culture, social and political thought).

*Martin Luther, 1483-1546* Harvard University Press

Wolf presents astonishing findings from the recently opened Vatican archives--

discoveries that clarify the relations between National Socialism and the Vatican. He vividly illuminates the inner workings of the Vatican.

*The Protestant Clergy of Early Modern Europe* MIT Press

Communism, capitalism, work, crisis, and the market, described in simple storybook terms and illustrated by drawings of adorable little revolutionaries. Once upon a time, people yearned to be free of the misery of capitalism. How could their dreams come true? This little book proposes a different kind of communism,

one that is true to its ideals and free from authoritarianism. Offering relief for many who have been numbed by Marxist exegesis and given headaches by the earnest pompousness of socialist politics, it presents political theory in the simple terms of a children's story, accompanied by illustrations of lovable little revolutionaries experiencing their political awakening. It all unfolds like a story, with jealous princesses, fancy swords, displaced peasants, mean bosses, and tired workers—not to mention a Ouija board, a talking chair, and a big pot called “the state.” Before they know it, readers are learning about the economic history of feudalism, class struggles in capitalism, different ideas of communism, and more. Finally, competition between two factories leads to a crisis that the workers attempt to solve in six different ways (most of them borrowed from historic models of communist or socialist change). Each attempt fails, since true communism is not so easy after all. But it's also not that hard. At last, the people take everything into their own hands and decide for themselves how to continue. Happy ending? Only the future will tell. With an

epilogue that goes deeper into the theoretical issues behind the story, this book is perfect for all ages and all who desire a better world.

*Persönlichkeit und Geschichte* Harvard University Press

In Urgeschichte, Römerzeit und Frühmittelalter wurden Grundlagen für die Folgezeiten geschaffen. Im Hochmittelalter wuchs die Bevölkerung, neue Dörfer, neue Städte, Klöster, Burgen und neue Länder entstanden – die heutigen Bundesländer der Republik. Durch die jahrhundertelange Herrschaft der Habsburger wurden diese Länder miteinander und mit vielen anderen europäischen Regionen – Italien, Spanien, Belgien, Ungarn, Böhmen, Polen, Slowenien, Kroatien - verbunden. Die Monarchie der Habsburger ermöglichte "ihren" Völkern trotz aller Kritik eine positive kulturelle und politische Entwicklung. Hingegen konnte die junge Republik Österreich das Erbe des kriegsbedingten Mangels nicht bewältigen, das nach dem Zerfall der Monarchie 1918 durch Bankenkrise und politische Gegensätze verschärft wurde. Ein nationaler Konsens fehlte. Die Demokratie wich 1933 einer konservativen Diktatur.

1938 kam es zum vielfach bejubelten "Anschluss" an Hitlers Deutschland. Doch 1945 erhielt diese Republik eine "zweite Chance".

*History of the German people at the close of the middle ages* Рипол Классик

Thomas Mntzer was a radical pastor frustrated by the Reformation. He believed that Martin Luther's stand against the Church did not go far enough and demanded the realization of the Kingdom of Heaven on Earth. To that end, in 1524 he led the Peasants' War in Germany, an insurrection that culminated in his brutal execution. Gathered here, along with Mntzer's final confession, are some of his key rousing sermons attacking the princes and preaching an early form of communism. Wu Ming, the Italian authors' collective, brought the Radical Reformation to life in their bestselling novel *Q* (written under the pseudonym Luther Blissett). In an introduction, they examine how Mntzer has continued to inspire visionaries and radicals for the last 500 years.

*Theologie der Musik* Wipf and Stock Publishers

A classic work in its first translation into

English. The volume traces the development of German literature from the Middle Ages to the present day. It is both a scholarly study and an invaluable reference work for students.

**Der "Unterricht der Visitatoren" und die Durchsetzung der Reformation in Kursachsen**

Evangelische Verlagsanstalt  
Miranda will not be pigeonholed by the academy. It is to be strongly hoped that he is taken seriously, for there is in his writing the kind of discernment which may reform and renew Scripture study. Walter Brueggemann, Professor of Old Testament, Eden Theological Seminary  
This book, like the liberation theologies generally (Latin American, Black, feminist), challenges traditional 'intentional misunderstandings' of the Scripture by established powers. It allows familiar biblical passages, such as the parable of the rich man and Lazarus, to speak out with their original force and clarity--and the message sounds astonishingly new! An excellent translation by Robert Barr. Madeleine Boucher, Associate Professor of New Testament, Fordham University  
Jose Miranda's book is an extremely valuable statement, which advances the discussion

of biblical economics to a new stage. Miranda minces no words in exposing the exegetical sleight-of-hand attempted by 'conscience-tranquillizing theologians.' His passionate and informed defense of 'Christian communism' will have to be reckoned with by all who have professed a willingness to be obedient to the Gospel. Richard J. Mouw, Professor of Philosophy, Calvin College  
A scholarly study in biblical teaching--brief, direct, powerful--which puts the burden of proof on those who would deny that original and authentic Christianity is communistic (not, to say, Marxist). This is vintage Miranda--erudite, passionate, persuasive, and above all, disturbing. Robert T. Osborn, Chairman, Department of Religion, Duke University  
**Der deutsche Bauernkrieg** Univ of California Press

This volume presents an innovative view of the nation-state and its future.  
*Utopia and Dystopia in Prophetic Literature* C.H.Beck  
Der Band bietet ein neues Bild der religiösen und kirchlichen Wandlungsprozesse in Brandenburg und Sachsen vom späten 15. bis ins 17. Jahrhundert hinein. Anstelle der einen

kompakten reformatorischen Bewegung treten im Blick der Beiträge auf verschiedene Träger, Orte, Milieus und Frömmigkeitsformen die Vieldeutigkeit und ungleiche Wirkungsdauer der religiösen Erneuerungen in Kirche, Gesellschaft und Staaten hervor. Indem die Untersuchungen eine raumkundliche Perspektive nutzen, zeigen sie quellennah die in sozialen Netzwerken und Kommunikationsformen geistlicher Auseinandersetzungen greifbare Prägekraft und Reichweite der Reformationen vor Ort. So enthält das Werk anregende Beispiele vergleichender Landes- und religiöser Glaubensgeschichte – grenzübergreifend.

