2020 Yearly Planner - Zodiac Sign Taurus

Academic Planning/ Diary 2019-2020 Description Star signs versions All 12 of these planners include a star sign, choose yours to make the diary your own! Like breathing air, so education is important to give people knowledge and skills necessary to not only survive but prosper in the world. Children and adults thrive on education, its more than a must have, its a need, and a right. From tots to pensioners, everyone wants it. At the secondary level it becomes sufficiently challenging that keeping it all together becomes harder and harder. This is where an academic planner and diary becomes essential. My one runs from July to June next year and therefore covers the academic year for both the USA and the UK and also has the following inserts: A - A schedule to keep on track with where you are supposed to be. B - A three year calendar (2019-2021). For each month: 1 - There is a presentation planning page, 2 - A to-do page. 3 - Four weekly assignment pages. 4 - Two by two weekly project planner pages, 5 - One goal setting page, 6 - A one by 4 weekly grid page. Then diary pages with each line showing meeting times. A monthly calendar completes each page. Finally, five pages for your contacts. All pictures from Pixabay The book is 8.5" x 11" and 313 pages long A comprehensive book made just for you.
