learning easier. Don't wait - buy this book now and watch your child master the quadfecta of riding a bike!

The Late Talker

Charlesbridge

A young boy and an outrageous bear demonstrate how to ride a bicycle safely.

Shy Learning to Ride

Ballantine Books

This book is a manual for horse riding instructors or any lay person that wishes to teach a child to ride. The book takes you from the very beginning of learning to ride to a stage where the child can compete. The book is full of wonderful ideas and tips to teach the child well. Not only is it a wealth of knowledge, it also encourages lots of fun during lessons. The book is great for dipping in and out of when needing help or inspiration. A must for anyone teaching children to ride ponies.

The Opposite of Worry

Kenilworth Press

Teaching Children to Ride offers advice, exercises, lesson plans, games and teaching tips designed to provide variety and sound instruction.

Compassionate and effective strategies for raising a child with ADHD. Parenting children with ADHD, whether diagnosed or undiagnosed, can be challenging and complex. But just as a child who struggles with reading can learn to decode words, children with ADHD can learn patience, communication, and solution-seeking skills to become more confident, independent, and capable. This book, rich with optimism, tips, tools, and action plans, offers science-based insights and systems for parents to help cultivate these skills. Combining expert information with practical, sensitive advice, the eight "key" concepts here will help parents reduce chaos, improve cooperation, and nurture the advantages—like creativity and drive—that often accompany all of that energy. Based on author Cindy Goldrich's seven-session workshop entitled *Calm and Connected: Parenting Kids with ADHD*©, this book focuses on developing and strengthening effective interpersonal skills in both parents and children as a way to

improve conflict resolution. Following the parenting principle to "Parent the child you have," Goldrich offers advice to help readers tailor their parenting to meet the needs of their unique child. The book also leads parents to recognize the value of being a leader and a guide to children, building parents' confidence in their decision-making, and giving children a sense of safety, security, and confidence. The principles outlined in 8 Keys to Parenting Children with ADHD are appropriate for parenting kids of all ages—until they have "launched" and are on their own.

Learn to Ride! Schwartz & Wade

This book was written to guide parents and teachers through teaching children to be around and ride school buses safely. The pictures show children waiting for, approaching, loading, riding, unloading and walking away from a school bus in safe ways. There is a guide suggesting ways to use the book effectively. After reading the book go the "Danger Zone" graphic that shows where a child should and should not be around a school bus.

"Other safety tips" offers extra discussion points to encourage safe riding.

"Check your knowledge" will help teachers and adults be certain children are understanding how to be safe around school buses. Reference links can help you find further information and graphics to help everyone be safer around school buses.

Rowman & Littlefield
Yes Mom and Dad You can teach your child how to ride from as early as 2-3 years old. This book will show you how to teach your little daughters and sons, safely and enjoyably. Your child will learn quickly and enjoyably. So will you, the child's parents, grandparents, and anyone else eager to have fun with a growing tot. The book *Shy Learning to Ride* is designed both, to show the adult how to teach riding a bicycle, and the tot, how to learn to ride. It teaches both, by example and by step-by-step instructions. Each step is accompanied by clear illustrations, showing how to succeed in each stage of the learning process, safely and enjoyably.

Enjoy. Be safe.

8 Keys to Parenting Children with ADHD (8 Keys to Mental Health)

Routledge

"A compelling story of everyday courage" (Elizabeth Gilbert). Patty Chang Anker grew up eager to please and afraid to fail. But after thirty-nine years, she decided it was time to stop being a chicken. Motivated initially to become a better role model for her two kids, she vowed to master the fears that were choking the fun and spontaneity out of life. She learned to dive into a swimming pool, ride a bike, do a handstand, and surf. As she shared her experiences, she discovered that most people suffer from their own secret terrors—of flying, driving, heights, public speaking, and more. It became her mission to help others do what they thought they couldn't and to experience the joy and aliveness that is the true reward of becoming brave. Inspired and inspiring, this book draws on Anker's interviews with teachers, therapists, coaches, and clergy to convey both practical advice and profound wisdom. Through her own journey and the stories of

others, she conveys with grace and infectious exhilaration the most vital lesson of all: Fear isn't the end point to life, but the point of entry.

The Riding Lesson Flatiron Books

Provides an overview of the features of verbal apraxia, also referred to as dyspraxia, and evaluates the needed therapies and interventions and the role of parents and other care givers in helping these children speak.

