TRISTIN JULISSA

Effective Business Communications Pearson Education India

The Murphy book gives strong emphasis to completeness, conciseness, consideration, concreteness, clearness, courteousness, and correctness in business communication. These "seven Cs" guide student-readers to choose the content and style that best fits the purpose and recipient of any given message. Pedagogically rich, most chapters in this paperback text include checklists, mini-cases and problems, "Communication Probe" boxes which summarize related research, and sidenotes that isolate significant points that should not be missed. Two new chapters are devoted to ethics and technology respectively.

Leadership Communication McGraw Hill Professional

The book for the first time explores in-depth the life and work of Herta Herzog (1910-2010), an Austrian-American social psychologist. Herzog spent most of her working life in the United States, where she moved to in the 1930s, following her first husband Paul Lazarsfeld into migration and working with him at the famous Office of Radio Research in Princeton and Columbia. The chapters by scholars from the U.S., Israel, Germany and Austria show the amazing scope of Herzog's work as both, one of the founders of empirical communication research and the "grand dame" of market and

motivation research. Herzog crossed many borders, moving from Europe to the U.S. and back again, stepping over disciplinary lines as well as restrictions by gender.

Managerial Communication John Wiley & Sons

This handbook covers perspectives from both the social sciences and the humanities. It provides guidelines for how to think about, plan, and carry out studies of media in different social and cultural contexts.

Business Information Sources Random House Trade

Milestones in Mass Communication Research, 3/e offers an impressive history of mass communication research over the past 60 years and emphasizes media effects.

Business Communication for Managers, 2/e Routledge

The Encyclopedia of Communication Theory provides students and researchers with a comprehensive two-volume overview of contemporary communication theory. Reference librarians report that students frequently approach them seeking a source that will provide them with a quick overview of a particular theory or theorist - just enough to help them grasp the general concept or theory and its relation to the discipline as a whole. Communication scholars and teachers also occasionally need a quick reference for theories. Edited by the co-authors of the best-selling textbook on communication theory and drawing on the expertise of an advisory board of 10 international scholars and nearly 200 contributors from 10 countries,

this work finally provides such a resource. More than 300 entries address topics related not only to paradigms, traditions, and schools, but also metatheory, methodology, inquiry, and applications and contexts. Entries cover several orientations, including psycho-cognitive; social-interactive; cybernetic and systems; cultural; critical; feminist; philosophical; rhetorical; semiotic, linguistic, and discursive; and non-Western. Concepts relate to interpersonal communication, groups and organizations, and media and mass communication. In sum, this encyclopedia offers the student of communication a sense of the history, development, and current status of the discipline, with an emphasis on the theories that comprise it.

Communicating a message effectively needs precision—be it verbal or non-verbal. At the professional front, the accuracy of the message to be shared becomes all the more important as the business decisions may depend on the same. This book, in its second edition, continues to detail on the pre-requisites of communicating effectively in the corporate environment and generally. Beginning with an overview of business communication, the book educates on the principles of communication—oral and written. Divided into nine chapters, the first two chapters deal with oral communication and the next seven deal with different forms of written communication. The book teaches how to write effective letters and prepare persuasive resumé. The chapters are well-supported with many examples and illustrative exhibits wherever required. A new chapter (Chapter 9) has been added titled ‘Writing to Communicate’ which presents incorrect use of language and phrases that rob the text, be it a report or a letter, of authenticity and credibility. The chapter also presents correct use of the examples and the rationale or logic in the form of explanations. Designed as a textbook for the management students, this book would be equally useful for the management professionals and executives. Key features

- Observes a simple pattern of Read-Comprehend-Test-Follow
- Discusses strategies for identification and improvisation of communication skills (both oral and written)
- Provides numerous examples and illustrations that facilitate proper grasp of the topics discussed.