*A History of German Literature* Vantage Press

A Dubious Past examines from a new perspective the legacy of Ernst Jünger (1895-1998), one of the most fascinating figures in twentieth-century German intellectual life. From the time he burst onto the literary scene with *The Storms of Steel* in the early 1920s until he reached Olympian age in a reunited Germany, Jünger's writings on a vast range of topics generated scores of controversies. In old

age he became a cultural celebrity whose long life mirrored the tragic twists and turns of Germany's most difficult century. Elliot Neaman's study reflects an impressive investigation of published and unpublished material, including letters, interviews, and other media. Through his analysis of Jünger's work and its reception over the years, he addresses central questions of German intellectual life, such as the postwar radical conservative interpretation of the Holocaust, divided memory, German identity, left and right critiques of civilization, and the political allegiances of the German and European political right. A Dubious Past reconceptualizes intellectual fascism as a sophisticated critique of liberal humanism and Marxism, one that should be seen as coherent and—for a surprising number of contemporary intellectuals—all too attractive.

Cambridge University Press  
Als im März 1528 der "Unterricht der Visitatoren" in Wittenberg erschien, lag damit ein Handbuch zur Einführung der Reformation vor. Alle Leser konnten sich

nun informieren, wie in Kursachsen eine Reformation der Kirche angestrebt wurde. Kurfürst Johann von Sachsen sorgte dafür, dass Philipp Melanchthon gemeinsam mit Verwaltungsjuristen diesen Text verfasste, den neben anderen auch Martin Luther redigierte. Der "Unterricht der Visitatoren" ist ein so komplexes Buch, dass sich Wissenschaftler verschiedener Disziplinen damit im Frühjahr 2015 auf einer von der Deutsche Forschungsgemeinschaft geförderten Tagung in Jena auseinandergesetzt haben. Der aus dieser Tagung entstandene Aufsatzband vereint juristische, historische und theologische Beiträge, die sich durch gründliche Quellenkenntnis auszeichnen. Mit Beiträgen von Konrad Amann, Christin Bärwald, Joachim Bauer, Dagmar Blaha, Michael Beyer, Johannes Ehmann, Ralf Frassek, Ernst Koch, Volker Leppin, Stefan Michel, Georg Schmidt, Christopher Spehr, Siegrid Westphal und Eike Wolgast ["Der Unterricht der Visitatoren (Instruction for Visitors)" and the Implementation of the Reformation in the Electorate of Saxony] When "Der Unterricht der Visitatoren (Instruction for Visitors)" was published in Wittenberg in March 1528 it constituted a

compendium to initiate the reformation. Readers could now inform themselves of the reformational process of the church in the electorate of Saxony. John, Elector of Saxony arranged that Philip Melanchthon composed this text together with administrative lawyers, and that among others Martin Luther revised it. "Der Unterricht der Visitatoren" is such a complex work that researchers from different disciplines looked into that subject at a conference sponsored by the German Research Foundation in Jena in spring 2015. This volume is the outcome of the meeting and combines juridical, historical and theological articles characterized by their thorough knowledge of the sources.

### Pope and Devil Verso Books

Charles Darwin struggled to explain how forty thousand bees working in the dark, seemingly by instinct alone, could organize themselves to construct something as perfect as a honey comb. How do bees accomplish such incredible tasks? Synthesizing the findings of decades of experiments, *The Spirit of the Hive* presents a comprehensive picture of the genetic and physiological mechanisms

underlying the division of labor in honey bee colonies and explains how bees' complex social behavior has evolved over millions of years. Robert Page, one of the foremost honey bee geneticists in the world, sheds light on how the coordinated activity of hives arises naturally when worker bees respond to stimuli in their environment. The actions they take in turn alter the environment and so change the stimuli for their nestmates. For example, a bee detecting ample stores of pollen in the hive is inhibited from foraging for more, whereas detecting the presence of hungry young larvae will stimulate pollen

gathering. Division of labor, Page shows, is an inevitable product of group living, because individual bees vary genetically and physiologically in their sensitivities to stimuli and have different probabilities of encountering and responding to them. A fascinating window into self-organizing regulatory networks of honey bees, *The Spirit of the Hive* applies genomics, evolution, and behavior to elucidate the details of social structure and advance our understanding of complex adaptive systems in nature.

*On Revolution* Penguin Group

Martin Brecht hat mir seiner Lutherbiographie Maßstäbe gesetzt. Seine

Darstellung gewährt erhellende Einblicke in die Persönlichkeit, den Glauben und das Denken des Theologen, Reformators und Familienmenschen Martin Luther. Der zweite Band der Luther-Biografie hat das Thema "Ordnung und Abgrenzung der Reformation 1521-1532".
