NATIONAL BOOK AWARD FINALIST • One of the first undocumented immigrants to graduate from Harvard reveals the hidden lives of her fellow undocumented Americans in this deeply personal and groundbreaking portrait of a nation. “Karla’s book sheds light on people’s personal experiences and allows their stories to be told and their voices to be heard.”—Selena Gomez
 FINALIST FOR THE NBCC JOHN LEONARD AWARD • NAMED A BEST BOOK OF THE YEAR BY THE LOS ANGELES TIMES, THE NEW YORK TIMES BOOK REVIEW, NPR, THE NEW YORK PUBLIC LIBRARY, BOOK RIOT, LIBRARY JOURNAL, AND TIME
 Writer Karla Cornejo Villavicencio was on DACA when she decided to write about being undocumented for the first time using her own name. It was right after the election of 2016, the day she realized the story she’d tried to steer clear of was the only one she wanted to tell. So she wrote her immigration lawyer’s phone number on her hand in

Sharpie and embarked on a trip across the country to tell the stories of her fellow undocumented immigrants—and to find the hidden key to her own. Looking beyond the flashpoints of the border or the activism of the DREAMers, Cornejo Villavicencio explores the lives of the undocumented—and the mysteries of her own life. She finds the singular, effervescent characters across the nation often reduced in the media to political pawns or nameless laborers. The stories she tells are not deferential or naively inspirational but show the love, magic, heartbreak, insanity, and vulgarity that infuse the day-to-day lives of her subjects. In New York, we meet the undocumented workers who were recruited into the federally funded Ground Zero cleanup after 9/11. In Miami, we enter the ubiquitous botanicas, which offer medicinal herbs and potions to those whose status blocks them from any other healthcare options. In Flint, Michigan, we learn of demands for state ID in order to receive life-saving clean water. In Connecticut, Cornejo Villavicencio, childless by choice, finds family in two teenage girls whose father is in sanctuary. And through it all we see the author grappling with the biggest questions of love, duty, family, and survival. In her incandescent, relentlessly probing voice, Karla Cornejo Villavicencio combines

sensitive reporting and powerful personal narratives to bring to light remarkable stories of resilience, madness, and death. Through these stories we come to understand what it truly means to be a stray. An expendable. A hero. An American.

Thin Ice One World

From the best-selling author of *The Wind-Up Bird Chronicle* and *After Dark*, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he’d completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and—even more important—on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo’s Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a

cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, *What I Talk About When I Talk About Running* is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running.

An inside look at America's most controversial charter schools, and the moral and political questions around public education and school choice. The promise of public education is excellence for all. But that promise has seldom been kept for low-income children of color in America. In *How the Other Half Learns*, teacher and education journalist Robert Pondiscio focuses on Success Academy, the network of controversial charter schools in New York City founded by Eva Moskowitz, who has created something unprecedented in American education: a way for large numbers of engaged and ambitious low-income families of color to get an education for their children that equals and even exceeds what wealthy families take for granted. Her results are astonishing, her methods unorthodox. Decades of well-intended efforts to improve our schools and close the "achievement gap" have set equity and excellence at war with each other: If you are wealthy, with the means to pay private school tuition or move to an affluent community, you can get your child into an excellent school. But if you are poor and black or brown, you have to settle for "equity" and a lecture--about fairness. About the need to be patient. And about how school choice for you only damages public schools for everyone else. Thousands of parents have chosen Success Academy, and thousands more sit on waiting lists to get in. But Moskowitz herself admits Success Academy "is not for everyone," and this raises uncomfortable questions we'd rather not ask, let alone answer: What if the price of giving a first-rate education to children least likely to receive it means acknowledging that you can't do it for everyone? What if some problems are just too hard for schools alone to solve?

How The Other Half Learns Bantam

On November 29, 1864, over 150 Native Americans, mostly women, children, and elderly, were slaughtered in one of the most infamous cases of state-sponsored violence in U.S. history. Kelman examines how generations of Americans have struggled with the question of whether the nation's crimes, as well as its achievements, should be memorialized.

From the bestselling author of *The Accidental Billionaires* and *Bringing Down the House*, this is the incredible true story of how a college student and two female accomplices stole some of the rarest objects on the planet—moon rocks—from an "impregnable" high-tech vault. But breaking into a highly secure laboratory wasn't easy. Thad Roberts, an intern in a prestigious NASA training program, would have to concoct a meticulous plan to get past security checkpoints, an electronically locked door with cipher security codes, and camera-lined hallways even before he could get his hands on the 600-pound safe. And then how was he supposed to get it out? And what does one do with an item so valuable that it's illegal even to own? With his signature high-velocity style, Mezrich reconstructs the outlandish heist and tells a story of genius, love, and duplicity that reads like a Hollywood thrill ride.