My graduate students like this book’s real-world focus on public relations as a strategic role in the C-suite. —Ron Culp, professional director, Public Relations & Advertising graduate program, DePaul University; former Senior Vice President, Chief Communication Officer, Sears Leadership in Communication is a cogent, bright, easily readable definition of what corporate communicators do. More than that, it’s an uncommonly careful look at how strategic communication defines, drives, and creates value for a commercial enterprise—its employees, its owners, and those whom they serve. —James S. O’Rourke, IV, PhD, Professor of Management, Mendoza College of Business, University of Notre Dame The quality of leadership in any organization—business, social, military, and government—is enhanced or limited by the quality of its leadership communication. The authors assert that leadership is given force by strategic communication that produces results required in competitive conditions. For the professional in enterprise communication, this brings into focus two questions: What is the relevance of communication in the leadership process of reaching best achievable outcomes (BAOs)? And, how does the primary communication professional attain expert in uence and success in a leadership position? This book provides insights and guidance on functioning at the highest levels of the corpo rate communications profession.

Communication has evolved over the years. Face-to-face interactions of the past have given way to technology-driven channels of communication in present times. Communication audit, crisis communication, financial communication, communication beyond boundaries, and corporate communication are the new buzzwords in the language of business. The second edition of Business Communication for Managers, aimed at all MBA students, begins by briefly analysing the various theories of communication. It demonstrates methods of effective communication through examples, real-life scenarios, and role-plays. It adopts a multi-dimensional and integrative approach to solve communication dilemmas at the workplace and touches upon the thoughts related to attention, perception, empathy, and professionalism

Reveals the underlying story form of all great presentations that will not only create impact, but will move people to action Presentations are meant to inform, inspire, and persuade audiences. So why then do so many audiences leave feeling like they’ve wasted their time? All too often, presentations don't resonate with the audience and move them to transformative action. Just as the author's first book helped presenters become visual communicators, Resonate helps you make a strong connection with your audience and lead them to purposeful action. The author's approach is simple: building a presentation today is a bit like writing a documentary. Using this approach, you'll convey your content with passion, persuasion, and impact. Author has a proven track record, including having created the slides in Al Gore's Oscar-winning An Inconvenient Truth Focuses on content development methodologies that are not only fundamental but will move people to action Opens the usual paradigm by making the audience the hero and the presenter the mentor Shows how to use story techniques of conflict and resolution Presentations don't have to be boring ordeals. You can make them fun, exciting, and full of meaning. Leave your audiences energized and ready to take action with Resonate.

KEY BENEFIT: With its real-life examples and cases, and its lively, conversational writing style, Bovee/Thill/Mescon brings concepts to life and prepares students for obtaining and pursuing satisfying business careers. KEY TOPICS: Bovee/Thill/Mescon weaves a four-part pedagogical tool through out each chapter. It starts with Orient, which outlines what is going to be covered in the chapter and then connects these topics with a "role-model" business professional. Next is Explore, which looks at the skills that their "role-model" used in order to be successful. Third is Confirm, which revisits what they have learned in the chapter. And, finally, Apply allows students to use the skills they have learned in the chapter. MARKET: For introductory level business students.

[What Do We Really Know about Herta Herzog?](#) Scarborough, Ont. : Nelson Thomson Learning

Managerial Communication deals with communication problems in the organization and how they occur, as well as the importance of accurate communication to an individual manager's career. Focusing on the problems of business enterprise in the electronics industry, this book discusses personal factors affecting promotion, along with interpersonal and group communication. It also looks at approaches for improving organizational communication. This book is comprised of eight chapters and begins with an overview of communication concepts and limitations, including the concept of "noise" in the communication process; the growth of public interest in organizational communication; and some of the major problems affecting organizational communication. The next chapter examines the methods used to identify weak links in the communication process, especially highly structured questionnaires. A generalized profile of the electronics managers covered in this study is presented, including the factors affecting their career achievement as well as interpersonal and group communication. Some approaches to improve organizational communication are also described. This monograph is intended for people concerned with organizational communication and especially for those who are actively engaged in

management or supervision.

MBA In A Day McGraw-Hill Companies