Grown and Flown Diggle de Doo productions
PARENTING NEVER ENDS. From the founders of the #1 site for parents of teens and young adults comes an essential guide for building strong relationships with your teens and preparing them to successfully launch into adulthood The high school and college years: an extended roller coaster of academics, friends, first loves, first break-ups, driver's ed, jobs, and everything in between. Kids are constantly changing and how we parent them must change, too. But how do we stay close as a family as our lives move apart? Enter the co-founders of *Grown and Flown*, Lisa Heffernan and Mary Dell Harrington. In the midst of

guiding their own kids through this transition, they launched what has become the largest website and online community for parents of fifteen to twenty-five year olds. Now they've compiled new takeaways and fresh insights from all that they've learned into this handy, must-have guide. *Grown and Flown* is a one-stop resource for parenting teenagers, leading up to—and through—high school and those first years of independence. It covers everything from the monumental (how to let your kids go) to the mundane (how to shop for a dorm room). Organized by topic—such as academics, anxiety and mental health, college life—it features a combination of stories, advice from professionals, and practical sidebars. Consider this your parenting lifeline: an easy-to-use manual that offers support and perspective. *Grown and Flown* is required reading for anyone looking to raise an adult with whom you have an enduring, profound connection.

Mop Rides the Waves of Life Harper Collins
Down, down, down. Step down below to see the world. A fantastical

journey introduces young readers to subway travel. Five children pay the fare, pass through the gates, and zip through the tunnels of subway stations in ten cities around the globe. The trip around the world underscores how travel and cultural connections create community. Back matter includes information about the ten stations mentioned: Atlanta, Cairo, Chicago, London, Mexico City, Moscow, New York City, Stockholm, Tokyo, and Washington, D.C.

Horseback Riding for Beginners - Learn to ride horses Marshall Cavendish

A heartfelt story of a father and a son, of grief and reconnection—and an albatross who needs to find her way home. Javier has a secret. On one of his father's fishing trips, still hurting from the loss of his mother, he finds an albatross caught on the hooks—alive, if only barely. Against the orders of his father, who has been distant and disparaging, Javier smuggles the bird to safety and begins nursing it back to health. Every day the albatross accepts a little more food, but she shows no sign of wanting to use her wings. And if

Javier's new friend refuses to fly, how will she ever find her way home? From award-winning author Nicola Davies, with dramatic watercolors by Salvatore Rubbino evoking the setting of Chiloé Archipelago, off the coast of Chile, comes a stirring tale of loss, loneliness, and the power of empathy.

Dreams of Horses

Kenilworth Press

"The most helpful book on childhood anxiety I have ever read."—Michael Thompson, Ph.D. Whether it's the monster in the closet or the fear that arises from new social situations, school, or sports, anxiety can be especially challenging and maddening for children. And since anxiety has a mind of its own, logic and reassurance often fail, leaving parents increasingly frustrated about how to help. Now Lawrence J. Cohen, Ph.D., the author of *Playful Parenting*, provides a special set of tools to handle childhood anxiety. Offering simple, effective strategies that build connection through fun, play, and empathy, Dr. Cohen helps parents • start from a place of warmth, compassion, and understanding • teach children the basics of the

body's "security system": alert, alarm, assessment, and all clear. • promote tolerance of uncertainty and discomfort by finding the balance between outright avoidance and "white-knuckling" through a fear • find lighthearted ways to release tension in the moment, labeling stressful emotions on a child-friendly scale • tackle their own anxieties so they can stay calm when a child is distressed • bring children out of their anxious thoughts and into their bodies by using relaxation, breathing, writing, drawing, and playful roughhousing With this insightful resource of easy-to-implement solutions and strategies, you and your child can experience the opposite of worry, anxiety, and fear and embrace connection, trust, and joy. Praise for *The Opposite of Worry* "The Opposite of Worry is an informative resource for parents and other family members. The book is easy to read, comprehensive and notable for its many practical suggestions."—New England Psychologist "Good advice for parents making daily calls to the pediatrician . . . Anxiety is a full-body sport, and

Cohen's main advice is not to treat it with words but with actions. . . . Physicality is about living in the present, and for anxious people, the present is a powerful place of healing. Intended for parents of children ages 3 to 15, this book offers anecdotes and fun anti-anxiety games."—Publishers Weekly "Here's the help parents of anxious children have been looking for! Dr. Cohen's genius is in the warm and generous spirit of the strategies he outlines for parents. He grounds his playful approach in a sound explanation of how anxiety affects children, and how they heal. Parents will come away with plenty of ideas to help them develop their children's confidence. While reading, I found myself thinking, 'I'd like to try that for myself!'"—Patty Wipfler, founder and program director, *Hand in Hand Parenting* "If you want to understand your child's anxiety—and your own parental worries—you must read Larry Cohen's brilliant book, *The Opposite of Worry*. Dr. Cohen is one of the most imaginative and thoughtful psychologists you will ever encounter.

