Reflections on the Death of a Porcupine and Other Essays Columbia University Press

These celebrated lectures constitute one of Isaiah Berlin's most concise, accessible, and convincing presentations of his views on human freedom—views that later found expression in such famous works as "Two Concepts of Liberty" and were at the heart of his lifelong work on the Enlightenment and its critics. When they were broadcast on BBC radio in 1952, the lectures created a sensation and confirmed Berlin's reputation as an intellectual who could speak to the public in an appealing and compelling way. A recording of only one of

the lectures has survived, but Henry Hardy has recreated them all here from BBC transcripts and Berlin's annotated drafts. Hardy has also added, as an appendix to this new edition, a revealing text of "Two Concepts" based on Berlin's earliest surviving drafts, which throws light on some of the issues raised by the essay. And, in a new foreword, historian Enrique Krauze traces the origin of Berlin's idea of negative freedom to his rejection of the notion that the creation of the State of Israel left Jews with only two choices: to emigrate to Israel or to renounce Jewish identity.

Konrad Koerner, a leading historian of linguistics, has long said that an academic field cannot be considered to have matured until it has history as one of its

subfields. The history of linguistics is a growing area, having come into its own in the 1960s, especially after Noam Chomsky looked for historical roots for his work. In contrast, the history of language teaching has been neglected, reflecting the insecurity and youth of the field. Most works on the subject have been written by linguists for other linguists, and typically focus on a specific period or aspect of history. This volume concentrates on the basic issues, events, and threads of the history of the field - from Mesopotamia to the present - showing how a knowledge of this history can inform the practice of language teaching in the present.

David Baldacci delivers a moving, family drama about learning to love again after terrible heartbreak and loss in this classic New York Times bestseller—soon to be a Hallmark original movie. It's almost Christmas, but there is no joy in the house of terminally ill Jack and his family. With only a short time left to live, he spends his last days preparing to say goodbye to his devoted wife, Lizzie, and their three children. Then, unthinkably, tragedy strikes again: Lizzie is killed in a car accident. With no one able to care for them, the children are separated from each other and sent to live with family members around the country. Just when all seems lost, Jack begins to recover in a miraculous turn of events. He rises from what should have been his deathbed, determined to bring his fractured family back together. Struggling to rebuild their lives after Lizzie's death, he reunites everyone at Lizzie's childhood home on the oceanfront in South Carolina. And there, over one unforgettable summer, Jack will begin to learn to love again, and he and his children will learn how to become a family once more.

Currently, families are being subjected to increasing public attention. Interest is focussing on their potential strengths and weaknesses in determining how well children do at school. Alongside such human-development oriented expectations, families are also becoming a focus of attention as a resource for human capital in times of economic crises and criticism of the welfare state. In many European countries, parents and children are at the forefront of the welfare state and socio-educational activities in current programs and policies. The current transformation processes in the welfare state are making the relationship between families and the state more dynamic in general, and they are structuring the discourses on the childrearing, education, and child care services in the fields of both public and private responsibility. The introduction of all-day schooling in Germany also has to be viewed in this context. This is gradually changing the traditional half-day structure of German schools and shifting the borders of public and private responsibility on the levels of education, child care, and childrearing institutions. The attention given to

parental childrearing and educational responsibility within the context of current national and international debates clearly underlines the fact that issues in private life are increasingly entering the public discourse and becoming subject to attempts at socio-political control. This raises the assumption of an increasing politicization of parenthood in the (post) welfare state that is focusing more and more attention on the structural conditions of gainful employment and child care as well as on the current relations between the genders. This context particularly emphasizes the time and care regimes that decisively determine the practices in daily family life and the utilization of all-day education settings.

Our lives today are oppressed by the demand that we live, feel and experience with ever greater intensity. We are enticed to try exotic flavors and smells; urged to enjoy a wide range of sexual experiences; pushed to engage in extreme sports and recreational drugs - all in the pursuit of some new, unheard-of intensity. Tristan Garcia argues that such intensity rarely lives up to its promise. It always comes at a price: one that defines the ethical predicament of contemporary life. The notion of intensity was the hidden key to Garcia's landmark book *Form and Object*. In *The Life Intense*, the first part of his ambitious *Letting Be* trilogy, he begins to develop it in detail. This first book focuses on ethics; the forthcoming volumes will be devoted to politics and then metaphysics. **The Politicization of Parenthood** Aphrodisia A concise introduction to one of today's fastest-growing, most exciting fields, **Comics Studies: A Guidebook** outlines core research questions and introduces comics' history, form, genres, audiences, and industries. Authored by a diverse roster of leading scholars, this Guidebook offers a perfect entryway to the world of comics scholarship.

The year is 1983, and Chuck Klosterman just wants to rock. But he's got problems. For one, he's in the fifth grade. For another, he lives in rural North Dakota. Worst of all, his parents aren't exactly down with the long hairstyle which rocking requires. Luckily, his brother saves the day when he brings home a bit of manna from metal heaven, SHOUT AT THE DEVIL, Motley Crue's seminal paean to hair-band excess. And so Klosterman's twisted odyssey begins, a journey spent worshipping at the heavy metal altar of Poison, Lita Ford and Guns N' Roses. In the hilarious, young-man-growing-up-with-a-soundtrack-tradition, FARGO ROCK CITY chronicles Klosterman's formative years through the lens of heavy metal, the irony-deficient genre that, for better or worse, dominated the pop charts throughout the 1980s. For readers of Dave Eggers, Lester Bangs, and Nick Hornby, Klosterman delivers all the goods: from his first dance (with a girl) and his eye-opening trip to Mandan with the debate team; to his list of 'essential' albums; and his thoughtful analysis of the similarities between Guns 'n' Roses' 'Lies' and the gospels of the New Testament.