"What does it mean to be lonely?" Thomas Dumm asks. His inquiry, documented in this book, takes us beyond social circumstances and into the deeper forces that shape our very existence as modern individuals. The modern individual, Dumm suggests, is fundamentally a lonely self.

Through reflections on philosophy, political theory, literature, and tragic drama, he proceeds to illuminate a hidden dimension of the human condition. His book shows how loneliness shapes the contemporary division between public and private, our inability to live with each other honestly and in comity, the estranged forms that our intimate relationships assume, and the weakness of our common bonds. A reading of the relationship between Cordelia and her father in Shakespeare's *King Lear* points to the most basic dynamic of modern loneliness—how it is a response to the problem of the "missing mother." Dumm goes on to explore the most important dimensions of lonely experience—Being, Having, Loving, and Grieving. As the book unfolds, he juxtaposes new interpretations of iconic cultural texts—*Moby-Dick*, *Death of a Salesman*, the film *Paris, Texas*, Emerson's "Experience," to name a few—with his own experiences of loneliness, as a son, as a father, and as a grieving husband and widower. Written with deceptive simplicity, *Loneliness as a Way of Life* is something rare—an intellectual study that is passionately personal. It challenges us, not to overcome our loneliness, but to learn how to re-inhabit it in a better way. To fail to do so, this book reveals, will only intensify the power that it holds over us.

The star and creative force behind *Mr. Show* and *Arrested Development* pens his "first and final book, chronicling his meteoric rise and abysmal fall in the literary world." After a decade spent in isolation in the Ugandan jungles thinking about stuff, David Cross has written his first book. Known for roles on the small screen such as "never-nude" Tobias Funke on *Arrested Development* and the role of "David" in *Mr. Show With Bob And David*, as well as a hugely successful stand-up routine full of sharp-tongued rants and rages, Cross has carved out his place in American comedy. Whether deflating the pomposity of religious figures, calling out the pathetic symbiosis of pseudo-celebrity and its leaching fandom, or merely pushing the buttons of the way-too-easily offended P.C. left or the caustic, double-standard of the callous (but funnier) right, Cross has something to say about everyone, including his own ridiculous self. Now, for the first time, Cross is weaving his media mockery, celebrity denunciation, religious commentary and sheer madness into book form, revealing the true story behind his almost existential distaste of Jim Belushi ("The Belush"), disclosing the up-to-now unpublished minutes to a meeting of Fox television network executives, and offering up a brutally grotesque run-in with Bill O'Reilly. And as if this wasn't enough for your laughing pleasure in these troubled times, some of the pieces splinter off with additional material being created online in exclusive video and animated web content created solely for the book—a historical first (presumably)! With a mix of personal essays, satirical fiction posing as truth, advice for rich people, information from America's least favorite Rabbi and a top-ten list of top-ten lists, *I Drink for a Reason* is as unique as the comedian himself, and cannot be missed.

"Why aren't you using LTM EBITDA for credit metrics?" asked the managing director who sat across from me, his widow's peak clearly visible as he inspected the sheet in front of him. His spacious office looked out onto New York Harbor. "Bust," said the vice president, who was a slightly younger, douchier version of *Widow's Peak*. He slashed his red ballpoint pen across the sheet and flipped to the next page. "Walk me through the debt paydown and your interest rate assumptions," continued the VP. "Pretty dovish view. Maybe the Fed knows what they're doing after all," said *Widow's Peak*. He shot a glance at the VP. They shared a chuckle—at what, I couldn't tell you. This question about interest rates I knew: Dovish, I thought. Doves fly south for the winter, so dovish is downwards...low interest rates—"We're running short on time," said *Widow's Peak*. He flipped to the cover page of my presentation. "One final point—all pitch decks should have the same title." "Since this presentation was geared towards an LBO analysis I was thinking—" "No thinking. All decks—same title—*Discussion Materials*." Noted. *Discussion Materials* gives the reader an honest look at Wall Street from someone in the trenches. After graduating from Columbia Business School, Bill Keenan joined Deutsche Bank's investment banking division as an associate where despotic superiors (and the blinking red light of his BlackBerry) instilled low-level terror on an hourly basis. You'll join him in his cubicle on the 44th floor of 60 Wall Street as he scrambles to ensure floating bar charts are the correct shade of orange and all numbers are left-aligned, but whatever you do, don't ask him what any of it means. Leaning heavily on his fellow junior bankers and the countless outsourcing resources the bank employs, he slowly develops proficiency at the job, eventually gaining traction and respect, one deal at a time, over a two-year span, ultimately cementing his legacy in the group by attaining the unattainable: placing a dinner order on Seamless one Sunday night at work from Hwa Yuan Szechuan amounting to \$25.00 (tax and tip included), the bank's maximum allowance for meals—the perfect order.

