They understood that to draw a figure you must first learn its underlying architecture. Touching on structural drawing, the skeleton, musculature and modelling, this sketchbook includes 20 pioneering examples of anatomical study alongside helpful directions from celebrated artists, scientists and art historians. Whether drawing hands with Raphael, an eye with Escher, a foot with da Vinci or a torso with Giacometti, you will come to understand each element of the body and how they form a whole. The masterpieces, wisdom and glossary included in these aided sketchbooks together offer a strong foundation for artistic progression, and there's plenty of blank space to work your thoughts through. THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine! Hal Elrod, author of The Miracle Morning In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: \* TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. \* ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. \* PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like

many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls "intentional living": making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. \*\*\* This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. \*\*\*

Greek-born Italian painter Giorgio De Chirico (1888-1978) was hugely influential in the early years of the Surrealist movement. His paintings during the teens in Paris, where he moved in 1911, caused such a stir that such important figures as Picasso and Paul Eluard immediately praised them. This phase of his work, which he later termed *pittura metafisica* (metaphysical painting) was marked by dramatic compositions involving sharp perspective, striking shadows, geometrical planes, voids of space, and a general feeling of anxiety and loneliness; the sense of absurdity evoked by the mannequin-like figures in almost nightmarish landscapes seemed to suggest a Freudian expression of the unconscious. After 1930, De Chirico turned to a more classical style of painting and continued in the same vein for the rest of his career; his later work was widely criticized, especially by the Surrealists who had so admired his early paintings.

This volume presents Dutch painter Piet Mondrian (1872-1944). His earliest landscapes are rendered in an Impressionistic style but, possess the marked vertical and horizontal tendencies that foreshadow his mature paintings. Mondrian's work began to show the influences of Cubism, and in 1912, the artist moved to Paris where he continued to refine his style, continually exploring increasingly sophisticated compositions. In his paintings, Mondrian strove to achieve a universal form of expression by reducing form and color to their simplest components. The artist termed his work "Neo-Plasticism". Mondrian's most well-known works consisted of white ground, upon which was painted a grid of vertical and horizontal black lines and the three primary colors.
