Robert Rollock is best remembered today for the role he played in the development of Reformed covenant theology, a role defined especially by the uniquely mature treatment of a pre-fall covenant of works discovered in his thought. However, scholarship on Rollock's covenant thought

has until now been based almost entirely on an early modern English translation of Rollock's *Tractatus de vocatione efficaci* (1597), and has overlooked discussion of the covenant of works found both in Rollock's 1596 *Quaestiones et responsiones aliquot de Foedere Dei, deque Sacramento quod foederis Dei sigillum est* and his 1593 *Romans* commentary. This volume offers the first complete English translation of Rollock's 1596 catechism as well as English translations of relevant sections from his

Romans commentary that deal with the subject of God's covenants with man. Thus this volume stands to offer students of Reformed covenant theology a better understanding of Rollock's thought and the contribution he made to the evolution of Reformed theology, particularly on the matter of God's covenant with humankind before the fall.

Michelangelo, Leonardo, Raphael, Titian Princeton Review

Although Abu Hamid Muhammad al-Ghazali lived a relatively short life (1058-1111), he established himself as one of the most important thinkers in the history of Islam. The Incoherence of the Philosophers, written after more than a decade of travel and ascetic contemplation, contends that while such Muslim philosophers as Avicenna boasted of unassailable arguments on matters of theology and metaphysics, they could not deliver on their claims; moreover, many of

their assertions represented disguised heresy and unbelief. Despite its attempted refutation by the twelfth-century philosopher Ibn Rushd, al-Ghazali's work remains widely read and influential.

The Lost Italian Renaissance Yale University Press

"The Renaissance" (1300—1500) provides an overview of the years from the Late Middle Ages through the Renaissance. Special emphasis is given to the natural and political disasters that ravaged 14th-century Europe, as well as the unprecedented intellectual, cultural, and artistic flourishing of the 15th and 16th centuries. The Black Death, The Hundred Years' War, the invention of the printing press, the birth of humanism, and the life of Leonardo da Vinci are among the dramatic events vividly documented in this richly illustrated text. Challenging map exercises and provocative review questions encourage meaningful reflection and historical analysis. Tests and answer keys are included.

Oxford University Press, USA

History has been taught in a boring way for far too long. A subject as moving and powerful as humanity's past should be

inviting, and when it is told well, it is. Susan Wise Bauer succeeds in telling the captivating story of history with her best-selling history series. Parents and young readers have fallen in love with her narrative history, *The Story of the World*, and its accompanying Activity Book. Now teachers and home educators can take advantage of a new and valuable learning tool. These easy-to-use tests and answer keys, successfully used by hundreds of parents and teachers, provide an objective method for measuring retention of key facts, figures, and events from history. A combination of sequencing, matching, short-answer, and essay-style questions gives students a chance to show what they've learned. Used with the Activity Book and *The Story of the World*, the tests give educators a complete history curriculum for their elementary school students.

Art and Anatomy in Renaissance Italy Westview Press

James Hankins challenges the view that the Renaissance was the seedbed of modern republicanism, with Machiavelli as exemplary thinker. What most concerned Renaissance political theorists, Hankins

contends, was not reforming laws but shaping citizens. To secure the social good, they fostered virtue through a new program of education: the humanities.

Sex, Greed, Violence and Depravity in an Age of Beauty Anchor Books

Publisher Description

The Renaissance of Modern Europe. A Review of the Scientific, Artistic, Rationalistic, Revolutionary Revival, Dating from the 15th Century. Being a Lecture Delivered Before the Sunday Lecture Society, Etc The Renaissance (eBook)

A survey of the darker cultural elements that shaped the works of Renaissance-era master artists reveals the power politics, bigotry and corruption that overshadowed period Italy. 40,000 first printing.

Some Questions and Answers about God's Covenant and the Sacrament That Is a Seal of God's Covenant Islamic translation

This important study takes a new approach to understanding Italian Renaissance humanism, one of the most important cultural movements in Western history. Through a series of close textual studies, Patrick Baker explores the meaning that Italian Renaissance

humanism had for an essential but neglected group: the humanists themselves.

Humanism, Reformation, and the Art of Faith Princeton Review

This important and innovative book examines artists' mobility as a critical aspect of Italian Renaissance art. It is well known that many eminent artists such as Cimabue, Giotto, Donatello, Lotto, Michelangelo, Raphael, and Titian traveled. This book is the first to consider the sixteenth-century literary descriptions of their journeys in relation to the larger Renaissance discourse concerning mobility, geography, the act of creation, and selfhood. David Young Kim carefully explores relevant themes in Giorgio Vasari's monumental *Lives of the Artists*, in particular how style was understood to register an artist's encounter with place. Through new readings of critical ideas, long-standing regional prejudices, and entire biographies, *The Traveling Artist in the Italian Renaissance* provides a groundbreaking case for the significance of mobility in the interpretation of art and the wider discipline of art history.

Princeton Review

At the beginning of the fifteenth century, painters and sculptors were seldom

regarded as more than artisans and craftsmen, but within little more than a hundred years they had risen to the status of "artist." This book explores how early Renaissance artists gained recognition for the intellectual foundations of their activities and achieved artistic autonomy from enlightened patrons. A leading authority on Renaissance art, Francis Ames-Lewis traces the ways in which the social and intellectual concerns of painters and sculptors brought about the acceptance of their work as a liberal art, alongside other arts like poetry. He charts the development of the idea of the artist as a creative genius with a distinct identity and individuality. Ames-Lewis examines the various ways that Renaissance artists like Mantegna, Leonardo da Vinci, Raphael, and Dürer, as well as many other less well known painters and sculptors, pressed for intellectual independence. By writing treatises, biographies, poetry, and other literary works, by seeking contacts with humanists and literary men, and by

investigating the arts of the classical past, Renaissance artists honed their social graces and broadened their intellectual horizons. They also experienced a growing creative confidence and self-awareness that was expressed in novel self-portraits, works created solely to demonstrate pictorial skills, and monuments to commemorate themselves after death. *Soulcraft and Statecraft in Renaissance Italy* Indiana University Press
David Hotchkiss Price, a specialist in Renaissance cultural and ecclesiastical history, has broken new ground with this comprehensive analysis of Renaissance humanism as the foundation for Dürer's religious art and, in particular, for Dürer's reception of the Reformation movements. Price also offers an innovative study of the relationships between text and image, and a pioneering assessment of the representation of Jews in Dürer's religious art. David Price is Associate Professor of History and of Church History, Southern Methodist University.