The Sober Truth ReadHowYouWant.com

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on

which differences between American regions are greater than between European nations.

Gravity's Rainbow Farrar, Straus and Giroux

Two generations of American music lovers have grown up listening with Robert Christgau, attuned to his inimitable blend of judgment, acuity, passion, erudition, wit, and caveat emptor. His writings, collected here, constitute a virtual encyclopedia of popular music over the past fifty years.

Whether honoring the originators of rock and roll, celebrating established artists, or spreading the word about newer ones, the book is pure enjoyment, a pleasure that takes its cues from the sounds it chronicles. A critical compendium of points of interest in American popular music and its far-flung diaspora, this book ranges from the 1950s singer-songwriter tradition through hip-hop, alternative, and beyond. With unflinching style and grace, Christgau negotiates the straits of great music and thorny politics, as in the cases of Public Enemy, blackface artist Emmett Miller, KRS-One, the Beastie Boys, and Lynyrd Skynyrd. He illuminates legends from pop music and the beginnings of rock and roll—George Gershwin, Nat King Cole, B. B. King, Chuck Berry, and Elvis Presley—and looks at the subtle transition to just plain “rock” in the music of Janis Joplin, the Rolling Stones, Eric Clapton, Aretha Franklin, James Brown, and others. He praises the endless vitality of Al Green, George Clinton, and Neil Young. And from the Rolling Stones to Sonic Youth to Nirvana, from Bette Midler to Michael Jackson to DJ Shadow, he shows how money calls the tune in careers that aren't necessarily compromised by their intercourse with commerce. Rock and punk and hip-hop, pop and world beat: this is the music of the second half of the twentieth century, skillfully framed in the work of a writer whose reach, insight, and perfect pitch make him one of the major cultural critics of our time.

Notes on Grief Oxford University Press

Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patterns) that we have only lately come to think of as “inanimate.” How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the

breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which—even at its most abstract—echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

Odd Man Rush Penguin

A powerful exposé of Alcoholics Anonymous, 12-step programs, and the rehab industry—and how a failed addiction treatment model came to dominate America. “A humane, science-based, global view of addiction . . . an essential, bracing critique of the rehab industry and its ideological foundations that we have much to learn from.” —Gabor Maté M.D., author of *In The Realm of Hungry Ghosts* Alcoholics Anonymous has become so infused in our society that it is practically synonymous with addiction recovery. Yet the evidence shows that AA has only a 5–10 percent success rate—hardly better than no treatment at all. Despite this, doctors, employers, and judges regularly refer addicted people to treatment programs and rehab facilities based on the 12-step model. In *The Sober Truth*, acclaimed addiction specialist Dr. Lance Dodes exposes the deeply flawed science that the 12-step industry has used to support its programs. Dr. Dodes analyzes dozens of studies to reveal a startling pattern of errors, misjudgments, and biases. He also pores over the research to highlight the best peer-reviewed studies available and discovers that they reach a grim consensus on the program's overall success. But *The Sober Truth* is more than a book about addiction. It is also a book about science and how and why AA and rehab became so popular, despite the discouraging data. Drawing from thirty-five years of clinical practice and firsthand accounts submitted by addicts, Dr. Dodes explores the entire story of AA's rise—from its origins in early fundamentalist religious and mystical beliefs to its present-day place of privilege in politics and media. A powerful response to the monopoly of the 12-step program and the myth that they are a universal solution to addiction, *The Sober Truth* offers new and actionable information for addicts, their families, and medical providers, and lays out better ways to understand addiction for those seeking a more effective and compassionate approach to this treatable problem.

The Hockey Book of Why (and Who, What, When, Where, and How) Wiley-IEEE Press

Should we pay children to read books or to get good grades? Should we allow corporations to pay for the right to pollute the atmosphere? Is it ethical to pay people to test risky new drugs or to donate their organs? What about hiring mercenaries to fight our wars? Auctioning admission to elite universities? Selling citizenship to immigrants willing to pay? In *What Money Can't Buy*, Michael J. Sandel takes on one of the biggest ethical questions of our time: Is there something wrong with a world in which everything is for sale? If so, how can we prevent market values from reaching into spheres of life where they don't belong? What are the moral limits of markets? In recent decades, market values have crowded out nonmarket norms in almost every aspect of life—medicine, education, government, law, art, sports, even family life and personal relations. Without quite realizing it, Sandel argues, we have drifted from having a market economy to being a market society. Is this where we want to be? In his New York Times bestseller *Justice*, Sandel showed himself to be a master at illuminating, with clarity and verve, the hard moral questions we confront in our everyday lives. Now, in *What Money Can't Buy*, he provokes an essential discussion that we, in our market-driven age, need to have: What is the proper role of markets in a democratic society—and how can we protect the moral and civic goods that markets don't honor and that money can't buy?