He explains how and why children become anxious and then shows how we can use empathy and play to help them escape from the terrifying dark corners of childhood.”—Michael Thompson, Ph.D. “The Opposite of Worry offers a treasure trove of ideas to help children feel confident and secure. Lawrence Cohen has written a book that will help every parent of an anxious child.”—Aletha Solter, Ph.D., founder, Aware Parenting, and author of *Attachment Play Ride the Wind* Taylor & Francis

As a teacher, Jim Yerman has "lived with autism" for over thirty years. In many ways, his students have become part of his family. And, as with a family, he has learned to laugh and find humor in the absurdity of everyday situations, for they certainly exist! This book chronicles some of those situations. Most of them are humorous, some are sad, and a few are downright surreal. But they're all real, refreshing, and honest experiences about autism. Each student and each story has important lessons infused. Ride through Jim's teaching history from Ohio to Florida, from working in an integrated

university school, into a center for only special-needs students and back to a regular middle and high school. You're in for a wild ride!

Roads Were Not Built for Cars XinXii

“[Raschka's] marvelous sequences, fluid style, and emotional intelligence capture all of the momentum and exhilaration of this glorious accomplishment,” raves School Library Journal in a starred review. Learning to ride a bike is one of the most important milestones of childhood, and no one captures the emotional ups and downs of the experience better than Chris Raschka, who won the 2012 Caldecott Medal for *A Ball for Daisy*. In this simple yet emotionally rich "guide," a father takes his daughter through all the steps in the process—from choosing the perfect bicycle to that triumphant first successful ride. Using very few words and lots of expressive pictures, here is a picture book that not only shows kids how to learn to ride, but captures what it feels like to fall . . . get up . . . fall again . . . and finally "by luck, grace, and determination" ride a bicycle!

Teaching Children to Ride

W. W. Norton & Company
Cure your kids of the entitlement epidemic so they develop happier, more productive attitudes that will carry them into a successful adulthood.

Whenever Amy McCready mentions the "entitlement epidemic" to a group of parents, she is inevitably met with eye rolls, nodding heads, and loaded comments about affected children. It seems everywhere one looks, there are preschoolers who only behave in the grocery store for a treat, narcissistic teenagers posting selfies across all forms of social media, and adult children living off their parents. Parenting expert McCready reveals in this book that the solution is to help kids develop healthy attitudes in life. By setting up limits with consequences and training them in responsible behavior and decision making, parents can rid their homes of the entitlement epidemic and raise confident, resilient, and successful children. Whether parents are starting from scratch with a young toddler or navigating the teen years, they will find in this book proven strategies to effectively quell entitled attitudes in their children. Subway Ride Reading
Matter

Instructional scaffolding is
an essential part of
teaching literacy. But
what is scaffolding

exactly? What does it look
like in a classroom, and
how can we improve the
ways we use it? Despite
its prominence in the
repertoire of teaching
strategies, scaffolding
remains a vague concept
for many teachers. ' In

essence, scaffolding is the
idea of supporting
students as they build
independence. In The
Construction Zone:

Building Scaffolding for
Readers and Writers,
Terry Thompson identifies
four critical processes to
deepen your
understanding and
improve your practice of
instructional scaffolding: ' "

' ' ' ' ' ' ' ' Finding and
maintaining a specific
focus . ' ' ' ' ' ' ' ' Practicing
flexibility in planning and
delivering instruction . ' ' ' ' ' "

' ' ' ' Giving constructive
feedback in response to
student efforts . ' ' ' ' ' ' ' ' Monitoring to ensure that
students are working at
optimal levels of
responsibility Thompson'
encourages teachers to
enhance their use of the

traditional gradual release
process through five
actionable steps: show,
share, support, sustain,
and survey, and in doing
so provides procedures
and techniques to help
them establish and
maintain strong scaffolds
throughout the
instructional day. The
Construction Zone is
written from the teacher's
perspective and urges
educators to fully
embrace their role in the
scaffolding process while
staying mindful of the
effect it has on students. ' "

Taking a student from
dependence upon the
teacher to independent
learning is what teaching
is all about, and
instructional scaffolding is
key to accomplishing this
goal. Regardless of where
you are in your
understanding of
instructional scaffolding,
The Construction Zone
will raise your level of
awareness around your
instructional practices and
the ways you scaffold
students to
independence.' ' "

Mattson.

Some Nerve Penguin
What type of cities do we
want our children to grow
up in? Car-dominated,
noisy, polluted and devoid
of nature? Or walkable,
welcoming, and green? As
the climate crisis and
urbanisation escalate,
cities urgently need to
become more inclusive
and sustainable. This book
reveals how seeing cities
through the eyes of
children strengthens the
case for planning and
transportation policies
that work for people of all
ages, and for the planet. It
shows how urban
designers and city
planners can incorporate

child friendly insights and ideas into their masterplans, public spaces and streetscapes.

Healthier children mean happier families, stronger communities, greener

neighbourhoods, and an economy focused on the long-term. Make cities better for everyone.
