Tourism Study Guide for Excellence CABI

Tourism is one of the world's biggest industries. Responsible tourism is concerned with the effects of tourism on people, ecology, and communities, and seeks to ameliorate these impacts by providing tourism which benefits host communities, improves working conditions, involves the local community, promotes cultural heritage, and benefits the environment. This book discusses responsible tourism as a whole, including the politics, policy and planning behind it, and the major subject sub-topics, such as poverty reduction, the environment, transport, governance, wildlife tours and heritage. It is.

This scholarly book is the third volume in an NWU book series on self-directed learning and is devoted to self-directed learning research and its impact on educational practice. The importance of self-directed learning for learners in the 21st century to equip themselves with the necessary skills to take responsibility for their own learning for life cannot be over emphasised. The target audience does not only consist of scholars in the field of self-directed learning in Higher Education and the Schooling sector but includes all scholars in the field of teaching and learning in all education and training sectors. The book contributes to the discourse on creating dispositions towards self-directed learning among all learners and adds to the latest body of scholarship in terms of self-directed

learning. Although from different perspectives, all chapters in the book are closely linked together around self-directed learning as a central theme, following on the work done in Volume 1 of this series (Self-Directed Learning for the 21st Century: Implications for Higher Education) to form a rich knowledge bank of work on self-directed learning.

Oxford Successful Tourism

This book focuses on how current and prospective teachers worldwide are prepared for the significant task of teaching geography, given the important role of teachers. It eschews a traditional career-centric framework (pre-service, in-service teaching) in favor of a topical approach toward issues that all teachers face. The book updates thinking on geography education subfields such as GI education and fieldwork and traces important contemporary discourses such as digitalization and sustainability. The book further explains the broad variety of institutionalization of geography teacher education in various political systems. In short, this book collects strategies for geography teacher educators worldwide to provide insight into the challenges, conditions, and solutions present at the classroom and institutional level. As such, this book is a must-have for teacher educators and geography teachers worldwide.
