 An extraordinary retelling of the passionate and tragic love between the conquistador Cortez and the Indian woman Malinalli, his interpreter during his conquest of the Aztecs. Malinalli's Indian tribe has been conquered by the warrior Aztecs. When her father is killed in battle, she is raised by her wisewoman grandmother who imparts to her the knowledge that their founding forefather god, Quetzalcoatl, had abandoned them after being made drunk by a trickster god and committing incest with his sister. But he was determined to return with the rising sun and save her tribe from their present captivity. When Malinalli meets Cortez she, like many, suspects that he is the returning Quetzalcoatl, and assumes her task is to welcome him and help him destroy the Aztec empire and free her people. The two fall passionately in love, but Malinalli gradually comes to realize that Cortez's thirst for conquest is all too human, and that for gold and power, he is willing to destroy anyone, even his own men, even their own

love.

*Sounding Authentic* considers the intersecting influences of nationalism, modernism, and technological innovation on representations of ethnic and national identities in twentieth-century art music. Author Joshua S. Walden discusses these forces through the prism of what he terms the "rural miniature": short violin and piano pieces based on folk song and dance styles. This genre, mostly inspired by the folk music of Hungary, the Jewish diaspora, and Spain, was featured frequently on recordings and performance programs in the early twentieth century. Furthermore, *Sounding Authentic* shows how the music of urban Romany ensembles developed into nineteenth-century repertoire of virtuosic works in the style hongrois before ultimately influencing composers of rural miniatures. Walden persuasively demonstrates how rural miniatures represented folk and rural cultures in a manner that was perceived as authentic, even while they involved significant modification of the original sources. He also links them to the impulse toward realism in developing technologies of photography, film, and sound recording. *Sounding Authentic* examines the complex ways the rural miniature was used by makers of nationalist agendas, who sought folkloric authenticity as a basis for the construction of ethnic and national identities. The book also considers the genre's reception in European diaspora communities in America where it evoked and transformed memories of life before immigration, and traces how many rural miniatures were assimilated to the styles of American popular song and swing. Scholars interested in musicology, ethnography, the history of violin performance, twentieth-century European art music, the culture of the Jewish Diaspora and more will find *Sounding Authentic* an essential addition to their library.

WHAT I HAVE attempted in this book is a survey of song; the kind of song which one finds variously described as 'concert', 'art', or sometimes even 'classical song'. 'Concert song' seems the most useful, certainly the least inexact or misleading, of some descriptions, especially since 'art song' sounds primly off putting, and 'classical song' really ought to be used only to refer to songs written during the classical period, i. e. the 18th century. Concert song clearly means the kind of songs one hears sung at concerts or recitals. Addressing myself to the general music-lover who, though he possesses no special knowledge of the song literature, is nevertheless interested enough in songs and their

singers to attend recitals of Lieder or of songs in various languages, I have naturally confined myself to that period of time in which the vast majority of these songs was composed, though not necessarily only to those composers whose songs have survived to be remembered in recital programmes today. I suppose this to be roughly the three centuries covered by the years 1650-1950, though most of the songs we, as audiences, know and love were composed in the middle of this period, in other words in the 19th century.

A reference guide to the vast array of art song literature and composers from Latin America, this book introduces the music of Latin America from a singer's perspective and provides a basis for research into the songs of this richly musical area of the world. The book is divided by country into 22 chapters, with each chapter containing an introductory essay on the music of the region, a catalog of art songs for that country, and a list of publishers. Some chapters include information on additional sources. Singers and teachers may use descriptive annotations (language, poet) or pedagogical annotations (range, tessitura) to determine which pieces are appropriate for their voices or programming needs, or those of their students. The guide will be a valuable resource for vocalists and researchers, however familiar they may be with this glorious repertoire.
